**SUBJECT:** Downtown Transportation Plan Update: Downtown Subarea Plan Policies  
**Draft Recommendations**  
<http://www.bellevuewa.gov/downtown-transportation-plan-update.htm>

## **INTRODUCTION**

On December 12, 2013, the Commission discussed and provided feedback on preliminary policy recommendations for the Downtown Subarea Plan transportation section. Staff incorporated Commission recommendations in the attached draft policy documents. As requested, the recommendations are provided in two formats: a comprehensive strike draft version in a spreadsheet that identifies all of the recommended changes from the adopted Downtown Subarea Plan; and a “final” draft document version in a format that incorporates all of the changes and rearranges the policies in their proper order.

Transportation Commission direction is requested on the draft recommendations for goals, policies and narrative sections. Commission recommendations for amendments to the Downtown Subarea Plan will be merged with amendments related to land use and urban design that are being developed by the Downtown Livability Initiative Advisory Committee. Specific topical areas related to the Downtown Livability Initiative are noted and it is expected that policies will be modified from the version at hand. A comprehensive package of policy amendments that incorporates Transportation and Livability will be transmitted to the Planning Commission for consideration and a recommendation to the City Council.

## **NEXT STEPS**

At a subsequent Transportation Commission meeting the agenda will include a final review of draft Downtown Subarea Plan policy recommendations. Staff is preparing an updated Downtown transportation project list for Commission review and comment.

## **ATTACHMENTS**

1. Draft Downtown Subarea Plan strike draft spreadsheet version
2. Draft Downtown Subarea Plan final draft document version
