

DEVELOPMENT SERVICES DEPARTMENT
 ENVIRONMENTAL COORDINATOR
 450 110th Ave NE., P.O. BOX 90012
 BELLEVUE, WA 98009-9012

OPTIONAL DETERMINATION OF NON-SIGNIFICANCE (DNS) NOTICE MATERIALS

The attached materials are being sent to you pursuant to the requirements for the Optional DNS Process (WAC 197-11-355). A DNS on the attached proposal is likely. This may be the only opportunity to comment on environmental impacts of the proposal. Mitigation measures from standard codes will apply. Project review may require mitigation regardless of whether an EIS is prepared. A copy of the subsequent threshold determination for this proposal may be obtained upon request.

File No. 15-123269-LA

Project Name/Address: 2650 148th Ave SE / St. Andrew's Commuter Parking

Planner: Leah Chuslky

Phone Number: 425-452-6834

Minimum Comment Period: November 12, 2015 5pm

ENVIRONMENTAL CHECKLIST

Received
SEP 18 2015

10/9/2009

Thank you in advance for your cooperation and adherence to these procedures. If you need assistance in completing the checklist or have any questions regarding the environmental review process, please visit or call Development Services (425-452-6800) between 8 a.m. and 4 p.m., Monday through Friday (Wednesday, 10 to 4). Assistance for the hearing impaired: Dial 711 (Telecommunications Relay Service).

INTRODUCTION**Purpose of the Checklist:**

The State Environmental Policy Act (SEPA), Chapter 43.21c RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the City of Bellevue identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the City decide whether an EIS is required.

Instructions for Applicants:

This environmental checklist asks you to describe some basic information about your proposal. Answer the questions briefly, with the most precise information known, or give the best description you can. You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer or if a question does not apply to your proposal, write "do not know" or "does not apply." Giving complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the Planner in the Permit Center can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. Include reference to any reports on studies that you are aware of which are relevant to the answers you provide. The City may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impacts.

Use of a Checklist for Nonproject Proposals: *A nonproject proposal includes plans, policies, and programs where actions are different or broader than a single site-specific proposal.*

For nonproject proposals, complete the Environmental Checklist even though you may answer "does not apply" to most questions. In addition, complete the Supplemental Sheet for Nonproject Actions available from Permit Processing.

For nonproject actions, the references in the checklist to the words *project*, *applicant*, and *property* or *site* should be read as *proposal*, *proposer*, and *affected geographic area*, respectively.

Attach an 8 ½" x 11 vicinity map which accurately locates the proposed site.

BACKGROUND INFORMATION

Property Owner: St. Andrew's Lutheran Church

Proponent: Sound Transit

Contact Person: Chris Ward - Assistant Permit Administrator - Sound Transit

(If different from the owner. All questions and correspondence will be directed to the individual listed.)

Address: 401 S. Jackson St., Seattle, WA 98104

Phone: (206) 903-7790

Proposal Title: East Link Extension: Shared Use Commuter Parking at St. Andrew's Church

Proposal Location: 2650 148th Ave SE, Bellevue, WA 98007

(Street address and nearest cross street or intersection) Provide a legal description if available.

(NE corner of 148th Ave SE and SE 28th St.)

Please attach an 8 ½" x 11" vicinity map that accurately locates the proposal site.

Give an accurate, brief description of the proposal's scope and nature:

King County currently leases 20 parking spaces at this location. Sound Transit is

1. General description: seeking to lease an additional 30 spaces to increase weekday commuter parking capacity to a total of 50 spaces (see LUC 20.20.200 - Commuter Parking Facility).
2. Acreage of site: 4.11 acres
3. Number of dwelling units/buildings to be demolished: None.
4. Number of dwelling units/buildings to be constructed: None.
5. Square footage of buildings to be demolished: None.
6. Square footage of buildings to be constructed: None.
7. Quantity of earth movement (in cubic yards): None.
8. Proposed land use: Provide an additional 30 commuter parking spaces utilizing an existing church parking lot. Combined with the King County lease no more than 50 stalls will be leased.
9. Design features, including building height, number of stories and proposed exterior materials:
None.
10. Other
None.

Estimated date of completion of the proposal or timing of phasing:

Once approved, Sound Transit would make the additional commuter parking spaces available to the public during the week.

Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.

None

List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.

None known. Given the scope of the proposal (e.g., no ground disturbance) no environmental field studies have been contracted for this project.

Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. List dates applied for and file numbers, if known.

None.

List any government approvals or permits that will be needed for your proposal, if known. If permits have been applied for, list application date and file numbers, if known.

None.

Please provide one or more of the following exhibits, if applicable to your proposal. (Please check appropriate box(es) for exhibits submitted with your proposal):

Land Use Reclassification (rezone) Map of existing and proposed zoning

Preliminary Plat or Planned Unit Development
Preliminary plat map

Clearing & Grading Permit
Plan of existing and proposed grading
Development plans

Building Permit (or Design Review)
Site plan
Clearing & grading plan

Shoreline Management Permit
Site plan

A. ENVIRONMENTAL ELEMENTS

1. Earth

a. General description of the site: Flat Rolling Hilly Steep slopes Mountains Other

b. What is the steepest slope on the site (approximate percent slope)?

Less than 5-percent

c. What general types of soil are found on the site (for example, clay, sand, gravel, peat, and muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

The NRCS Soil Survey identifies on-site soils as Alderwood Gravelly Sandy Loam (AgC).

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

No.

- e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill.

No filling and/or grading is proposed.

- f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

The proposal includes no ground disturbance and/or clearing.

- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

The sum total of impervious surface will not change as a result of the proposal.

- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

None proposed.

2. AIR

- a. What types of emissions to the air would result from the proposal (i.e. dust, automobile odors, and industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

Car emissions are expected to increase locally, but not measurably as commuters access the site. This would be offset by the use of mass transit by people utilizing the commuter parking.

- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

No off-site emissions or odors are expected.

- c. Proposed measures to reduce or control emissions or other impacts to the air, if any:

None proposed.

3. WATER

- a. Surface

- (1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

No wetlands have been identified in the immediate vicinity of the site. Robinswood Pond, located approximately a 1/4 mile to the north in the center of Robinswood Park is the nearest mapped water resource.

- (2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If Yes, please describe and attach available plans.

No.

- (3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

The proposal includes no ground disturbance and/or clearing.

- (4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

No.

- (5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

No.

- (6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

No.

b. Ground

- (1) Will ground water be withdrawn, or will water be discharged to ground water? Give general description.

No groundwater will be withdrawn. No discharges are proposed.

- (2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals...; agricultural; etc.) Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

No waste discharges of any kind are proposed.

c. Water Runoff (Including storm water)

- (1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

No additional stormwater or water runoff is anticipated to be generated from activities covered under this proposal.

- (2) Could waste materials enter ground or surface waters? If so, generally describe.

No waste materials will be generated from activities covered under this proposal.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:
Given the scope of the project no measures to reduce water impacts proposed.

4. Plants

a. Check or circle types of vegetation found on the site:

- deciduous tree: alder, maple, aspen, other
- evergreen tree: fir, cedar, pine, other
- shrubs
- grass
- pasture
- crop or grain
- wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other
- water plants: water lily, eelgrass, milfoil, other
- other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

No vegetation will be removed or altered as part of this proposal.

c. List threatened or endangered species known to be on or near the site.

No known threatened or endangered plant species have been documented in the City of Bellevue.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

None proposed. No vegetation will be removed as part of this proposal.

5. ANIMALS

a. Check or circle any birds and animals which have been observed on or near the site or are known to be on or near the site:

- Birds: hawk, heron, eagle, songbirds, other:
- Mammals: deer, bear, elk, beaver, other:
- Fish: bass, salmon, trout, herring, shellfish, other:

b. List any threatened or endangered species known to be on or near the site.

None known.

c. Is the site part of a migration route? If so, explain.

No.

d. Proposed measures to preserve or enhance wildlife, if any:

None proposed.

6. Energy and Natural Resources

a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy need? Describe whether it will be used for heating, manufacturing, etc.

No additional energy demands are anticipated to implement the proposal.

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

No.

c. What kinds of energy conservation features are included in the plans of the proposal? List other proposed measures to reduce or control energy impacts, if any:

No energy conservation features are proposed.

7. Environmental Health

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe.

No environmental health hazards are anticipated as part of the proposal.

(1) Describe special emergency services that might be required.

None.

(2) Proposed measures to reduce or control environmental health hazards, if any.

None proposed.

b. Noise

- (1) What types of noise exist in the area which may affect your project (for example, traffic, equipment, operation, other)?

The existing church parking lot is adjacent to 148th Ave SE, a major arterial. Short term noise is generated by emergency vehicles leaving and entering Fire Station No. 2 across SE 28th Street to the south.

- (2) What types and levels of noise would be created by or associated with the project on a short-term or long-term basis (for example, traffic, construction, operation, other)? Indicate what hours noise would come from the site.

It is anticipated that the commuter parking spaces would primarily be utilized by transit users in the early morning and late afternoon as they enter and leave the facility. However, the vehicle noise is not anticipated to negatively effect surrounding properties. No construction is proposed, therefore no short term construction related noise impacts would occur.

- (3) Proposed measures to reduce or control noise impacts, if any:

None proposed.

8. Land and Shoreline Use

- a. What is the current use of the site and adjacent properties?

A Lutheran church currently occupies the site. Fire Station #2 is across SE 28th to the south along with the Seattle Washington LDS Temple. Additionally, Robinswood Park is located to the east and north of the property.

- b. Has the site been used for agriculture? If so, describe.

No.

- c. Describe any structures on the site.

One existing building is on the site. This building supports the Saint Andrew's Lutheran Church ministry. Adjacent to this building is an existing, paved parking lot as well as a small, gravel commuter lot to the east of the church building.

- d. Will any structures be demolished? If so, what?

No.

- e. What is the current zoning classification of the site?

The zoning classification of the site is R-5.

- f. What is the current comprehensive plan designation of the site?

SF-H (Single Family - High Density - up to 5 units per acre).

- g. If applicable, what is the current shoreline master program designation of the site?

Not applicable.

- h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.

No.

- i. Approximately how many people would reside or work in the completed project?

Not applicable. The proposal does not include residential or work related facilities.

- j. Approximately how many people would the completed project displace?

No persons will be displaced as part of this proposal.

k. Proposed measures to avoid or reduce displacement impacts, if any:

None proposed.

i. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

None proposed.

9. Housing

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

None.

b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

None.

c. Proposed measures to reduce or control housing impacts, if any:

None proposed.

10. Aesthetics

a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

No structures are proposed. The existing commuter parking signs may be replaced with compatible ST signage.

b. What views in the immediate vicinity would be altered or obstructed?

No views will be altered or obstructed as part of this proposal.

c. Proposed measures to reduce or control aesthetic impacts, if any:

None proposed.

11. Light and Glare

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

None.

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

No.

- c. What existing off-site sources of light or glare may affect your proposal?

None.

- d. Proposed measures to reduce or control light or glare impacts, if any:

None proposed.

12. Recreation

- a. What designated and informal recreational opportunities are in the immediate vicinity?

Robinswood Park is adjacent to the proposed commuter parking site. The park provides recreational opportunities including an off-leash dog corral, a network of paved/unpaved trails, athletic fields, playgrounds, and tennis courts.

- b. Would the proposed project displace any existing recreational uses? If so, describe.

No.

- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

None proposed. The proposal may be a net benefit for park users as it would provide additional weekday parking to access trails on the south side of the park.

13. Historic and Cultural Preservation

- a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.

Miller Homestead (built 1884) is located within Robinswood Park to the north. At this time it is not listed on the NRHP.

- b. Generally describe any landmarks or evidence of historic, archeological, scientific, or cultural importance known to be on or next to the site.

No other historic or cultural resources are known to exist in on or near the site.

- c. Proposed measures to reduce or control impacts, if any:

None proposed.

14. Transportation

- a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.

148th Ave SE is the west border of the site, SE 28th is immediately south of the property and Interstate 90 is less than a mile of the site to the south. 148th Ave SE is a major arterial.

- b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?

Transit users are provided a transit stop at the corner of 148th Ave SE and SE 28th St. Other nearby stops are on Landerholm Cir SE and on southbound 148th Ave SE across from the park entrance.

- c. How many parking spaces would be completed project have? How many would the project eliminate?

50. No parking spaces will be constructed or eliminated. The proposal seeks to share use of the existing spaces.

d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).

No.

e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

No.

f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur.

Assuming full occupancy 100 vehicular trips would be generated. 50 accessing the site and 50 leaving.

g. Proposed measures to reduce or control transportation impacts, if any:

The proposal would improve transportation access locally. No negative transportation impacts are anticipated.

15. Public Services

a. Would the project result in an increased need for the public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.

No.

b. Proposed measures to reduce or control direct impacts on public services, if any:

None proposed.

16. Utilities

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.

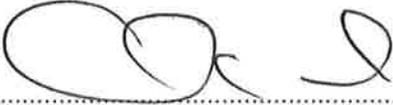

The utilities currently available at the site are not for public use and support the existing church facilities.

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

None proposed.

Signature

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature  Date Submitted 9-18-15
