

## East Link light rail

Sound Transit is currently designing the **East Link preferred alternative**, which includes making modifications that were identified by the Sound Transit Board of Directors in May of 2009. Sound Transit's **East Link project team is seeking public participation at interactive workshops** focused on advancing preliminary engineering. You will have the opportunity to:

- Learn about the East Link light rail system
- Provide feedback to inform the preliminary engineering of the project
- Tell us more about your community and how East Link can best serve you.

Each workshop is focused on the neighborhood preferred route and station for each location. Additional workshops will be scheduled throughout the East Link project area as Sound Transit continues to progress into preliminary engineering along the preferred alternative.

## NEIGHBORHOOD Public Workshops

## Link Light Rail System

East Link is Sound Transit's voter-approved project to build light rail between Seattle and Overlake. Sound Transit is also conducting environmental review on the future extension between Overlake and downtown Redmond. The Sound Transit Board of Directors recently identified a preferred East Link alternative with eastside stations serving Mercer Island, south Bellevue, downtown Bellevue, Bel-Red, Overlake, and downtown Redmond, connecting to Seattle via I-90.
