 ENVIRONMENTAL COORDINATOR  
 450 100<sup>th</sup> Ave NE., P.O. BOX 90012  
 BELLEVUE, WA 98009-9012

## DETERMINATION OF NON-SIGNIFICANCE

**PROPONENT:** Steve Kealy, Glendale Golf and Country Club

**LOCATION OF PROPOSAL:** 13440 Main Street

**NAME & DESCRIPTION OF PROPOSAL:**

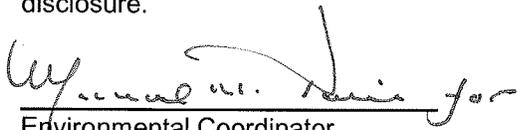

Clearing and grading permit for the removal of 150 trees from the golf course property. Three trees removed from the 50-foot stream critical area buffer and 2 trees removed from 110-foot wetland critical area buffer. Mitigation for critical area and critical area buffer removals includes planting of 21 native conifer trees in wetland buffer.

**FILE NUMBER:** 10-109330 GH

The Environmental Coordinator of the City of Bellevue has determined that this proposal does not have a probable significant adverse impact upon the environment. An Environmental Impact Statement (EIS) is not required under RCW 43.21C.030(2)(C). This decision was made after the Bellevue Environmental Coordinator reviewed the completed environmental checklist and information filed with the Land Use Division of the Development Services Department. This information is available to the public on request.

- There is no comment period for this DNS. There is a 14-day appeal period. Only persons who submitted written comments before the DNS was issued may appeal the decision. A written appeal must be filed in the City Clerk's office by 5:00 p.m. on \_\_\_\_\_.
- This DNS is issued after using the optional DNS process in WAC 197-11-355. There is no further comment period on the DNS. There is a 14-day appeal period. Only persons who submitted written comments before the DNS was issued may appeal the decision. A written appeal must be filed in the City Clerk's Office by 5 p.m. on May 27, 2010.
- This DNS is issued under WAC 197-11-340(2) and is subject to a 14-day comment period from the date below. Comments must be submitted by 5 p.m. on \_\_\_\_\_. This DNS is also subject to appeal. A written appeal must be filed in the City Clerk's Office by 5 p.m. on \_\_\_\_\_.

This DNS may be withdrawn at any time if the proposal is modified so that it is likely to have significant adverse environmental impacts; if there is significant new information indicating, or on, a proposals probable significant adverse environmental impacts (unless a non-exempt license has been issued if the proposal is a private project); or if the DNS was procured by misrepresentation or lack of material disclosure.

## ENVIRONMENTAL CHECKLIST

4/18/02

If you need assistance in completing the checklist or have any questions regarding the environmental review process, please visit or call the Permit Center (425-452-6864) between 8 a.m. and 4 p.m., Monday through Friday (Wednesday, 10 to 4). Our TTY number is 425-452-4636.

## BACKGROUND INFORMATION

Property Owner: Glendale Country Club

Proponent:

**REVIEWED**

By Kevin LeClair at 9:15 am, May 11, 2010

Contact Person: Steve Kealy

(If different from the owner. All questions and correspondence will be directed to the individual listed.)

Address: 13440 Main Street Bellevue WA 98005

Phone: 425 652 2855

Proposal Title: Glendale tree Removal

Proposal Location: 13440 main st Bellevue WA 98005  
(Street address and nearest cross street or intersection) Provide a legal description if available.

Please attach an 8 1/2" x 11" vicinity map that accurately locates the proposal site.

Give an accurate, brief description of the proposal's scope and nature:

1. General description: Removal of 150 trees on the Golf course
2. Acreage of site: 148
3. Number of dwelling units/buildings to be demolished:
4. Number of dwelling units/buildings to be constructed:
5. Square footage of buildings to be demolished:
6. Square footage of buildings to be constructed:
7. Quantity of earth movement (in cubic yards):
8. Proposed land use: Golf course - same as now.
9. Design features, including building height, number of stories and proposed exterior materials:
10. Other: Remove trees, Grind Stumps, Place fill where the stump was ground, and sod that area.

Tree removal in critical area buffer revised based on new information regarding the size of the regulatory buffers. Originally, the applicant thought the stream buffer on the West Tributary was 100 feet. Instead, it is 50 feet, so the tree removal in buffer was revised from 10 trees down to 5 trees. 3 trees were removed from the stream buffer and 2 trees were removed from the the wetland buffer.

RE-Plant a 6600 sq ft area to make up for 10 trees removed within a critical area.

Estimated date of completion of the proposal or timing of phasing: **3 weeks to complete**  
**Removal of trees + stump grinding**

Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.  
—

List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.  
—

Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. List dates applied for and file numbers, if known.

**clear + grade permit - city of Bellevue**

List any government approvals or permits that will be needed for your proposal, if known. If permits have been applied for, list application date and file numbers, if known.

Permit file #s

10-106816 EA (enforcement)  
10-109330 GH (clear & grade)  
10-112044 LO (critical areas)

Please provide one or more of the following exhibits, if applicable to your proposal. (Please check appropriate box(es) for exhibits submitted with your proposal):

- Land Use Reclassification (rezone) Map of existing and proposed zoning
- Preliminary Plat or Planned Unit Development  
Preliminary plat map
- Clearing & Grading Permit  
Plan of existing and proposed grading  
Development plans
- Building Permit (or Design Review)  
Site plan  
Clearing & grading plan
- Shoreline Management Permit  
Site plan

**A. ENVIRONMENTAL ELEMENTS**

**1. Earth**

a. General description of the site:  Flat  Rolling  Hilly  Steep slopes  Mountains  Other

b. What is the steepest slope on the site (approximate percent slope)? **NO Steep slopes exist where trees are being removed**

c. What general types of soil are found on the site (for example, clay, sand, gravel, peat, and muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

**Clay loam.**

**REVIEWED**

**By Kevin LeClair at 9:27 am, May 11, 2010**

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe. **NO**

e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill. **NO grading, fill 150 ground stumps with approx. 50 yards ~~soil~~ soil.**

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe. **NO**

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? **NA**

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: **Re-sod areas filled ~~with~~ After stump grinding**

Clearing and grading inspector will inspect to ensure no erosion risk. Risk is low due to isolated nature of each stump and applicant's desire to quickly restore area to grass.

## 2. AIR

a. What types of emissions to the air would result from the proposal (i.e. dust, automobile odors, and industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

**NA**

Temporary emissions will be generated by the equipment used to remove the trees and grind the stumps.

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

**NA**

c. Proposed measures to reduce or control emissions or other impacts to the air, if any:

**NA**

## 3. WATER

a. Surface

(1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If

- West tributary  
- Kelsey Creek

**REVIEWED**

**By Kevin LeClair at 9:27 am, May 11, 2010**

appropriate, state what stream or river it flows into.

- (2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If Yes, please describe and attach available plans. *Some trees will be removed within 200 feet, but outside the stream buffers.*
- (3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.  
*Ø*
- (4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known. *NA*
- (5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan. —  
Several are close to flood plain, but outside.
- (6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge. *NA*

b. Ground

- (1) Will ground water be withdrawn, or will water be discharged to ground water? Give general description. *N/A*
- (2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals...; agricultural; etc.) Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve. *NA*

**REVIEWED**

By Kevin LeClair at 9:31 am, May 11, 2010

c. Water Runoff (Including stor. ater)

(1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

NA

(2) Could waste materials enter ground or surface waters? If so, generally describe. NA

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any: NA

4. Plants

a. Check or circle types of vegetation found on the site:

deciduous tree: alder, maple, aspen, other

evergreen tree: fir, cedar, pine, other

shrubs

grass

pasture

crop or grain

wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other

water plants: water lily, eelgrass, milfoil, other

other types of vegetation

No threatened, endangered or rare plants are known to exist at the property.

b. What kind and amount of vegetation will be removed or altered?

Evergreen trees

Removal of

c. List threatened or endangered species known to be on or near the site.

NA

Planting plan includes the installation of 21 native conifers within the wetland buffer and approximately 100 feet from West Tributary.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

See Attached Plan

**REVIEWED**

By Kevin LeClair at 9:33 am, May 11, 2010

**5. ANIMALS**

- a. Check or circle any birds and animals which have been observed on or near the site or are known to be on or near the site:
- Birds: hawk, heron, eagle, songbirds, other: Eagles are known to soar over the sight and likely perch in the conifer trees on the site. There will still be a number of significant conifers remaining on the site.
- Mammals: deer, bear, elk, beaver, other: There are no eagle nests within 2 miles of the project site.
- Fish: bass, salmon, trout, herring, shellfish, other:
- b. List any threatened or endangered species known to be on or near the site. NA
- c. Is the site part of a migration route? If so, explain. — Bellevue is part of the Pacific Flyway for migrating birds.
- d. Proposed measures to preserve or enhance wildlife, if any: NA

**6. Energy and Natural Resources**

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy need? Describe whether it will be used for heating, manufacturing, etc. None
- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. NO
- c. What kinds of energy conservation features are included in the plans of the proposal? List other proposed measures to reduce or control energy impacts, if any: NA

**7. Environmental Health**

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe. NA
- (1) Describe special emergency services that might be required. NA
- (2) Proposed measures to reduce or control environmental health hazards, if any. NA

**REVIEWED**  
By Kevin LeClair at 9:33 am, May 11, 2010

b. Noise

- (1) What types of noise exist in the area which may affect your project (for example, traffic, equipment, operation, other)?

None

- (2) What types and levels of noise would be created by or associated with the project on a short-term or long-term basis (for example, traffic, construction, operation, other)? Indicate what hours noise would come from the site.

Chain Saw Noise  
Wood chipper noise

- (3) Proposed measures to reduce or control noise impacts, if any: —

Noise impacts will be temporary and will be within the construction noise hours allowed by Bellevue City Code 9.18

8. Land and Shoreline Use

- a. What is the current use of the site and adjacent properties? Golf course

- b. Has the site been used for agriculture? If so, describe. —

- c. Describe any structures on the site. Clubhouse, Pro shop, maintenance shop, golf cart storage bldgs

- d. Will any structures be demolished? If so, what? No

- e. What is the current zoning classification of the site? Golf course - conditional use

- f. What is the current comprehensive plan designation of the site? —

- g. If applicable, what is the current shoreline master program designation of the site? —

- h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify. yes, 2 Stock Run across the course

- i. Approximately how many people would reside or work in the completed project? 0

- j. Approximately how many people would the completed project displace? 0

- k. Proposed measures to avoid or reduce displacement impacts, if any: 0

- i. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

—

**9. Housing**

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

NA

- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

NA

- c. Proposed measures to reduce or control housing impacts, if any:

NA

**10. Aesthetics**

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

NA

- b. What views in the immediate vicinity would be altered or obstructed?

NA

- c. Proposed measures to reduce or control aesthetic impacts, if any:

NA

**11. Light and Glare**

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

NA

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

NA

**REVIEWED**

By Kevin LeClair at 9:48 am, May 11, 2010

- c. What existing off-site sources of light or glare may affect your proposal? NA
- d. Proposed measures to reduce or control light or glare impacts, if any: NA

**12. Recreation**

- a. What designated and informal recreational opportunities are in the immediate vicinity? NA  
 The property serves as a private recreation resource as a private golf and country club.
- b. Would the proposed project displace any existing recreational uses? If so, describe. NA
- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: Impacts will be temporary during work, but it will be timed to minimize any temporary impacts. NA

**13. Historic and Cultural Preservation**

- a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe. NA
- b. Generally describe any landmarks or evidence of historic, archeological, scientific, or cultural importance known to be on or next to the site. NA
- c. Proposed measures to reduce or control impacts, if any: NA

**14. Transportation**

- a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any. NA
- b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop? NA
- c. How many parking spaces would be completed project have? How many would the project eliminate? NA
- d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private). NA
- e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe. NA

f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur. **NA**

g. Proposed measures to reduce or control transportation impacts, if any: **NA**

**15. Public Services**

a. Would the project result in an increased need for the public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe. **NA**

b. Proposed measures to reduce or control direct impacts on public services, if any. **NA**

**16. Utilities**

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed. **NONE**

**Signature**

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature Steve Kealy
