## Downtown Bellevue Weekday Traffic Volume by Time of Day

2010 Traffic Volume by Hour for Four Downtown Arterials.

### Traffic Camera Photo Visualization

#### NE 8th Street at Bellevue Way NE (looking west)

Existing traffic cameras were also used to view traffic conditions for three separate locations in downtown Bellevue. The locations of these cameras do not necessarily match those of the above chart. Each location displays arterials at approximately one hour intervals for the time period 7:00 am to 6:00 pm. The recording was performed on Wednesday August 24th, 2011.
