

# NE 15th / 16th Street: 116th Avenue NE to NE 20th Street

NE 15th/16th Street:  
116th Avenue NE to  
NE 20th Street

## Segment 2, Zone 5 – 136th Avenue NE to NE 20th Street

Zone 5 is expected to remain mostly commercial with minimal future development. Consequently, this area will not see the same level of re-design as other zones in the NE 15th/16th Street corridor. In Zone 5, Sound Transit's light rail alignment runs at-grade down the center of the roadway.

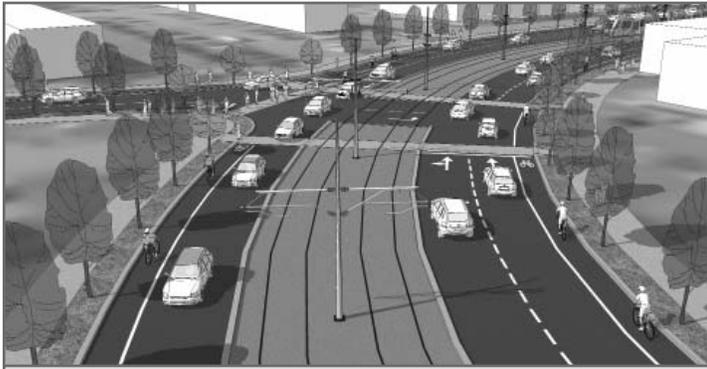

The design options presented for Zone 5 do not vary substantially. Zone 5 would not include on-street

parking or landscaping strips. In Zone 5, sidewalks will be constructed adjacent to the roadway, and on-street bike lanes will be included at-grade.

The City has developed a design concept for Zone 5 with a cross-section width of 109 feet. The design balances the transportation needs of vehicles with sidewalks, landscapings, and bicycle amenities.

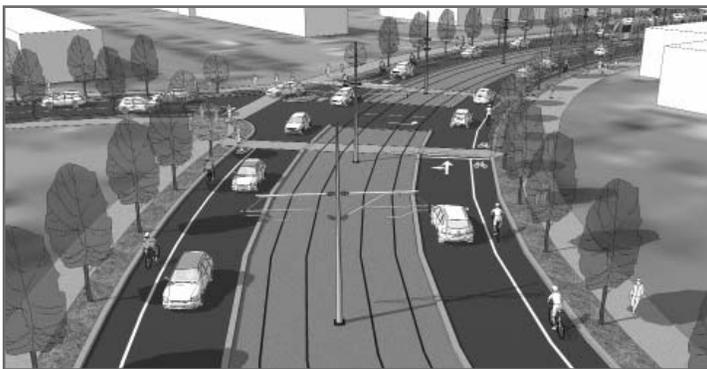

NE 16th Street / 136th Avenue NE intersection

109' Cross section with 3 lanes (2 SB, 1 NB) and bike lanes  
*Perspective looking west*

109' Cross section with 3 lanes (2 SB, 1 NB) and separated bike lanes – *Perspective looking west*

109' Cross section with 2 lanes and bike lanes  
*Perspective looking west*

#### Opportunities:

- Two travel lanes address capacity, access, and circulation
- Potential on-street bike lanes

#### Constraints:

- Topography includes a defined curve in the roadway
- At-grade light rail crossing

### Your input is important to us

The City is soliciting public input on the preliminary design concepts for the NE 15th/16th Street corridor through the end of 2010. To comment on the design concepts, please review the informational materials and complete a questionnaire.
