

COMMUNITY FORUM HOSTED BY CITY OF BELLEVUE
ENERGIZE EASTSIDE PROJECT

Agenda:

- 7-9pm Open House – Comment Tables Open
- 7:30pm Welcome, Staff introductions, Public Speakers
- 9:00pm Conclude

All feedback from oral speakers, tables, and comment cards will be included in a report to Council and Puget Sound Energy. A summary of tonight’s Community Forum will be presented to City Council at the Council Study Session on June 16th, 2014.

Opportunity to provide input and feedback:

- Comments will be taken from 7-9pm at each of the topical tables; Community Engagement Process, Neighborhood Character, Environmental Impacts, Public Health, Alternatives to Consider, Need for Expanded Capacity, Questions and Suggestions.
- General comments may be written on comment cards and turned in at the box at the registration table.
- Questions and suggestions may be submitted at the “Questions and Suggestions” table. If you would like a personal response, please be sure to leave your contact information attached to your question. Answers to frequently asked questions will be assembled and posted online at the City’s webpage, <http://www.bellevuewa.gov/electrical-facilities.htm>
- Input and feedback can also be submitted online and emailed to energizeeastside@bellevuewa.gov.

Speaking in the Chamber:

In anticipation that there will be a large number of people interested in speaking tonight, we wanted to facilitate a process that provides everyone with an equal opportunity to speak. To achieve that goal, we will be randomly drawing the order of speakers from all who sign up and not giving preference to the first who arrive (or arrive early).

- Speakers may sign up outside the Council Chambers until 7:30 p.m. Names will be drawn and called in groups of three until 9pm. You must be present and only the name called may speak. Speakers are limited to 3 minutes.
- Speakers will state their name and neighborhood and be limited to 3 minutes. You will be given a signal when you have 30 seconds remaining.
- If you are called to speak, and your points have been made previously, feel free to agree with a previous speaker and/or pass. This gives more people an opportunity to speak.
