

DEPARTMENT OF PLANNING AND COMMUNITY DEVELOPMENT
 ENVIRONMENTAL COORDINATOR
 11511 MAIN ST., P.O. BOX 90012
 BELLEVUE, WA 98009-9012

DETERMINATION OF NON-SIGNIFICANCE

PROPONENT: Michal Lehman, Lifestyle Landscapes

LOCATION OF PROPOSAL: 1738 127th Ave SE

NAME & DESCRIPTION OF PROPOSAL: Lifestyle Landscapes Vegetation Management

Approval of Critical Areas Land Use Permit for vegetation management to remove four previously cut suckering trees and restore steep slope critical area through replanting with native vegetation. Includes landscaping plan, maintenance plan, and three year monitoring plan.

FILE NUMBER: 06-122645-GH

The Environmental Coordinator of the City of Bellevue has determined that this proposal does not have a probable significant adverse impact upon the environment. An Environmental Impact Statement (EIS) is not required under RCW 43.21C.030(2)(C). This decision was made after the Bellevue Environmental Coordinator reviewed the completed environmental checklist and information filed with the Land Use Division of the Department of Planning & Community Development. This information is available to the public on request.

- There is no comment period for this DNS. There is a 14-day appeal period. Only persons who submitted written comments before the DNS was issued may appeal the decision. A written appeal must be filed in the City Clerk's office by 5:00 p.m. on March 16, 2006.
- This DNS is issued after using the optional DNS process in WAC 197-11-355. There is no further comment period on the DNS. There is a 14-day appeal period. Only persons who submitted written comments before the DNS was issued may appeal the decision. A written appeal must be filed in the City Clerk's Office by 5 p.m. on November 30, 2006
- This DNS is issued under WAC 197-11-340(2) and is subject to a 14-day comment period from the date below. Comments must be submitted by 5 p.m. on _____. This DNS is also subject to appeal. A written appeal must be filed in the City Clerk's Office by 5 p.m. on _____.

This DNS may be withdrawn at any time if the proposal is modified so that it is likely to have significant adverse environmental impacts; if there is significant new information indicating, or on, a proposals probable significant adverse environmental impacts (unless a non-exempt license has been issued if the proposal is a private project); or if the DNS was procured by misrepresentation or lack of material disclosure.

Proposal Title: Dumitru Property Tree Removal

Proposal Location: 1738 127th Ave SE, Bellevue, WA 98005
 (Street address and nearest cross street or intersection) Provide a legal description if available.

Please attach an 8 1/2" x 11" vicinity map that accurately locates the proposal site.

Give an accurate, brief description of the proposal's scope and nature:

1. General description: remove trees to grade and treat stumps to prevent suckering
2. Acreage of site: (16,000 SF) 0.37 acres
3. Number of dwelling units/buildings to be demolished: N/A
4. Number of dwelling units/buildings to be constructed: N/A
5. Square footage of buildings to be demolished: N/A
6. Square footage of buildings to be constructed:
7. Quantity of earth movement (in cubic yards): 0
8. Proposed land use: N/A
9. Design features, including building height, number of stories and proposed exterior materials: N/A
10. Other remove two trees which are suckering from previously cut stumps. remove two trees dying due to ivy strangulation

Permit Processing

Estimated date of completion of the proposal or timing of phasing: *Trees to be cut and removed over a three day period to start upon approval of permit*

Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.
No

List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.
*Planting Plan + [D.P.]
Veg. Mgmt. Plan.*

Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. List dates applied for and file numbers, if known.

List any government approvals or permits that will be needed for your proposal, if known. If permits have been applied for, list application date and file numbers, if known.
City of Bellevue Land Use Approval [D.P.]

Please provide one or more of the following exhibits, if applicable to your proposal. (Please check appropriate box(es) for exhibits submitted with your proposal):

- Land Use Reclassification (rezone) Map of existing and proposed zoning
- Preliminary Plat or Planned Unit Development Preliminary plat map
- Clearing & Grading Permit
Plan of existing and proposed grading
Development plans
- Building Permit (or Design Review)
Site plan
Clearing & grading plan
- Shoreline Management Permit
Site plan

A. ENVIRONMENTAL ELEMENTS

1. Earth

- a. General description of the site: Flat Rolling Hilly Steep slopes Mountains Other
- b. What is the steepest slope on the site (approximate percent slope)? *70%*
- c. What general types of soil are found on the site (for example, clay, sand, gravel, peat, and muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

Clay loam
[Signature]

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

No

e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill.

N/A NO GRADING TO BE DONE.

Yes, erosion may occur as a result of proposed work. This would be a result of soil disturbance during work in slope areas.

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

No

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

N/A

All work will be subject to review for compliance with Bellevue Municipal Code section 23.76 Clearing and Grading. Replacement planting, erosion control, and identification of BMP's will be required as part of permit issuance.

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

N/A

2. AIR

a. What types of emissions to the air would result from the proposal (i.e. dust, automobile odors, and industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

Some emissions may be produced by the operation of tree cutting equipment in the form of small engine exhaust.

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

N/A

c. Proposed measures to reduce or control emissions or other impacts to the air, if any:

State Emissions Control Standards

D.P.

3. WATER

a. Surface

(1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If

No. D.P.

Reviewer Initials: D.P.

appropriate, state what stream or river it flows into.

- (2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If Yes, please describe and attach available plans.

N/A

- (3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

N/A

- (4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

NO. D.P.

- (5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

NO. D.P.

- (6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

NO. D.P.

b. Ground

- (1) Will ground water be withdrawn, or will water be discharged to ground water? Give general description.

No

- (2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals...; agricultural; etc.) Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

No impact to water resources is anticipated as a result of this activity.

c. Water Runoff (Including storm water)

(1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

No alteration to surface waters or surface water channels is proposed.

(2) Could waste materials enter ground or surface waters? If so, generally describe.

Not likely.

D.P.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

Replanting trees, installing erosion control, and minimizing compaction of soils from equipment and activity.

4. Plants

a. Check or circle types of vegetation found on the site:

- deciduous tree: alder, maple, aspen, other
- evergreen tree: fir, cedar, pine, other
- shrubs
- grass
- pasture
- crop or grain
- wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other
- water plants: water lily, eelgrass, milfoil, other
- other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

(1) Holly, (2) Cherry, (1) Ash, (1) willow (1) Dogwood, (1) Crabapple

c. List threatened or endangered species known to be on or near the site.

NONE

All removed or altered vegetation will be replaced through the installation of the proposed landscape plan.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

will plant new trees (vine maple, Kousa dogwood) within critical slope area. Existing English ivy to be retained on critical slope area.

D.P.

5. ANIMALS

a. Check or circle any birds and animals which have been observed on or near the site or are known to be on or near the site:

- Birds: hawk, heron, eagle, songbirds, other:
- Mammals: deer, bear, elk, beaver, other:
- Fish: bass, salmon, trout, herring, shellfish, other:

b. List any threatened or endangered species known to be on or near

c. Is the site part of a migration route? If so, explain.

d. Proposed measures to preserve or enhance wildlife, if any:

Use of this site or the surrounding landscape by Chipmunks, Coyotes, Deer or Elk, Rabbits, Raccoons, Squirrels, Eagles, Crows or Ravens, Doves or Pigeons, Hawks, Jays, Owls, and Woodpeckers is probable. Replanting will assist in mitigating the impact of vegetation modification..

6. Energy and Natural Resources Not applicable to project.

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy need? Describe whether it will be used for heating, manufacturing, etc.
- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.
- c. What kinds of energy conservation features are included in the plans of the proposal? List other proposed measures to reduce or control energy impacts, if any:

7. Environmental Health

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe.

NO

(1) Describe special emergency services that might be required.

(2) Proposed measures to reduce or control environmental health hazards, if any.

Reviewer Initials: DP

b. Noise

(1) What types of noise exist in the area which may affect your project (for example, traffic, equipment, operation, other)?

N/A

(2) What types and levels of noise would be created by or associated with the project on a short-term or long-term basis (for example, traffic, construction, operation, other)? Indicate what hours noise would come from the site.

noise from chainsaw and stump grinding machinery during tree removal process only

(3) Proposed measures to reduce or control noise impacts, if any:

Noise will be regulated by City of Bellevue Municipal Code Section 9.18

8. Land and Shoreline Use

a. What is the current use of the site and adjacent properties?

Single Family Residential

b. Has the site been used for agriculture? If so, describe.

NO

All work must be done in compliance with the Land Use section of the City of Bellevue Municipal Code

c. Describe any structures on the site.

single family residence with attached garage

d. Will any structures be demolished? If so, what?

NO

e. What is the current zoning classification of the site?

Single Family Residential

f. What is the current comprehensive plan designation of the site?

R-1

Zoning= R-3.5
Comp Plan Land Use Designation= SF-M

g. If applicable, what is the current shoreline master program designation of the site?

N/A

h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.

Slope

40% or steeper

i. Approximately how many people would reside or work in the completed project?

2

N/A

j. Approximately how many people would the completed project displace?

0

N/A

k. Proposed measures to avoid or reduce displacement impacts, if any:

N/A

Reviewer Initials: D.P.

- i. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

N/A

9. Housing

Not applicable to project.

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.
- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.
- c. Proposed measures to reduce or control housing impacts, if any:

10. Aesthetics

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

N/A

- b. What views in the immediate vicinity would be altered or obstructed?

Trees removed (D.P.)

- c. Proposed measures to reduce or control aesthetic impacts, if any: trees on critical slope to be removed; willow and Mt. Ash suckering from stumps pose future hazard. two cherry trees covered in ivy pose hazard because they are both more than half dead due to ivy strangulation.

11. Light and Glare

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

N/A

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

N/A

Replacement for removed or altered trees will be required. See file for site plans and type and quantity to be removed and replanted.

c. What existing off-site sources of light or glare may affect your proposal? N/A

d. Proposed measures to reduce or control light or glare impacts, if any: N/A

12. Recreation

a. What designated and informal recreational opportunities are in the immediate vicinity? N/A

b. Would the proposed project displace any existing recreational uses? If so, describe. N/A

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: N/A

13. Historic and Cultural Preservation

a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe. N/A-ND.

b. Generally describe any landmarks or evidence of historic, archeological, scientific, or cultural importance known to be on or next to the site. N/A-ND.

c. Proposed measures to reduce or control impacts, if any:

D.P.

14. Transportation N/A

a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.

b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?

c. How many parking spaces would be completed project have? How many would the project eliminate?

d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).

e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur.

g. Proposed measures to reduce or control transportation impacts, if any:

15. Public Services

a. Would the project result in an increased need for the public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.

NO.

D.P.

b. Proposed measures to reduce or control direct impacts on public services, if any.

N/A

16. Utilities

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.

electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.

D.P.

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

N/A

Signature

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.
