BELLEVUE, WA 98009-9012

OPTIONAL DETERMINATION OF NON-SIGNIFICANCE (DNS) NOTICE MATERIALS

The attached materials are being sent to you pursuant to the requirements for the Optional DNS Process (WAC 197-11-355). A DNS on the attached proposal is likely. This may be the only opportunity to comment on environmental impacts of the proposal. Mitigation measures from standard codes will apply. Project review may require mitigation regardless of whether an EIS is prepared. A copy of the subsequent threshold determination for this proposal may be obtained upon request.

File No. 15-110955-LM
Project Name/Address: 13551 SE 27th Pl
Planner: Nick Whipple
Phone Number/Email: 425-452-4578/nwhipple@bellevuewa.gov
Minimum Comment Period: April 30, 2015, 5pm.

Materials include in this notice:

- Blue Bulletin
- Checklist
- Vicinity Map
- Plans
- Other: [Click here to enter text.](#)

ENVIRONMENTAL CHECKLIST

10/9/2009

Thank you in advance for your cooperation and adherence to these procedures. If you need assistance in completing the checklist or have any questions regarding the environmental review process, please visit or call Development Services (425-452-6800) between 8 a.m. and 4 p.m., Monday through Friday (Wednesday, 10 to 4). Assistance for the hearing impaired: Dial 711 (Telecommunications Relay Service).

INTRODUCTION**Purpose of the Checklist:**

The State Environmental Policy Act (SEPA), Chapter 43.21c RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the City of Bellevue identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the City decide whether an EIS is required.

Instructions for Applicants:

This environmental checklist asks you to describe some basic information about your proposal. Answer the questions briefly, with the most precise information known, or give the best description you can. You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer or if a question does not apply to your proposal, write "do not know" or "does not apply." Giving complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the Planner in the Permit Center can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. Include reference to any reports on studies that you are aware of which are relevant to the answers you provide. The City may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impacts.

Use of a Checklist for Nonproject Proposals: *A nonproject proposal includes plans, policies, and programs where actions are different or broader than a single site-specific proposal.*

For nonproject proposals, complete the Environmental Checklist even though you may answer "does not apply" to most questions. In addition, complete the Supplemental Sheet for Nonproject Actions available from Permit Processing.

For nonproject actions, the references in the checklist to the words *project*, *applicant*, and *property* or *site* should be read as *proposal*, *proposer*, and *affected geographic area*, respectively.

Attach an 8 ½" x 11 vicinity map which accurately locates the proposed site.

BACKGROUND INFORMATION

Property Owner: Paul Vedmed

Proponent:

Contact Person: Nathan Fritz

(If different from the owner. All questions and correspondence will be directed to the individual listed.)

1700 Westlake Ave N Suite #100

Address: Seattle, WA 98109

Phone: (206) 281-7500

Proposal Title: A&M Auto

Proposal Location: 13551 SE 27th PI

(Street address and nearest cross street or intersection) Provide a legal description if available.

MERCER SLOUGH GARDEN TRS E 264 FT OF S 231.70 FT

Please attach an 8 1/2" x 11" vicinity map that accurately locates the proposal site.

Give an accurate, brief description of the proposal's scope and nature:

1. General description: Demolition of the damaged portion of a fire damaged building
2. Acreage of site: 1.4
3. Number of dwelling units/buildings to be demolished: 1
4. Number of dwelling units/buildings to be constructed: 1
5. Square footage of buildings to be demolished: 4,811
6. Square footage of buildings to be constructed: 6,520
7. Quantity of earth movement (in cubic yards): do not know
8. Proposed land use: Motor vehicle repair
9. Design features, including building height, number of stories and proposed exterior materials:
metal building with metal siding, height 36'
10. Other
This Environmental Checklist is provided as required by the City of Bellevue to obtain a demolition permit of the existing fire damaged building.

Estimated date of completion of the proposal or timing of phasing:

Demolition - April

Site work and Construction - May through December (approx.)

Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.

Yes. A new metal building is proposed to be constructed in place of the demolished fire damaged building.

NW 4/13/2015

List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.

Do not know at this time

Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. List dates applied for and file numbers, if known.

No

List any government approvals or permits that will be needed for your proposal, if known. If permits have been applied for, list application date and file numbers, if known.

City of Bellevue demolition and building permit

Please provide one or more of the following exhibits, if applicable to your proposal. (Please check appropriate box(es) for exhibits submitted with your proposal):

Land Use Reclassification (rezone) Map of existing and proposed zoning

Preliminary Plat or Planned Unit Development
Preliminary plat map

Clearing & Grading Permit
Plan of existing and proposed grading
Development plans

Building Permit (or Design Review)
Site plan
Clearing & grading plan

Shoreline Management Permit
Site plan

A. ENVIRONMENTAL ELEMENTS

1. Earth

a. General description of the site: Flat Rolling Hilly Steep slopes Mountains Other

b. What is the steepest slope on the site (approximate percent slope)?

3% +/-

c. What general types of soil are found on the site (for example, clay, sand, gravel, peat, and muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

do not know

Site is considered urban land and paved

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

do not know

- e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill.
do not know
- f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.
no
- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?
no change in the impervious surface coverage
- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:
see CSWPPP

Erosion Control per BCC 23.76

2. AIR

- a. What types of emissions to the air would result from the proposal (i.e. dust, automobile odors, and industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.
do not know
- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.
do not know
- c. Proposed measures to reduce or control emissions or other impacts to the air, if any:
none

3. WATER

a. Surface

(1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

There is a stream located adjacent to the southern side of the property. The name is East Creek. Unknown what stream flows into.

(2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If Yes, please describe and attach available plans.

Yes, adjacent to see attached plans

East Creek is not regulated under the SMP as the annual water flow does not exceed 20 cubic feet per second. However, the stream is protected under the City of Bellevue's Critical Area Ordinance. Development will not impact the stream buffer or structure setback.

NW 4/13/2015

- (3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

N/A

- (4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

No

- (5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

Do not know

No

- (6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

No

b. Ground

- (1) Will ground water be withdrawn, or will water be discharged to ground water? Give general description.

do not know

- (2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals...; agricultural; etc.) Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

do not know

c. Water Runoff (Including storm water)

- (1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

stormwater will be directed to existing stormwater drains located on site. The stormwater will be filtered before entering the drain line.

- (2) Could waste materials enter ground or surface waters? If so, generally describe.

do not know

NW 4/13/2015

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:
Straw wattles, storm drain inlet protection filters, plastic sheeting,

Impacts minimized per BCC 23.76

4. Plants

a. Check or circle types of vegetation found on the site:

- deciduous tree: alder, maple, aspen, other
- evergreen tree: fir, cedar, pine, other
- shrubs
- grass
- pasture
- crop or grain
- wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other
- water plants: water lily, eelgrass, milfoil, other
- other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

none

c. List threatened or endangered species known to be on or near the site.

do not know

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

none

5. ANIMALS

a. Check or circle any birds and animals which have been observed on or near the site or are known to be on or near the site:

- Birds: hawk, heron, eagle, songbirds, other:
- Mammals: deer, bear, elk, beaver, other:
- Fish: bass, salmon, trout, herring, shellfish, other:

NW 4/13/2015

b. List any threatened or endangered species known to be on or near the site.

do not know

c. Is the site part of a migration route? If so, explain.

do not know

d. Proposed measures to preserve or enhance wildlife, if any:

none

6. Energy and Natural Resources

a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy need? Describe whether it will be used for heating, manufacturing, etc.

electric and natural gas for heating

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

no

c. What kinds of energy conservation features are included in the plans of the proposal? List other proposed measures to reduce or control energy impacts, if any:

will be constructed in compliance with current Washington State Energy Code

7. Environmental Health

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe.

do not know

(1) Describe special emergency services that might be required.

N/A

(2) Proposed measures to reduce or control environmental health hazards, if any.

N/A

NW 4/13/2015

b. Noise

(1) What types of noise exist in the area which may affect your project (for example, traffic, equipment, operation, other)?

equipment

(2) What types and levels of noise would be created by or associated with the project on a short-term or long-term basis (for example, traffic, construction, operation, other)? Indicate what hours noise would come from the site.

construction. normal work hours of weekdays 7am to 6pm, weekends 9am to 6pm

Use of any diesel, pneumatic, or gasoline-powered equipment that is not properly muffled or silenced is prohibited.

(3) Proposed measures to reduce or control noise impacts, if any:

none

Sounds created by construction activity are limited to the hours between 7 a.m. to 6 p.m. on weekdays and 9 a.m. and 6 p.m. on Saturdays and prohibited on Sundays and other legal holidays (See BCC 9.18)

8. Land and Shoreline Use

a. What is the current use of the site and adjacent properties?

motor vehicle repair and offices

Commercial NW 4/10/2015

b. Has the site been used for agriculture? If so, describe.

do not know

c. Describe any structures on the site.

There is two structures on the site. One is L shaped (the subject building to be partially demolished) the other is rectangular

d. Will any structures be demolished? If so, what?

Yes a portion of the existing fire damaged building

e. What is the current zoning classification of the site?

Light Industrial

f. What is the current comprehensive plan designation of the site?

do not know

Light Industrial (LI)

g. If applicable, what is the current shoreline master program designation of the site?

N/A

h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.

do not know

i. Approximately how many people would reside or work in the completed project?

10

j. Approximately how many people would the completed project displace?

0

k. Proposed measures to avoid or reduce displacement impacts, if any:

none

i. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

the project proposed use is acceptable in this zoning

**Compliance with City
of Bellevue Codes**

9. Housing

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

none

b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

N/A

c. Proposed measures to reduce or control housing impacts, if any:

N/A

10. Aesthetics

a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

36'

b. What views in the immediate vicinity would be altered or obstructed?

none

c. Proposed measures to reduce or control aesthetic impacts, if any:

N/A

NW 4/13/2015

11. Light and Glare

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?
do not know at this time
- b. Could light or glare from the finished project be a safety hazard or interfere with views?
no
- c. What existing off-site sources of light or glare may affect your proposal?
do not know
- d. Proposed measures to reduce or control light or glare impacts, if any:
do not know

12. Recreation

- a. What designated and informal recreational opportunities are in the immediate vicinity?
do not know
- b. Would the proposed project displace any existing recreational uses? If so, describe.
no
- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:
none

13. Historic and Cultural Preservation

- a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.
do not know
- b. Generally describe any landmarks or evidence of historic, archeological, scientific, or cultural importance known to be on or next to the site.
no not know
- c. Proposed measures to reduce or control impacts, if any:
none

14. Transportation

- a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.
SE 26th St
- b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?
yes
- c. How many parking spaces would be completed project have? How many would the project eliminate?
approx. 40

d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).

no

e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

no

f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur.

do not know

g. Proposed measures to reduce or control transportation impacts, if any:

none

15. Public Services

a. Would the project result in an increased need for the public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.

no

b. Proposed measures to reduce or control direct impacts on public services, if any:

none

16. Utilities

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.

electricity, natural gas, water, refuse service, telephone, sanitary sewer, storm drain

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

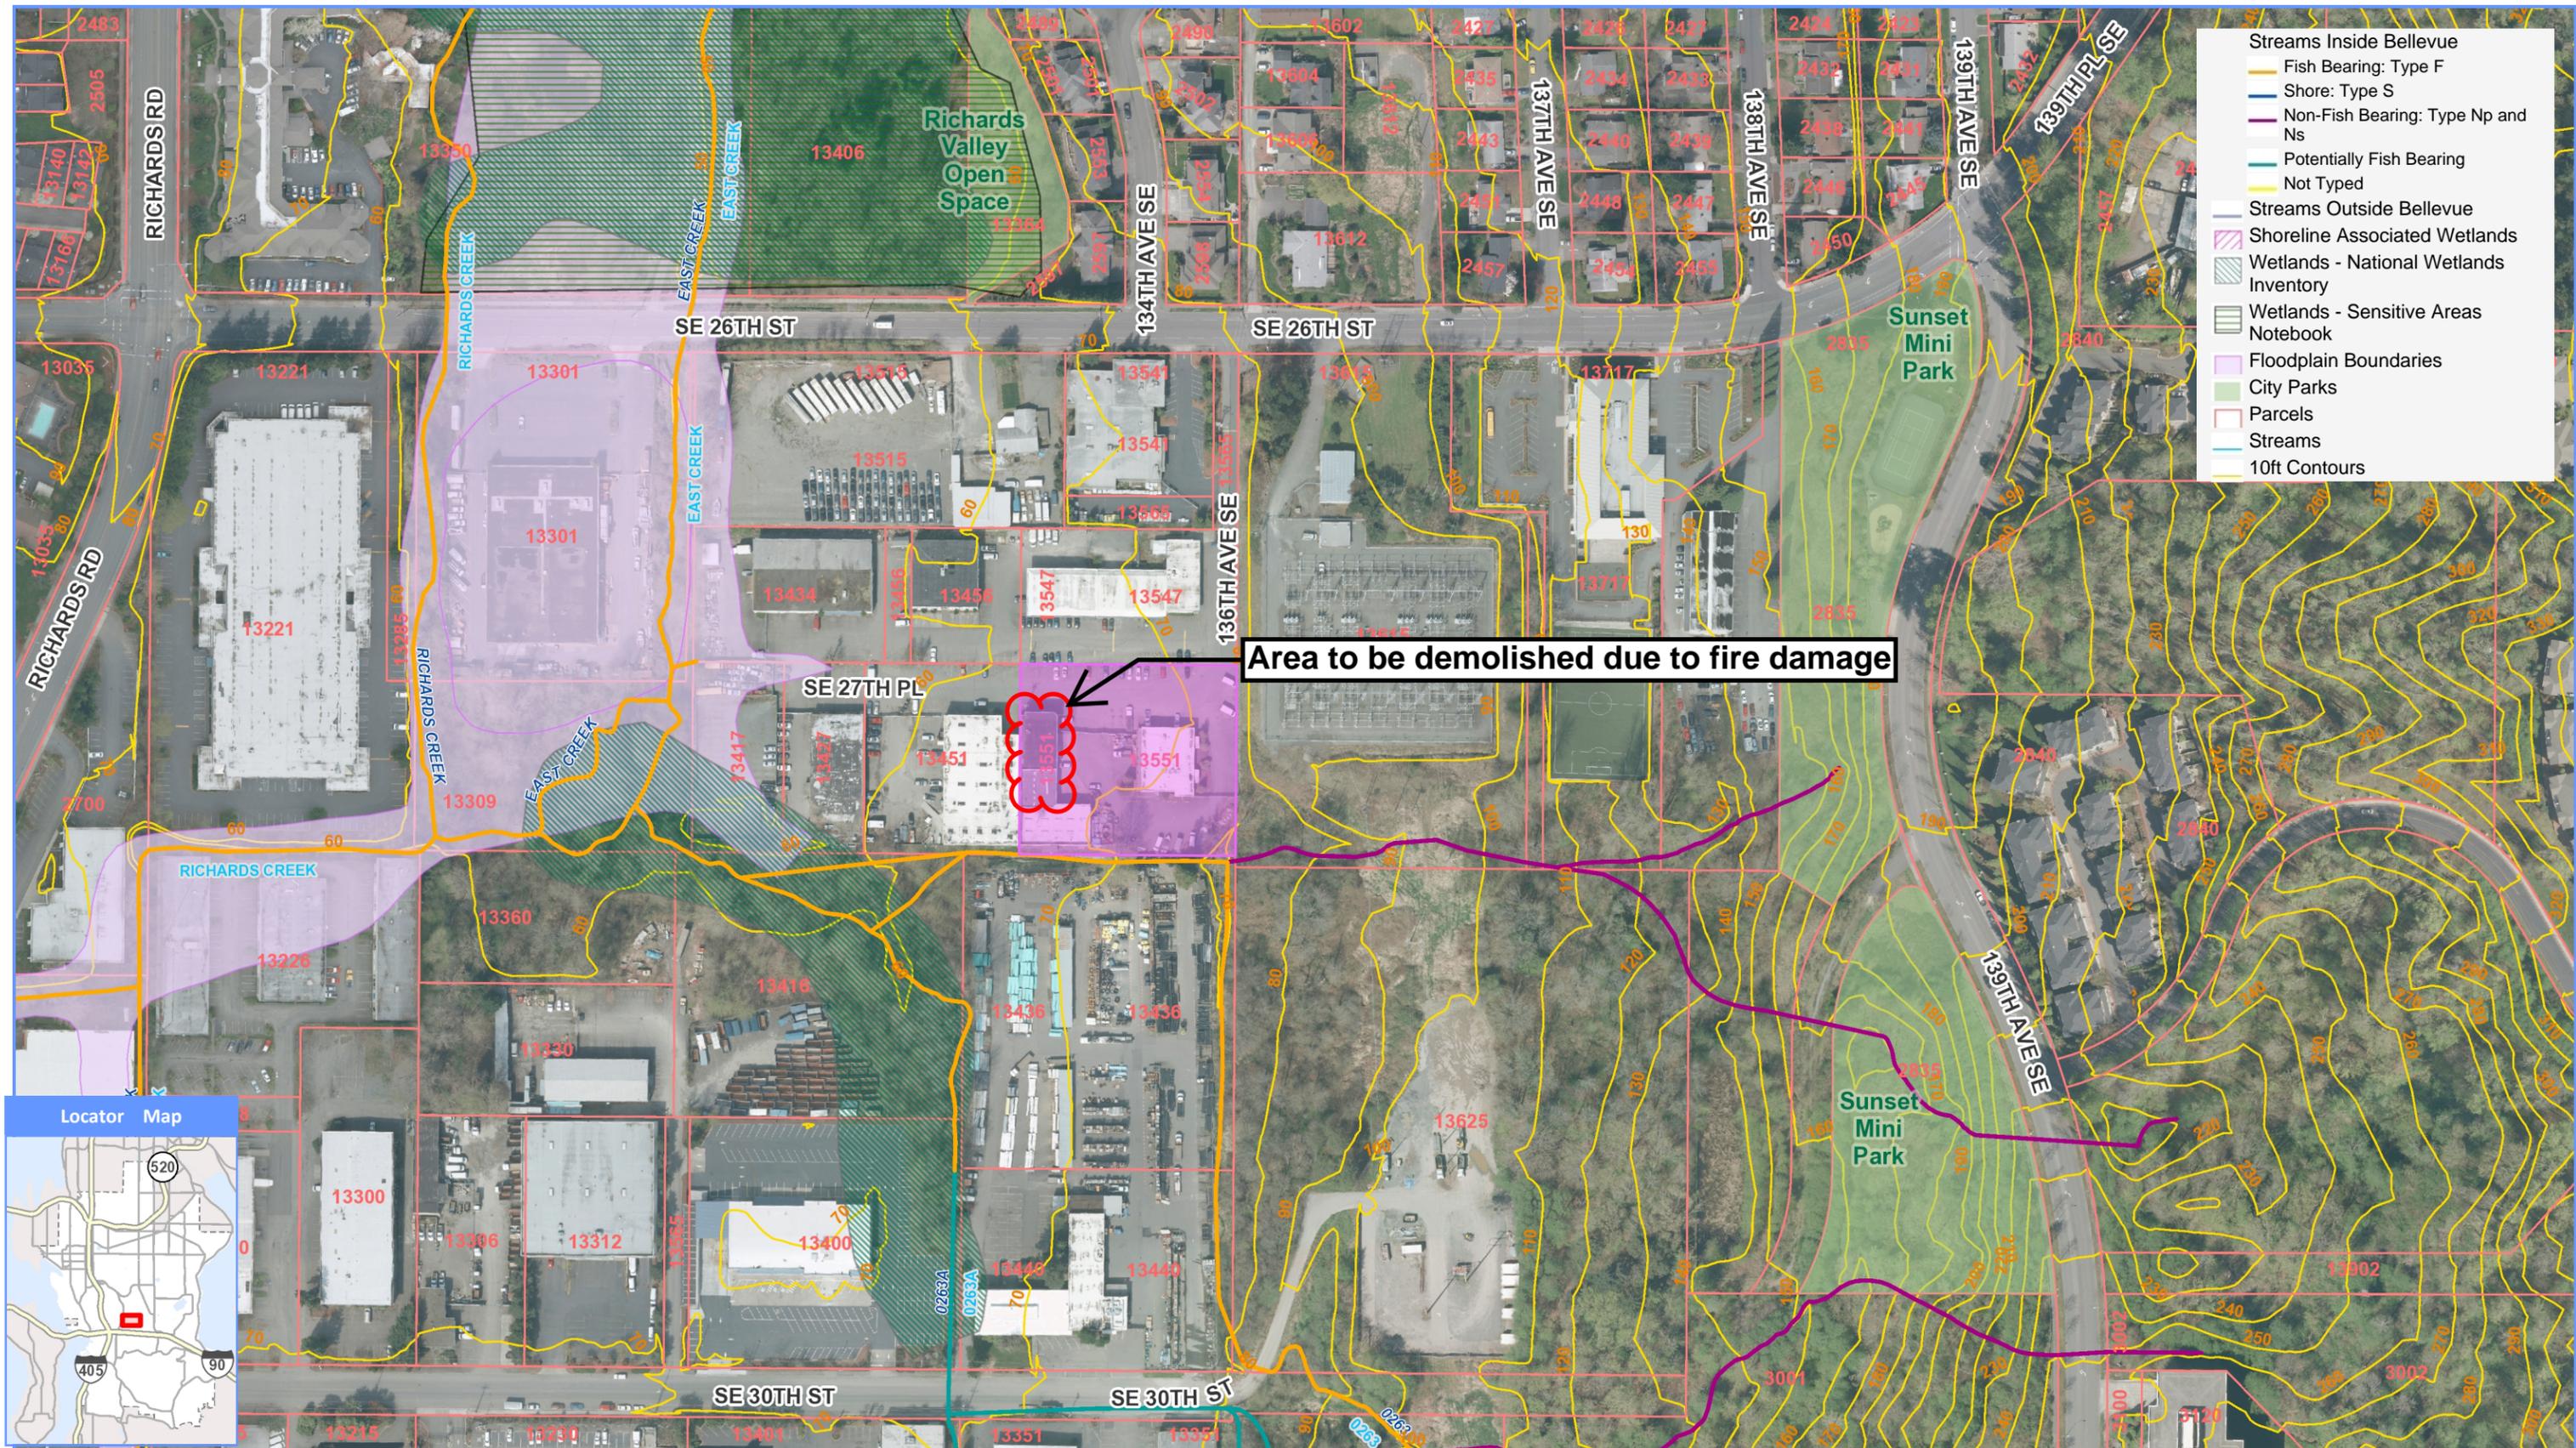

all provided on site

Signature

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

NOTE:
THIS SCHEMATIC SITE PLAN HAS BEEN DERIVED FROM THE INFORMATION ON RECORD WITH KING COUNTY. INFORMATION PROVIDED BY THE CITY OF BELLEVUE AND THE ORIGINAL PERMIT DRAWINGS FOR THE ADJACENT BUILDING (13563 S.E. 21th PL.)

PROJECT NARRATIVE

THE PURPOSE OF THESE DOCUMENTS IS TO SHOW THE DETAILS NECESSARY TO DEMOLISH PORTIONS OF THE DAMAGED ROOF STRUCTURE AND WALLS CAUSED BY A FIRE TO THE BUILDING.

THE EXISTING SOUTHERN PORTION OF THE BUILDING WAS UNDAMAGED BY THE FIRE AND IS TO REMAIN.

A BUILDING PERMIT TO CONSTRUCT A NEW BUILDING WILL BE FILED UNDER A SEPARATE PERMIT.
