Exhibit E

Development Services Agreement Provisions

This Exhibit E is adopted as part of the Agreement made and entered into this day by and between the City of BELLEVUE, a State of Washington municipal corporation ("City") and King County, a political subdivision of the State of Washington ("County") for the purposes of land use, building, and related permit processing. Together, the City and the County are referred to as "the Parties."

WHEREAS, the City will annex an area of unincorporated King County described in Exhibit A-1 and may annex an additional area of unincorporated King County (collectively referred to as the "Annexation Area"); and

WHEREAS, all local governmental authority and jurisdiction with respect to the Annexation Area transfers from the County to the City upon the date of annexation; and

WHEREAS, the County and City agree that having County staff process certain Annexation Area building permits and land use applications on behalf of the City for a transitional period will assist in an orderly transfer of authority and jurisdiction; and

WHEREAS, it is the parties' intent that permits will be processed in accordance with this Exhibit E and applicable laws, including laws regarding vested rights; and

WHEREAS, this Agreement is authorized by the Interlocal Cooperation Act, RCW Chapter 39.34;

NOW, THEREFORE, in consideration of the terms and provisions, it is agreed by and between the City and the County as follows:

1. Term/Effective Date.

This Exhibit E shall be deemed to take effect following the approval of the Agreement by the official action of the legislative bodies of each of the Parties and the signing of the Agreement by the duly authorized representative of each of the Parties, and shall continue in force for a period of five (5) years from the date signed by both parties. As used herein, "Effective Date" shall refer to the date of annexation to the City.

2. Pre-annexation Building Permit Applications Filed with King County.

2.1 Except as otherwise provided for herein, the County shall continue to review on behalf of the City all vested building-related permit applications filed with the County before the Effective Date of annexation that involve property within the Annexation Area in accordance with this Exhibit E.

2.2 For the purposes of this Exhibit E, building-related permits include but are not limited to building permits, mechanical permits, fire systems/fire sprinkler permits, clearing and grading permits, sign permits and right-of-way permits. Review by the County shall occur in accordance with the regulations to which the applications are vested. Any decision regarding whether or when an application has vested or has subsequently expired shall be made by the City after consulting King County.

2.3 Except as provided in Section 2.9, if a vested permit has been reviewed and issued by the County prior to the Effective Date, the County shall complete all post-issuance plan reviews and inspections. The County shall confirm payment of required impact fees and notify the City that all impact fees have been paid.

2.4 If a vested permit has been partially reviewed as of the Effective Date, but the permit has not been issued, the County shall complete the plan review, issuance and post-issuance administration and inspection.

2.5 The County's review of building-related permits shall include rendering decisions to approve, condition or deny such applications, conducting inspections, issuing correction notices, certificates of occupancy, permit extensions and completion of extensions, and evaluating compliance with approval conditions that extend beyond issuance of a certificate of occupancy. The County agrees to consult with the City prior to rendering any administratively appealable building-related permit decision. Administrative appeals of building related permit decisions, if administrative review is allowed, shall be processed in the same manner as appeals of land use permits as addressed in Section 2.2 and 4.2; provided that the City and County may agree to have the County conduct such appeals on behalf of the City in particular instances where such processing by the County would further the orderly transition envisioned by this Agreement.

2.6 The County shall receive and process any permit applications made following the Effective Date that implement conditions of a Commercial Site Development permit issued by the County prior to the Effective Date. County permits that implement conditions of a Commercial Site Development permit include those related to site, drainage, and infrastructure issues, but not building permits. After the Effective Date, the City of Bellevue shall receive and process any new building permit applications and new ancillary permit applications, such as fire and mechanical permits of an approved project.

2.7 The County shall review and make a recommendation to the City on requests to renew or extend County permits within the Annexation Area that are approaching their expiration date without having completed the permitted activity. The City shall render any final decisions on such requests. It is the intention of the parties to cancel permits from the County permit system that have expired by operation of applicable King County ordinance, then require a new application submittal to the City.

2.8 For those building related permits issued by King County prior to the Effective Date, the County shall review and render decisions on requests for changes or

revisions to approved construction documents up to the time that either a certificate of occupancy is issued or final construction approval has been issued for the project. If after the Effective Date, a request for a change or revision to an approved construction document is deemed by the County to be substantial (e.g. the original house plan is substituted by a substantially different house plan), then a new application to the City shall be required. The County shall consult with the City to help determine what is deemed a “substantial” change or revision. Following issuance of the certificate of occupancy or final construction approval, requests for revisions to the approved set of plans shall be referred to the City to process as new permit applications.

2.9 If a permit has been issued by the County and the applicant has not submitted a request for inspection to the County by the Effective Date, the County shall inform the City and the City shall have the opportunity, but not the obligation, to assume responsibility for the inspections and administration of that permit. Any unexpended permit fees associated with the permit shall be refunded to the applicant by the County. The City will assess and collect fees for City services according to the City fee schedule and continue processing the permit according to City procedures. The permit will be administered subject to all terms and conditions established by the County, unless revisions are subsequently requested by the applicant and approved by the City.

2.10 The County shall review and make recommendations to the City’s Transportation Director and the Utilities Director or their designees on applications to vary adopted road or drainage standards that are made in conjunction with a building related application being reviewed by the County pursuant to this Exhibit E. All final decisions on such variance applications shall be rendered by the City.

2.11 Prior to the Effective Date, the County shall review all building-related permit files and determine whether any applications or issued permits have expired under the terms of applicable County codes and regulations. If the County determines that a permit or application is so expired, the County shall notify the applicant or permit holder in writing of such expiration and shall provide the City a copy of such notice.

3. Pre-annexation Land Use Permit Applications Filed with King County.

3.1 Except as otherwise provided for herein, the County shall continue to review on behalf of the City all vested land use permit applications filed with the County before the Effective Date of annexation that involve property within the Annexation Area. Review by the County shall occur in accordance with the County regulations to which the applications are vested. Any decisions regarding whether or when an application has vested or has subsequently expired shall be made by the City after consulting King County.

3.2 For those vested land use applications that do not require a public hearing prior to decision, the County will continue to review such applications as follows:

- A. If a final decision has not been made by the Effective Date, the County shall complete the review and make a report and recommendation to the City's Development Services Director or his designee in accordance with the County regulations to which the applications are vested. Any final decisions to approve, deny, or approve with conditions such applications shall be made by the City's Development Services Director or designee in accordance with the County regulations to which the applications are vested and will be processed pursuant to the City's Process II land use review and appeal procedures (Chapter 20.35 BCC).
- B. If a final decision has been made and a timely appeal of the administrative decision has been filed prior to the Effective Date, the permit record shall be transmitted to the City Hearing Examiner. Any final decision on appeal of such application shall be made by the City's Hearing Examiner in accordance with the County regulations to which the applications are vested and will be processed pursuant to the City's Process II appeal procedures (Chapter 20.35 BCC).

3.3 Notwithstanding any other provision of this Agreement, applications for any rezone and any associated permit applications shall be referred to the City for all further processing.

3.4 For those vested land use applications that require a public hearing prior to decision, e.g., preliminary subdivisions or conditional uses, the County shall continue to review the application as follows:

- A. If the public hearing on the application was held prior to the Effective Date, the County shall complete the review up to and including the point of final recommendation. Any final decision shall be made by the City Hearing Examiner in accordance with the County regulations to which the application is vested, and shall be processed pursuant to the City's applicable Process I land use review and appeal procedures (Chapter 20.35 BCC).
- B. If the public hearing on the application was not held prior to the Effective Date, the County shall complete the review and make a report and recommendation to the City's Development Services Director or his designee in accordance with the County regulations to which the applications are vested. The final recommendation shall be made by the City Development Services Director in accordance with the County regulations to which the application is vested and a public hearing shall be scheduled before the City's Hearing Examiner and the City's Hearing Examiner will make the final decision pursuant to the City's applicable Process I land use review and appeal procedures (Chapter 20.35 BCC).

3.5 For those vested final subdivision, short plat and binding site plan applications that have received preliminary approval prior to annexation, the County shall

continue to complete post-preliminary review up to and including the point of making a final recommendation on the specific application(s). The final decision on the application shall be made by the City in accordance with the County regulations to which the application is vested. All subsequent post-preliminary approval applications shall be submitted to and decided by the City. For purposes of this section, post-preliminary review includes engineering plan approval, final plat, short plat or binding site plan approval, and construction inspection approval.

3.6 The County shall review and make recommendations to the City's Development Services Director on applications to vary adopted road or drainage standards that are made in conjunction with a land use application being reviewed by the County pursuant to this Agreement. All final decisions on such variance applications shall be rendered by the City.

3.7 The County shall review and render decisions on requests for changes to approved land use permit engineering plans up to the time that final construction approval has been issued for the project. Following issuance of final construction approval, requests for changes to the approved set of plans shall be referred to the City. As-built drawings of the final approved construction shall be forwarded to the City.

3.8 Prior to the Effective Date, the County shall review all land use application files and determine whether any applications or approvals have expired under the term of applicable County codes and regulations. If the County determines that a permit or application is so expired, the County shall notify the applicant or permit holder in writing of such expiration and shall provide the City a copy of such notice.

4. List of Projects, Exclusionary Option, Notice of Meetings, and Permit Data.

4.1 The County shall provide to the City on the Effective Date a list of all vested building, land use and associated ancillary permit applications pending within the Annexation Area. The list shall be reviewed and updated prior to transmittal to the City to exclude all permits that have expired by operation of applicable King County ordinance. These permits shall be canceled from the County permit system and notification of the cancellation shall be provided to the applicant. It is the intention of the parties that a new application to the City shall be required. The updated and reviewed list shall include the status of the projects as it is shown in the County permit system. This information shall be updated and provided quarterly until all permits on the list have been finalized, expired or otherwise completed. The City may at any time exclude from review pursuant to this Exhibit E any application(s) on any such list upon providing to the County ten days advance written notice of its intent to exclude the application(s). Upon exclusion of any application from review under this Section, the County shall turn the application over to the City for all further processing, and shall be available for consultation with the City regarding the application.

4.2 The County shall notify the City of all technical screening meetings, pre-construction conferences and engineering pre-submittal meetings for projects being

reviewed by the County under this Exhibit E. Such notice shall be provided promptly upon scheduling of the meeting. The City may participate in these meetings to learn more about the project and to offer comments.

4.3 The County shall provide the City with a copy of files and records of all land use and building permit applications processed under this Exhibit E upon completion of permit review, termination of permit review under Section 11, or expiration of the Agreement, whichever comes first.

4.4 The County shall provide to the City digital files of historic and open permit data for the Annexation Area that is in the County's permit database. The County's obligation shall be to provide the data in the format used by the County. It shall be the City's obligation to convert the data in such a way as to meet the City's needs. The County shall provide a subsequent and final download, showing all data through the Effective Date.

4.5 No later than 30 days following the Effective Date, the County shall provide to the City a list of all traffic impact fees and fees in lieu of park dedication collected by the County for development activity where all site improvements and building construction have not been completed prior to the Effective Date of annexation.

4.6 The County shall provide written notice to any potential applicant that had contacted the County for a pre-application or other preliminary meeting prior to submitting an application and for which no application was filed prior to the Effective Date informing such potential applicant that land use and development authority resides with the City, under applicable City codes and regulations as a result of annexation. The County shall provide the City copies of all such notices.

5. SEPA Compliance.

5.1. For those vested building and land use applications described in paragraphs 1.5, 2.2 and 2.4, the County will continue to process the SEPA components of the applications and shall make a report and recommendation to the City's Environmental Coordinator based upon the County policies and regulations to which the applications are vested. Any final SEPA threshold determination shall be made by the City's Environmental Coordinator pursuant to the City's Process II land use review and appeal procedures (Chapter 20.35 BCC).

5.2 For those vested building permit applications described in Section 1 requiring a SEPA threshold determination and for which a SEPA threshold determination has not been issued prior to the Effective Date, the County will not take final action upon the application until the City's Environmental Coordinator has acted.

5.3 The County agrees to provide technical and administrative SEPA assistance to the City's Environmental Coordinator. Such assistance may include, but is not limited to:

- Review of an applicant's environmental checklist and collection of relevant comments and facts;
- Preparation of a proposed SEPA threshold determination with supporting documentation for approval, which will include citations to a) King County Code provisions that compliance with will negate a probable significant adverse impact, and b) King County Code substantive authority for recommended mitigation measures;
- Publication and notice by the County on behalf of the City's Environmental Coordinator;
- Preparation and submittal of a written review and comment on any appeal received on a SEPA threshold determination recommended by County staff to the City's Environmental Coordinator I;
- Attendance at appeal hearings to testify with respect to analysis of environmental impacts, mitigation measures and the environmental review process;
- Preparation of any required draft, final, addendum or supplemental EIS for approval of the City's Environmental Coordinator; and
- Coordination of adopted or required SEPA measures of mitigation with project review staff.

6. Administrative and Ministerial Processing.

County review specified in this Exhibit E is intended to be of an administrative and ministerial nature only. Any and all legislative or quasi-judicial decisions or decisions of a discretionary nature shall be made by the City's designated decision maker and processed pursuant to the City's applicable review and appeal procedures.

7. Code Enforcement.

7.1 The County shall provide the City on the Effective Date, a list and brief explanation of all Annexation Area code enforcement cases (including those pertaining to surface water codes) under review by the County at the time of annexation. Except where the code enforcement case is associated with permits that will continue to be processed by the County under Sections 1 and 2 above, the City shall be responsible for undertaking any code enforcement actions following the Effective Date of annexation. The County shall provide the City with copies of any Annexation Area enforcement files requested by the City.

7.2 Code enforcement abatement actions necessary to eliminate public health or safety hazards shall be the sole responsibility of the City.

7.3 The County is authorized on behalf of the City to enforce conditions of approval for those permits that the County processes pursuant to this Exhibit E. Pursuant to this provision, the County's authorization shall mean issuing corrective notices and/or withholding permit approval or recommendation of approval. If code compliance

remains unresolved after the first notice, the County shall notify the City and, at the City's discretion, the City may initiate code enforcement cases, assess civil penalties, initiate financial guarantee recall, or otherwise take legal action to remedy the violation or non-compliance.

8. Financial Guarantees.

8.1 Any financial guarantee that is intended to secure compliance with project conditions that are being or will be reviewed by the City shall be turned over to or posted with the City, which shall have sole authority and discretion over its release and/or enforcement. Any financial guarantee that has been posted or is otherwise required in order to guarantee compliance with conditions that are being reviewed by the County pursuant to this Agreement shall be retained by or posted with the County. On behalf of the City, the County is authorized to accept such financial guarantees and to release them where it determines that conditions for release have been satisfied. In making such decisions whether to release a financial guarantee instrument, the County shall seek direction from the City. The City shall be solely responsible for making any demands or initiating any legal action to enforce financial guarantees for Annexation Area projects; provided however, that the County shall cooperate in any manner necessary to implement or otherwise draw upon a financial guarantee.

8.2 Except for those projects on which the County has prior to the Effective Date of annexation of the Annexation Area assessed required financial performance guarantees, the City shall have sole discretion and responsibility on the assessment of financial performance guarantees required of an applicant to secure compliance with permit or development-related requirements. The City shall have sole discretion and responsibility on the release and enforcement of all required financial performance guarantees required of the applicant to secure compliance with permit or development-related requirements. The County will not release any construction performance guarantees until the permittee has secured the required maintenance/defect bond or equivalent for the benefit of the City. The County will not release any maintenance/defect bonds until the City has reviewed the development-related improvements with the County inspector and agrees that the bond should be released. Notwithstanding the foregoing, upon special written request by the City, the County may agree to assist the City in determining whether to enforce or release particular financial guarantees. Such assistance from the County shall not include the initiation or undertaking of legal actions except where the City has no standing to initiate or undertake legal action.

9. Processing Priority.

Within budgetary constraints, the County agrees to process pre-annexation building and land use applications in accordance with the County's administrative procedures, at the same level of service as provided to County applications.

10. Fees and Reimbursement.

10.1 The City shall adopt legislation authorizing the County to charge applicants fees in amounts currently specified or hereafter adopted in King County Code Title 27 for applications processed by the County in accordance with the terms of this Agreement.

10.2 In order to cover the costs of providing services pursuant to the terms of this Exhibit E, the County is authorized to collect and retain such application and other fees authorized by the County fee ordinances adopted by the City pursuant to Section 10.1 above, or as may be modified at some future date by the County and the City.

10.3 In order to cover the costs of providing review, technical and administrative assistance, and other services not otherwise reimbursed pursuant to this Exhibit E, including but not limited to providing testimony at public hearings, the City shall pay the County at such hourly rate as specified in the version of King County Code Title 27 in effect at the time the services are performed. The County shall not seek reimbursement under this Section for review services performed on an individual permit application where the County has already been compensated for such services by the receipt of permit application review fees. The County shall provide the City with quarterly invoices for assistance and services provided, and the City shall tender payment to the County within thirty days after the invoice is received. The City shall retain the right to pre-authorize the County services contemplated by this Section 10.3, including the estimated cost of such services. Such pre-authorization by the City must be in writing. If the City does not provide pre-authorization, then the County shall neither provide nor invoice such services.

10.4 For permit applications initiated with the County and later forwarded to the City for completion, the County shall refund to the applicant any unexpended portion of any fees collected by the County. The City shall assess and collect fees for City services according to the current City fee schedule and continue administrating the permit according to City procedures.

10.5 No later than May 30, 2012, the County shall pay to the City any unexpended traffic impact fees collected by the County for development activity where all site improvements and building construction have not been completed prior to the Effective Date of annexation. Traffic impact fees collected by the County for permits that have not been issued shall be refunded to the applicant by the County. The City will assess and collect traffic impact fees for permits that the City has assumed responsibility for prior to permit issuance.

11. Termination.

Either party may terminate this Exhibit E for good cause shown upon providing at least thirty (30) days written notice to the other party. Upon expiration of this Agreement, or termination of this Exhibit E the County shall cease further processing and related review of applications it is processing under this Exhibit E. The County shall thereupon transfer to the City those application files and records, posted financial

guarantee instruments, and unexpended portions of filing fees for pending land use and building-related applications within the Annexation Area. Upon transfer, the City shall be responsible for notifying affected applicants that it has assumed all further processing responsibility.

12. Extension.
