

Homeowners - before you tackle the yard this fall, attend...

NATURAL YARD CARE CLASSES

Healthy Growing for You and the Environment

Attend these *free* workshops and discover how easy it is to grow a healthier lawn and garden! Your gardening practices can have a big impact on the health of your family and pets, our regional resources and the quality of our local waterways. Register today and make a difference in your neighborhood. Free how-to natural gardening guides provided at each class.

Fall Yard Care

Thursday, September 20th • Speaker: Ladd Smith

Fall is an ideal time to get your lawn and garden back in shape. Act now for a thicker, healthier lawn with less moss and fewer weed problems. Choose the right garden clean up tasks to grow healthier plants, reduce weeds and help control pests and disease problems. These natural yard care techniques are the perfect choice for your yard this fall.

Fall Soil Building

Wednesday, October 3rd • Speaker: Lisa Taylor

Healthy soil is the key to growing everything and now is the best time to hit the dirt. Learn how to improve your soil and take advantage of fall leaves and yard trimmings. Get the facts on how home composting and mulching can pay off all year long. Build healthy soil for you, your plants and the environment, too!

Fall Planting

Wednesday, October 10 • Speaker: Peggy Campbell

Time to revamp part or all of your yard? Fall is the best time for planting and planning for improvements. Learn how to choose the right plants and give them a good start. Find the inspirations for growing your own natural yard and take home lists of high impact, low-fuss plants that are proven performers for year-round color and interest.
