## I. DESCRIPTION OF PROPOSAL

The applicant is requesting final short plat amendment approval to change the dimensions of an existing private ingress/egress and utility easement located at the southern edge of the Belway Addition No.3 plat. The private easement was created as part of the Belway Addition No.3; a 6-lot subdivision in 19\*\*.

The applicant combined Lots 3 and 4 of the Belway Addition No.3 through the boundary line adjustment process under a separate application (file #15-122440-LW). This amendment seeks to remove the portion of the easement which extends beyond the western boundary of Lot 2. A new easement will be recorded under a separate recording number.

The properties of the Belway Addition No.3 were subdivided prior to the short plat subdivision process created by RCW 58.17.060. Subdivisions of 9 lots or less are processed as Short Plat subdivisions per LUC 20.45B.020. This amendment of the 6-lot subdivision is being processed as a Final Short Plat Revision per LUC 20.45B.240.

**II. SITE DESCRIPTION AND CONTEXT**

The subject site is located within an existing single-family neighborhood, and is bordered by single-family dwellings to the north, east, and west. A public park, McCormick Park, borders the property to the south. The property is located within the R-4 land use district and has a Comprehensive Plan designation of Single-Family High. The topography of the site slopes gently, cresting near the middle of the subdivision. The site contains no Critical Areas as defined under LUC 20.25H.

LUC 20.45B.240.B states that short subdivisions may be revised in accordance with the following requirements:

- 1. All affected ownership interests within the originally recorded short subdivision must be a party to the revision application, or must express written agreement to the proposed revision, including written agreement to accept ownership of any property, or to transfer or convey ownership of any property, which may be necessary as a result of the revision.**

**Finding:** All affected owners within the recorded plat signed a written agreement to the proposed revision. No transfer of property is proposed or necessary.

- 2. Any features contained in the original short subdivision which have been relied upon in subsequent land development or land use planning decision and which are still applicable at the time of application shall be incorporated in the short subdivision revision, unless such features are provided by other legal means at the time of short subdivision revision.**

**Finding:** All features in the original plat approval, in addition to the revised easement, are required to be incorporated into the final short plat mylar. See Conditions of Approval in Section IX.

- 3. Procedures and requirements established by this chapter for preliminary short subdivision approval shall be applicable to revision requests. Revisions shall comply with applicable conditions and provisions of the original plat or short plat and shall not adversely affect access, easements, or any land use requirements as provided for in the laws of the City.**

**Finding:** The amendment was processed per the requirements of LUC 20.45B.080. The short plat amendment complies with all applicable conditions and provisions of the original plat. The amendment to revise the easement will not adversely affect access, easements, or any land use requirements.

4. **Approval of any revision shall be filed and recorded as a supplemental declaration of short subdivision which shall contain the adjusted legal description and shall be effective upon being recorded by the Development Services Department King County Department of Records and Elections and upon receipt of proof of recording.**

**Finding:** The applicant is required to record the amended plat and any adjusted legal description as a condition of approval of this permit. See Conditions of Approval in Section IX.
