

DEPARTMENT OF PLANNING AND COMMUNITY DEVELOPMENT
ENVIRONMENTAL COORDINATOR
450 110th Ave NE., P.O. BOX 90012
BELLEVUE, WA 98009-9012

OPTIONAL DETERMINATION OF NON-SIGNIFICANCE (DNS) NOTICE MATERIALS

The attached materials are being sent to you pursuant to the requirements for the Optional DNS Process (WAC 197-11-355). A DNS on the attached proposal is likely. This may be the only opportunity to comment on environmental impacts of the proposal. Mitigation measures from standard codes will apply. Project review may require mitigation regardless of whether an EIS is prepared. A copy of the subsequent threshold determination for this proposal may be obtained upon request.

File No. 07-103755-LN
Project Name/Address: Perry Short Plat
6039 174th Ave SE
Planner: David Pyle
Phone Number: 425-452-2973
Minimum Comment Period: February 22, 2007

ENVIRONMENTAL CHECKLIST File# **07103755-LN**
1/9/07

If you need assistance in completing the checklist or have any questions regarding the environmental review process, please visit or call the Permit Center (425-452-6864) between 8 a.m. and 4 p.m., Monday through Friday (Wednesday, 10 to 4). Our TTY number is 425-452-4636.

BACKGROUND INFORMATION

Property Owner: **Robert Perry**

Proponent: **Robert Perry**

Contact Person: **Nicole Mecum**

(If different from the owner. All questions and correspondence will be directed to the individual listed.)

Address: **1375 NW Mall Street, Suite 3; Issaquah, WA 98027**

Phone: **(425) 313-1078**

Proposal Title: **Perry Short Plat**

Proposal Location: **6039 174th Ave SE**

(Street address and nearest cross street or intersection) Provide a legal description if available.

242405 35 LOT 1 KC SHORT PLAT #577037 REC AF #7807070659 SD SP DAF E 1/2 OF NW 1/4 OF SW 1/4 OF SE 1/4 LESS CO RD

Please attach an 8 1/2" x 11" vicinity map that accurately locates the proposal site. **See Figure 1:Vicinity Map**

Give an accurate, brief description of the proposal's scope and nature:

1. General description: **The proposed project will be a 2 lot single family residential short plat. Access will be provided via a private access from 174th Avenue SE.**
2. Acreage of site: **2.2 Acres**
3. Number of dwelling units/buildings to be demolished: **0 single family residence**
4. Number of dwelling units/buildings to be constructed: **1 single family residences**
5. Square footage of buildings to be demolished: **N/A**
6. Square footage of buildings to be constructed:
7. Quantity of earth movement (in cubic yards): **Cut = 120 +/- CY, Fill = 120 +/- CY**
8. Proposed land use: **single family residential (R-1)**
9. Design features, including building height, number of stories and proposed exterior materials: **The proposed residence will be constructed per Bellevue requirements and current building codes.**

Permit Processing *D.P.*

Estimated date of completion of the project or timing of phasing:

Summer 2007

Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.

No

List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.

Identification of stream top of bank dated December 19, 2006 by Evergreen Aquatic Resource Consultants, LLC

Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. List dates applied for and file numbers, if known.

None known
yes. SE 60th Sewer Extension
City of Bellevue File No. 06-121402-UE

List any government approvals or permits that will be needed for your proposal, if known. If permits have been applied for, list application date and file numbers, if known.

- Preliminary Short Plat**
- Final Short Plat**
- Construction Permits**
- Water and Sewer Services**
- NPDES**

Please provide one or more of the following exhibits, if applicable to your proposal. (Please check appropriate box(es) for exhibits submitted with your proposal):

- Land Use Reclassification (rezone) Map of existing and proposed zoning
- Preliminary Plat or Planned Unit Development
Preliminary plat map
- Clearing & Grading Permit
Plan of existing and proposed grading
Development plans
- Building Permit (or Design Review)
Site plan
Clearing & grading plan
- Shoreline Management Permit
Site plan

DP.

A. ENVIRONMENTAL ELEMENTS

1. Earth

- a. General description of the site: Flat Rolling Hilly Steep slopes Mountains Other
- b. What is the steepest slope on the site (approximate percent slope)? **> 40 %**
- c. What general types of soil are found on the site (for example, clay, sand, gravel, peat, and muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

BeD – Beausite gravelly sandy loam with 15-30% slopes according to Natural Resources Conservation Services

- d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

None known

- e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill.

**Trenching and excavation associated with utilities installation, road improvements, etc.
Estimated earthwork quantities: 120 CY cut, 120 CY fill.**

- f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

Yes, some erosion will occur during construction, erosion will be controlled.

- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

Impervious surface will not exceed the maximum allowed for R-1 zoning per the City of Bellevue Land Use Code.

- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

Exposed soils will be either re-vegetated or covered with impervious surface.

2. AIR

- a. What types of emissions to the air would result from the proposal (i.e. dust, automobile odors, and industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

Dust, auto emissions

- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

None known

- c. Proposed measures to reduce or control emissions or other impacts to the air, if any:

None at this time.

3. WATER

a. Surface

- (1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into. *Type IV Stream.*

There is a stream (0162D) located in the northeast corner of the property.

- (2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If Yes, please describe and attach available plans. *Utility Connection May require*

The installation of essential utilities will occur within 200' of the stream.

- (3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material. *Crossing Under the Stream.*

None

- (4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

No

- (5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

No, according to King County IMap, this site does not lie within a 100 year floodplain.

- (6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

No

b. Ground

- (1) Will ground water be withdrawn, or will water be discharged to ground water? Give general description.

No

- (2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals...; agricultural; etc.) Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

Not applicable

c. Water Runoff (Including storm water)

- (1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

The proposed stormwater system will maintain existing flow patterns.

(2) Could waste materials enter ground or surface waters? If so, generally describe.

Unknown Yes, erosion from construction.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

The proposed stormwater system will maintain existing flow patterns.

Cleaning and grading BMP's.

4. Plants

a. Check or circle types of vegetation found on the site:

- deciduous tree: alder, maple, aspen, other
- evergreen tree: fir, cedar, pine, other
- shrubs
- grass
- pasture
- crop or grain
- wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other
- water plants: water lily, eelgrass, milfoil, other
- other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

Grass, trees and dense brush

c. List threatened or endangered species known to be on or near the site.

None known

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

Grass and landscaping within disturbed areas.

5. ANIMALS

a. Check or circle any birds and animals which have been observed on or near the site or are known to be on or near the site:

- Birds: hawk, heron, eagle, songbirds, other:
- Mammals: deer, bear, elk, beaver, other:
- Fish: bass, salmon, trout, herring, shellfish, other:

b. List any threatened or endangered species known to be on or near the site.

None known

D.P.

c. Is the site part of a migratory route? If so, explain.

Not that is known.

d. Proposed measures to preserve or enhance wildlife, if any:

None at this time.

6. Energy and Natural Resources

a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy need? Describe whether it will be used for heating, manufacturing, etc.

Electricity

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

Not that is known.

c. What kinds of energy conservation features are included in the plans of the proposal? List other proposed measures to reduce or control energy impacts, if any:

Standard energy conservation measures that are required by the Uniform Building Code for the construction of the houses.

7. Environmental Health

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe.

No environmental hazards are expected.

(1) Describe special emergency services that might be required

None beyond standard life safety services.

(2) Proposed measures to reduce or control environmental health hazards, if any.

None at this time.

b. Noise

(1) What types of noise exist in the area which may affect your project (for example, traffic, equipment, operation, other)?

No significant noise impacts.

(2) What types and levels of noise would be created by or associated with the project on a short-term or long-term basis (for example, traffic, construction, operation, other)? Indicate what hours noise would come from the site.

Construction per City of Bellevue noise ordinance.

Bellevue City Code Section 9.18

(3) Proposed measures to reduce or control noise impacts, if any:

Observe City of Bellevue noise ordinance hours.

D.P.

8. Land and Shoreline Use

a. What is the current use of the site and adjacent properties?

Single family residential. The adjacent properties are all existing residential properties.

b. Has the site been used for agriculture? If so, describe.

No

c. Describe any structures on the site.

One single family residence and garage.

d. Will any structures be demolished? If so, what?

No

e. What is the current zoning classification of the site?

R.1 35,000 sq ft lot size

f. What is the current comprehensive plan designation of the site?

Single family high (SF-L)

g. If applicable, what is the current shoreline master program designation of the site?

N/A

h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.

The site contains a type "N" stream (0162D) / Steep Slope Critical Area

i. Approximately how many people would reside or work in the completed project?

2+ residences/families

j. Approximately how many people would the completed project displace?

None

k. Proposed measures to avoid or reduce displacement impacts, if any:

N/A

i. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

Meets land use code and comprehensive plan designation.

9. Housing

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

(1) Middle to high income home

D.P.

- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

N/A

- c. Proposed measures to reduce or control housing impacts, if any:

None

10. Aesthetics

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

Buildings will not exceed the allowable maximum building height as defined by the land use code.

- b. What views in the immediate vicinity would be altered or obstructed?

None known

- c. Proposed measures to reduce or control aesthetic impacts, if any:

Houses will be constructed to meet City of Bellevue codes, Zoning and Comprehensive Plan.

11. Light and Glare

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

Porch lights at night

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

No significant impact expected.

- c. What existing off-site sources of light or glare may affect your proposal?

None known

- d. Proposed measures to reduce or control light or glare impacts, if any:

None at this time.

LUK 20.25A.080 Performance Standards.

12. Recreation

- a. What designated and informal recreational opportunities are in the immediate vicinity?

Cougar Mountain Regional Wildland Park, Lakemont Park and Trail

- b. Would the proposed project displace any existing recreational uses? If so, describe.

No

- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

None at this time.

13. Historic and Cultural Preservation

- a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.

Not that is known.

- b. Generally describe any landmarks or evidence of historic, archeological, scientific, or cultural importance known to be on or next to the site.

N/A

- c. Proposed measures to reduce or control impacts, if any:

None

14. Transportation

- a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.

The site is currently accessed via a private driveway off of 174th Ave SE. The existing driveway will be widened and extended to serve the new lot. A "Y" turnaround for fire access will be constructed as an extension to 174th Ave SE

- b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?

Public transit is currently located along Lakemont Blvd SE and Forest Drive SE with a bus stop located approximately 1.11 mile from the site.

- c. How many parking spaces would the completed project have? How many would the project eliminate?

Completed project will provide 4-6 parking spaces. No parking spaces will be eliminated.

- d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).

No

- e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

Not that is known.

- f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur.

Approximately 2-4 trips during morning and evening peak hours would be generated by the completed project.

- g. Proposed measures to reduce or control transportation impacts, if any:

None

15. Public Services

- a. Would the project result in an increased need for the public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.

General public services to accommodate (2) single family residences.

- b. Proposed measures to reduce or control direct impacts on public services, if any.

Payment of property taxes and other support fees.

16. Utilities

- a. Circle utilities currently available at the site: (electricity), natural gas, water, (refuse service), (telephone), (sanitary sewer), septic system, other.

Sanitary Sewer is not available until 06-12-1402 UE is approved.

- b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

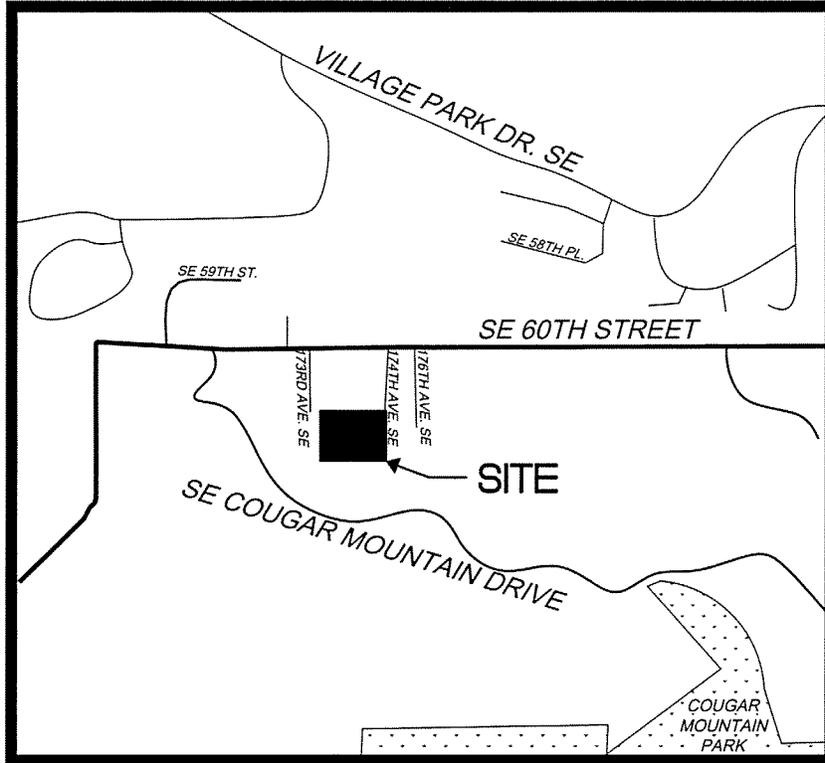

Storm water (connect to City of Bellevue drainage system) in addition to those listed above

Signature

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature Michael Mear
