

# POKÉMON GO™

## TRAINER'S GUIDELINES

To all of our Pokémon Trainers, we welcome you to your parks. Check out the trails, Visitor Centers, Community Centers, interpretive signs and other points of interest. We are excited you are out enjoying the beauty and getting to know your parks systems.

## BE AWARE OF YOUR SURROUNDINGS

Take a look around to make sure that you are in a safe spot and on the trail. Be aware of what's around you, including cars, bikers, and other players. Parks and public locations may be near busy streets and parking lots. Look before you chase.

## FOLLOW THE PARK RULES

Parks are open from dawn to dusk. Downtown Park is open until 11 p.m. Please keep these hours in mind as you catch your nocturnal ghost and fairy Pokémon. Be mindful of posted signs and stay out of areas that are closed to the public. Stay on the trails and be mindful of your surroundings. Trainers have to stay safe too.

## GO OUT AND VISIT ALL THE PARKS

Different kinds of Pokémon like the excitement of different parks. Beach parks and upland forested parks offer exciting habitats for Pokémon water and forest types. Visit different types of parks to find different Pokémon in new habitats.

**Most of all, stay safe and have fun! Gotta catch 'em all!**
