- 5) Execution of an Interlocal Agreement (and supplements if necessary) with King County Metro for Commute Trip Reduction services in the amount of \$204,946.

FISCAL IMPACT:

The Local Agency Agreement with WSDOT allows Bellevue to receive its proportionate share of state technical assistance funding, on a reimbursable basis, for Commute Trip Reduction activities during the Washington State 2011-2013 biennium. POLICY CONSIDERATION:

The goal of the Transportation Demand Management section in the Transportation Element of the Bellevue Comprehensive Plan is to "reduce the use of single-occupant vehicles and vehicle miles traveled through a coordinated program of regulations, marketing and the provision of alternative travel options." Specifically, policies TR-9 and TR-10 in this section support CTR program implementation.

In addition, Bellevue City Code section 14.40 codifies the City's Commute Trip Reduction regulations as adopted by Ordinance No. 5795 (March 2008), which amended the City's CTR regulations as required by the State CTR Act of 1991, and later amended in 2006.

BACKGROUND:

WSDOT CTR Implementation Agreement

The 2006 State CTR Efficiency Act, an update of the 1991 CTR Act, requires local governments in the areas of the state experiencing the most freeway congestion to develop and implement plans to help employers reduce single-occupant vehicle commute trips. Employers with more than 100 employees who commute to work between the hours of 6:00 a.m. and 9:00 a.m. are required to develop trip reduction plans to achieve specific trip reduction goals by certain years as specified by the law. In addition, the updated state law incorporates jurisdiction-wide goals and requires jurisdictions to work with their regional transportation planning organizations to develop and implement updates to their CTR plans. The City's CTR Plan and revised City ordinance adopting 2006 state requirements were adopted by City Council in March 2008 (Ordinance No. 5795).

The State CTR Board determines jurisdiction-level allocations for State CTR funding. Current allocations are based on the Board's CTR Program Funding Allocation Policy adopted in December 2008. This policy provides funds on a per-worksite basis to support the costs of required program activities, as well as to help jurisdictions meet the goals in their CTR plans. There are currently 59 CTR worksites in Bellevue. The State is awarding two years of funding at the start of the biennium, resulting in a two-year Implementation Agreement with an administrative work plan.

The previous CTR implementation agreement with the State was adopted by Council on October 19, 2009 (Ordinance No. 5912).

King County Metro Service Agreement

Since 1994, the City has contracted with King County Metro to provide CTR implementation services for CTR sites in Bellevue. CTR implementation services include time spent with each employer to develop and optimize a trip reduction program for each location and type of business; assistance with program implementation and monitoring; assistance with state-required biennial employer surveys; training and continuing support for each site's Employee Transportation Coordinator; and staff assistance with special projects relating to CTR implementation as, mutually agreed by the City and the County. The overall scope of work is consistent with the requirements set forth by the CTR Efficiency Act of 2006.

The previous CTR services agreement with King County was adopted by Council on October 19, 2009 (Ordinance No. 5912).
