Subject: Traffic Concerns on 125th Ave SE

Dear ██████████

Thank you for letting us know your concerns regarding traffic on 125th Ave SE. We have completed our field reviews, collected traffic data and reviewed the reported accident history at this location and would like to share with you our findings and recommendations.

Speed studies conducted on 125th Ave SE recorded the average speed of motorists as 24 mph with 85% of traffic traveling at or below 29 mph. For more details on the data that was collected, please see page 2.

As with most streets in Bellevue, we realize that there are some motorists on 125th Ave SE choosing to drive faster than the speed limit. Speed humps and other physical measures are reserved for streets where speeds are severe, with 85% of traffic traveling at or above 35 mph. These guidelines were developed with the Fire Department due to the impact physical devices have on emergency response times.

The motorists who are speeding would best be addressed through the education programs described in detail in this report and the enclosed green informational sheets. If you would like to get involved with any of these programs or have any questions, please email me at bcasey@bellevuewa.gov or call 425-452-6867.

Sincerely,

Brian Casey
Neighborhood Traffic Project Manager
Transportation Department

General Information

Speed Study

Date Conducted	Traffic Volume Recorded	Northbound Speed Study	Southbound Speed Study	Average Speed
7/16/08	472 Vehicles	28 MPH*	29 MPH*	24 MPH

**85% of motorists were recorded traveling at or below this speed.*

Recommendations

Radar Dolly—We have a portable radar sign on a dolly residents can borrow and place on their street for up to two weeks. This unit gives motorists feedback on the speed at which they are driving, encouraging them to obey the speed limit.

Radar Dolly

Neighborhood Speed Watch—One of the ways you can help to address periodic speeders is by borrowing a radar unit and participating in our Neighborhood Speed Watch Program. Using the radar unit, you can record information about vehicles you observe traveling at or above 30 mph. From this information, we will locate the registered owner of the vehicle and send a letter to them asking for their cooperation in reducing their speed.

Neighborhood Speed Reduction Program—This neighborhood-sponsored program involves lending portable signs to the neighborhood for four months, encouraging motorists to respect the neighborhood, drive responsibly and drive 25 mph.

NSR Sign

Along with the signs, a neighborhood Pace Car program is organized with residents setting the pace for the motorists following them by driving 25 mph.

Please feel free to contact me if you feel your neighborhood would benefit from participating in the program or recommendations listed above.
