C. SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (do not use this sheet for project actions)

Project Summary: The proposal is to amend the Bellevue Sign Code to reduce the minimum floor area occupied by only a single enterprise for the purpose of qualifying for signs at the upper-level of a high rise from 180,000 net sq. ft to 120,000. All other criteria of BCC 22B.10.030E.2.e. Building Mounted Signs/Upper-level high rise signs and BCC22B.10.025E.3.d Design Criteria Downtown Districts will remain unchanged.

Environmental Summary per WAC 197-11235(30(b)):

State the Proposal's Objectives: To comply with the GMA by adopting development regulations that implement and are consistent with the Comprehensive Plan.

Specify the purpose and need to which the proposal is responding: To ensure that sign regulation is applied equitably to major enterprises in the Downtown.

State the major conclusions, significant areas of controversy and uncertainty: The major conclusion is that the no greater number of signs at the top of high-rises will result from this amendment. There are no known significant areas of controversy or uncertainty.

State the issues to be resolved, including the environmental choices to be made among alternative courses of action: No issues to be resolved. The alternative course of action would be to not adopt the proposed amendment. In terms of environmental impacts, the two alternatives are not significantly different.

State the impacts of the proposal, including any significant adverse impacts that cannot be mitigated: The proposal is a nonproject action to provide a regulatory framework for the review, mitigation, and permitting of regional light rail transit uses. There are no significant adverse impacts resulting from that action. Any specific proposal for new development with signage would require project level review.

Describe any proposed mitigation measures and their effectiveness: No specific development is being approved with this proposal. No significant environmental impacts have been identified, therefore no mitigation measures are proposed.
