

MEMORANDUM

Date: May 24, 2010

To: Mayor Davidson and City Councilmembers

From: Myrna Basich, x2733
Assistant City Manager

Subject: Presentation to City Council from the King County Agricultural Commission

The King County Agricultural Commission requested time to present information to the Council on how the future of agriculture in the County is related to the suburban cities. They are making this presentation to cities around the County.

With the popularity of locally grown food and an interest in healthful eating, there are many ways that farmers and consumers can support each other. This presentation is an effort to open more dialogue about mutual interests and concerns.
