

CITY OF BELLEVUE, WASHINGTON

ORDINANCE NO. 5893

AN ORDINANCE providing for the use of alternative contracting procedure methods in the contracting of public works projects; creating new Section 4.28.142 in the Bellevue City Code; and establishing an effective date.

WHEREAS, alternative public works contracting procedures are authorized under state law; and

WHEREAS, the City Council finds that use of job order contracts for certain public works will benefit the public by providing an effective means of reducing the total lead-time and cost for the construction of public works projects for repair and renovation required at public facilities through the use of unit price books and work orders by eliminating time-consuming, costly aspects of the traditional public works process, which require separate contracting actions for each small project; now, therefore
