AN ORDINANCE regarding traffic; and extending the expiration date of Ordinance No. 3948, establishing Levels of Service on the street system of the City.

WHEREAS, on September 6, 1988, the City Council enacted Ordinance No. 3948, regarding the establishment of level of service requirements on the street system of the City; and

WHEREAS, Ordinance No. 3948 added a Section 23.10.034 to the Bellevue City Code, which provides that applications under Land Use Code Process I or Process II (excluding applications for reclassifications of property) and building permit applications (excluding applications for tenant improvements) cannot be approved unless designated level of service requirements are maintained on affected portions of the City street system; and

WHEREAS, on September 6, 1988, the City Council also adopted Resolution No. 5053, stating the Council's intent to establish a public process to determine how traffic impacts from new development will be regulated and/or funded; and

WHEREAS, Resolution No. 5053 also established a Traffic Impact Task Force to develop programs, regulations and financing mechanisms to assure that transportation improvements are constructed as needed to support ongoing growth and development, to identify appropriate standards for transportation levels, and to identify financing mechanisms which allocate costs for transportation improvements equitably; and

WHEREAS, since its establishment, the Task Force has been pursuing its charge under Resolution No. 5053 and has periodically briefed the Council Subcommittee formed under the Resolution to oversee the work of the Task Force; and

WHEREAS, Ordinance No. 3948 expires and ceases to be in effect on March 6, 1989; and

WHEREAS, the original schedule for adoption of a permanent traffic ordinance anticipated that such an ordinance could be adopted and in effect prior to the March 6, 1989 expiration date of Ordinance No. 3948; and

WHEREAS, because of the need to develop and analyze additional financial data related to the development of transportation facilities, it will be impossible to adopt a permanent ordinance by the March 6, 1989 expiration date; and
