

# MEMORANDUM

DATE: March 16, 2011

TO: Transportation Commission

FROM: Eric Miller, Capital Programming Division Manager, 425-452-6146  
Transportation Department

SUBJECT: 2012-2017 Transportation Improvement Program

## Purpose

At the March 24 Commission meeting, staff will present an overview of the current project status of the 2011-2016 Transportation Improvement Program (TIP) and proposed updates for the new 2012-2017 TIP as well as discuss the function of the TIP in the transportation planning and financial programming process. Staff seeks input from the Commission on the proposed updates, prior to a forthcoming public hearing, tentatively scheduled for April 14, 2011.

## Background

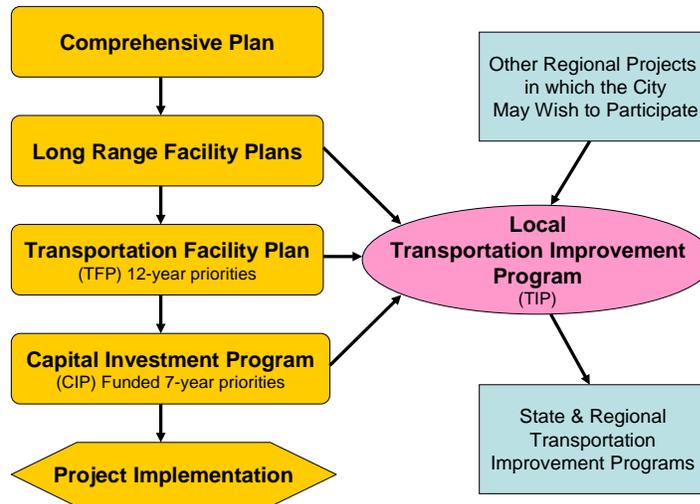

State law (RCW 35.77.010) requires all local jurisdictions to annually adopt a six-year program of transportation improvements, known as the Local TIP, by the end of June each year. On April 8, 2010, the Transportation Commission hosted a public hearing and recommended adoption of the current 2011-2016 Local TIP. On May 3, 2010, the City Council adopted the current TIP (Resolution No. 8086).

The six-year Local TIP serves as a rough work plan for the development of local transportation systems and, as such, represents an important planning component under the State's Growth Management Act. The Washington State Department of Transportation (WSDOT) and Puget Sound Regional Council (PSRC) use Local TIPs as a tool for coordinating the transportation programs of local jurisdictions with those of regional agencies. PSRC also monitors Local TIPs for projects of regional significance (to be modeled for Air Quality conformity) and projects supported by federal funds. These projects are incorporated into the Regional TIP, which is then forwarded for inclusion in the State TIP.

For the City of Bellevue, the primary importance of the Local TIP is that, in most instances, projects must be included on a Local TIP to be eligible for state and federal grant programs. Because Local TIPs are not revenue constrained, like Bellevue's CIP and TFP, the City can include projects we would choose to implement within the 6-year timeframe, if the funding were available. Local TIPs then, by definition, represent a more comprehensive listing of projects deemed necessary to ensure the safe and efficient operation of the City's transportation system.

Figure 1 illustrates the relationship between the TIP, the Capital Investment Program, and the Transportation Facilities Plan.

**Figure 1**

**Proposed City of Bellevue 2012-2017 TIP**

Attached to this memo is the current 2011-2016 TIP project list, with mark-ups showing proposed revisions for the 2012-2017 TIP update. All projects listed fall within one of four color-coded categories, or sections, as described below:

- Section I** Uncompleted CIP Projects (included in the Adopted 2011-2017 Capital Investment Program Plan – full or partial funding secured)
- Section II** TFP Projects (unfunded projects included in the Adopted 2009-2020 Transportation Facilities Plan)
- Section III** Other unfunded local projects identified or scoped by completed Alternative Analyses and Planning or Pre-design Studies (may be considered for inclusion in the next TFP Update)
- Section IV** Regional or Outside Agency-led projects in which the City may choose to participate financially

Projects proposed to be added to, deleted from, or transferred between sections of the current 2011-2016 TIP can be identified by the following three colors on the attachment:

- New** New projects proposed to be added to the current 2011-2016 TIP are shaded green.

Five new projects are proposed to be added to the current 2011-2016 TIP:

- Four are projects which are included within the recently adopted 2011-2017 CIP Plan and are proposed to added to the Section I of the 2012-2017 TIP;

- One is an “Early Implementation Funding” project for a subarea study that will be completed in 2011. This project is proposed to be added to Section III of the TIP.

Remove

Projects included in the current 2011-2016 TIP that are proposed to be removed due to their completion, deletion, or combination with another existing TIP project are shaded red.

Thirteen projects are proposed to be removed from the current 2011-2016 TIP:

- Four are projects that have been completed or are projected to be completed by the end of 2011;
- One is a project that was deleted from the CIP (Transportation Planning Studies – the function has been assumed within the Transportation Department Operating Budget).
- Eight projects have been combined or consolidated within other TIP projects.

Transfer

Projects included in the current 2011-2016 TIP that are proposed to be transferred between TIP sections have been shaded light blue.

Eleven projects are proposed to be transferred between various sections of the TIP.

The project costs listed in the “Project Funding Categories” columns of the attachment represent, in most cases, the actual level of funding budgeted or estimated to be needed by the City during the six-year timeframe of the Local TIP. Because the Local TIP is not revenue constrained, project costs are given one of two designations:

1. Secured Funding. Projects with secured funding have local or other sources of funding allocated to support full or partial project implementation.
2. Unsecured Funding. This designation reflects the portion of project costs that have no dedicated source of funding. Projects with unsecured funding at any level are included on the list for planning purposes should funding become available within the six-year timeframe.

## **Next Steps**

Proposed TIP update timeline:

- March 24, 2010 – Commission status review of 2012-2016 TIP and potential updates for the 2012-2017 TIP.
- April 14, 2010 - Tentative
  - Commission hosts a Public Hearing on the content of the Proposed 2012-2017 TIP.
  - Commission considers public testimony, potentially amends the Proposed 2012-2017 TIP, and recommends a TIP for City Council consideration.
- May/June, 2011 – City Council reviews and adopts the Proposed 2012-2017 TIP.
- May/June, 2011 – Formatting and submittal of the adopted 2012-2017 TIP to PSRC and WSDOT.

## **Attachments**

1. City of Bellevue 2011-2016 Transportation Improvement Program project list with proposed revisions for 2012-2017 TIP.
2. 2011-2016 Transportation Improvement Program Map

# Attachment 1: City of Bellevue 2011-2016 Transportation Improvement Program with proposed revisions for 2012-2017 Update

Projects listed in the 2011-2016 TIP are divided into four categories represented by the following colors.

- Section I Projects Included in the Adopted 2009-2015 Capital Investment Program (CIP) Plan - Full or Partial Funding Secured
- Section II Unfunded Projects included in the Adopted 2009-2020 Transportation Facilities Plan (TFP)
- Section III Other unfunded local projects identified or scoped by completed Alternative Analyses and Planning or Pre-design Studies
- Section IV Other regional or outside agency-led projects in which the City may choose to participate financially

### Project Status Categories

- New projects proposed to be added to the 2012-2017 TIP
- Completed, Deleted, or projects combined with existing TIP projects
- Projects proposed to be transferred between TIP Sections
- No change in status

						2011-2016 Project Funding Categories (\$000)					
						Secured 2011-2016 Funding					
TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	Unsecured Funding	Local* Funding	Other** Funding	Total Funding	Total Cost	Status Update	
<b>Section I: Uncompleted Projects Included in the Adopted 2009-2015 Capital Investment Program (CIP) Plan - Full or Partial Funding Secured</b>											
1	I-76	TFP-094	148th Avenue NE/Bel-Red Road Intersection Improvements	Add an eastbound right-turn lane and a second westbound left-turn lane from Bel-Red Road to 148th Avenue NE. The Bel-Red Corridor Project recommends adding a westbound right-turn lane and a second northbound left-turn lane (funding for these improvements are unsecured).		6,977		6,977	6,977	Project no longer funded in CIP; Transfer to TFP	
2	I-78	TFP-101	148th Avenue NE/NE 20th Street Intersection Improvements	Add a second westbound left turn lane from NE 20th Street to southbound 148th Avenue NE and a second left turn lane from eastbound NE 20th Street to northbound 148th Avenue NE. The Bel-Red Corridor Project recommends adding a second northbound left turn lane, a second southbound left turn lane, a separate westbound right turn lane and a separate eastbound right turn lane (funding for these improvements are unsecured).		3,778		3,778	3,778	Project no longer funded in CIP; Transfer to TFP	
3	I-84		Signal Warrant/Safety Program	Install or upgrade vehicular traffic signals, pedestrian crosswalk signals, street lights, and other improvements as warranted based on safety and/or capacity concerns.		939		939	939	Project combined with CIP-M-20	
4	M-1		Overlay Program	Provide major street maintenance, pavement overlays, and bridge inventory and maintenance and appropriate Americans with Disabilities (ADA) retrofit work.		33,368		33,368	33,368	Update description & funding to match new 2011-17 CIP	
5	M-2		Minor Capital - Traffic Operations Program	Provide minor capital improvements including signal and lighting upgrades, channelization and signage upgrades, pedestrian/bicycle signage and channelization, and spot improvements for emergent needs.		1,860		1,860	1,860	Update description & funding to match new 2011-17 CIP	
6	M-3		Curb, Gutter, and Sidewalk Rehabilitation Program	Reconstruct curb, gutter, and/or sidewalk sections where failing.		1,899		1,899	1,899	Project combined with CIP-M-1	
7	M-7		Neighborhood Traffic Calming Program	Install physical measures designed to reduce vehicle speeds and non-local traffic and to improve nonmotorized safety in neighborhoods.		5,097		5,097	5,097	Update description & funding to match new 2011-17 CIP	
8	M-8		Minor Capital Programs - Streets	Funds individual street repair projects in excess of \$5,000 such as handrail/guardrail replacement, pavement repair, and storm damage mitigation.		365		365	365	Project combined with CIP-M-19	
9	M-12		Citywide Rockeries Reconstruction Program	Maintain, repair, or replace rockeries as needed.		1,195		1,195	1,195	Project combined with CIP-M-19	
10	M-19		Major Maintenance Program	Provide necessary capital resources to address a wide range of maintenance related needs that exceed the financial capacity of the Streets Maintenance and Traffic Operations operating budgets and smaller minor capital programs but are too small for stand alone projects		2,532		2,532	2,532	Update description & funding to match new 2011-17 CIP	
New	M-20		Minor Capital - Signals & Lighting	This program funds minor capital transportation improvements to the traffic signal, street lighting, and communication systems throughout the city. Typical projects include traffic signal upgrades including new signal phases and displays for increased efficiency and safety, pedestrian crossing upgrades at signals, roadway signage and channelization upgrades near traffic signals, new or revised street lighting including LED street lights, and communication upgrades including fiber optic cables for broadband communications. This program also provides preliminary design funding for possible new traffic signals.		1,200		1,200	1,200	New CIP Program (split off from CIP-M-2)	
11	R-44		Transportation Planning Studies Program	Provide consultant and in-house capabilities to carry out activities associated with the planning and pre-design of possible CIP projects. Project funding may be used to leverage additional, non-local funding.		643		643	643	Project no longer funded in CIP	
12	R-46		Major Safety Improvements Program	Construct roadway safety-related capital improvements citywide as identified through deficiency analysis and community input. Project funding may be used to leverage additional, non-local funding.		623		623	623	Update description & funding to match new 2011-17 CIP	

**Attachment 1: City of Bellevue 2011-2016 Transportation Improvement Program with proposed revisions for 2012-2017 Update**

TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	2011-2016 Project Funding Categories (\$000)					Status Update
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding	Total Cost	
13	R-87		Transportation Demand Management Program	This project provides continuing resources for Transportation Demand Management (TDM) implementation. TDM activities and techniques include: Development and implementation of education/marketing programs for employers and employees, improving access to and the appeal of alternative transportation modes for users and potential users, and participation in trip reduction activities associated with the Bel-Red Overlake Transportation (BROTS) Plan. Performance goals for TDM are specified in the mobility targets for Mode Split in the Comprehensive Plan. This project may fund both consultant and improved in-house capabilities in support of TDM efforts.	1,916	473	221	694	2,610	Project no longer funded in CIP; Transfer to "Blue" Section of TIP
14	R-136		Traffic Safety Technologies Program	Provide innovative technologies for addressing traffic safety in Bellevue.		486		414	414	Project combined with CIP-R-156
15	R-139	TFP-110	110th Avenue NE Roadway Improvements	This project will provide for design and construction of widening 110th Avenue NE from four lanes at NE 4th Street to five lanes at NE 6th Street, and design only for a five-lane section from NE 6th Street to NE 8th Street. Also included (design only between NE 6th and NE 8th Streets) will be curb/gutter/sidewalk, illumination, storm drainage, detention if necessary, signal modifications at NE 4th, 6th and 8th Streets. This project will be closely coordinated with planned, potential or permitted private development along the corridor.		315		315	315	Project no longer funded in CIP; Transfer to TFP
16	R-141	TFP-078	West Lake Sammamish Parkway/north City limit to I-90	The project will provide a consistent 4' shoulder on the east side, a 10.5' northbound vehicle travel lane, a 10' southbound vehicle travel lane, a 10' wide multi-purpose trail (8' wide in approximately 2% of the corridor due to constricted space) on the west side separated by a 1.5' shy distance space and a 2' or 5' wide landscaped buffer where space is available, a signal at SE 34th Street, pedestrian crossings at SE 26th Street, Northup Way, NE 24th Street and at 5 other locations along the parkway. The project will also make storm drainage, water quality and fish passage improvements throughout the corridor. Options for undergrounding existing overhead utilities and various project implementation phasing scenarios will be evaluated during the initial design process.	30,000	5,400		5,400	35,400	Update description & funding to match new 2011-17 CIP
17	R-146	TFP-079	Northup Way Corridor Improvements	This investment entails only secured funding for complete and/or phased implementation of the improvements identified by a 1996 corridor study, including sidewalks and bike lanes on both sides and a two-way center turn lane east of NE 33rd Place. The secured funding may also be used to fund interim safety improvements identified by the design report to improve conditions for vehicles, pedestrians, bicyclists, and transit riders until the ultimate improvements can be implemented. A 2007 Design Report process will refine the project scope and implementation phasing options for the unsecured funding portion of this project.	14,000	1,000		1,000	15,000	Update description & funding to match new 2011-17 CIP
18	R-150	TFP-190	NE 2nd Street Roadway Enhancement Project	A pre-design process initiated in 2005 will refine the project scope and implementation phasing options. Secured funding entails only placeholder funding for complete and/or phased implementation of the NE 2nd Street roadway and park improvements identified by the Downtown Implementation Plan (2003). This includes widening to five lanes from Bellevue Way to 112th Avenue NE and connection to the planned half diamond interchange between NE 2nd Street and I-405. Private developer contributions or frontage improvement implementation, or additional local funding commitments, will be necessary to implement the remainder of the corridor improvements. This project will be closely coordinated with potential private development along the corridor.	36,500	5,100		5,100	41,600	Project no longer funded in CIP; Transfer to in TFP
19	R-151	TFP-160	145th Place SE/SE 16th Street to SE 24th Street AND SE 22nd Street/145th Place to 156th Avenue SE	This project will add five foot bike lanes, curb, gutter and six foot sidewalk along both sides, a two-way center left-turn lane where needed, planted median islands and other landscaping where feasible on 145th Place SE from SE 16th Street (Kamber Road) to SE 24th Street. The project will modify the 145th Place SE/SE 24th Street intersection. This project will also provide curb, gutter and six foot sidewalks where missing along the north side of SE 22nd Street from 145th Place SE to 156th Avenue SE. Other improvements include storm water drainage, detention and water quality treatment improvements, signing, striping, illumination enhancements, and irrigation. Undergrounding of overhead utilities and noise barriers are not included in this scope of work.		3,259		3,259	3,259	Project to be substantially complete in 2011.

**Attachment 1: City of Bellevue 2011-2016 Transportation Improvement Program with proposed revisions for 2012-2017 Update**

TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	2011-2016 Project Funding Categories (\$000)					Status Update
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding	Total Cost	
20	R-153		Early Implementation of the Bel-Red Corridor Plan	The new Bel-Red Corridor Plan will provide a long-term land use vision for the area that will likely be of higher density than under the current plan, and therefore will require significant investment in transportation infrastructure and other city facilities. Secured funding is dedicated to early implementation activities and will fully or partially fund follow-up planning work, conceptual design studies, property acquisition and other activities to advance the plan's key recommendations. Significant additional funding (Unsecured) will be necessary to fully fund the implementation of transportation infrastructure improvements including new roadway connections, existing roadway operational and capacity enhancements, numerous intersection improvements, and new or enhanced facilities for pedestrians and cyclists.	5,000	800		800	5,800	Project to be substantially complete in 2011.
21	R-155		Traffic Computer System Upgrade	Replace the existing traffic computer system software and hardware, and upgrade the field communications systems connecting the computer with remote traffic control equipment citywide.	900	758		758	1,658	Update description & funding to match new 2011-17 CIP
22	R-156		ITS Master Plan Implementation Program	Systematically implement the recommendations of the City's Intelligent Transportation System (ITS) Master Plan completed in 2005. ITS projects will be selected to provide cost effective measures to reduce traffic congestion and increase the availability of real time traffic information to users of the transportation system.		1,600		1,600	1,600	Update description & funding to match new 2011-17 CIP
23	R-157		Transit Now/Downtown Circulator	A downtown circulator to serve downtown residents, employees, and visitors. Phase one, service planning (funded in 2007) included evaluating spans of service and service frequency, evaluating demand and forecasting ridership, and estimating operating costs. Phase two covers an estimated five years of implementation, a joint effort with King County Metro, utilizing partnership funding created by the 2006 Transit Now initiative. The City may choose to participate financially in the acquisition of circulator vehicles, specifically low emission.	4,000	952		952	4,952	Project no longer funded in CIP; Transfer to "Blue" Section of TIP
24	R-158		Downtown Great Streets	This project will design and construct urban design elements to soften and "green" streets (NE 4th Street, NE 8th Street, 106th Avenue NE, 108th Avenue NE and Bellevue Way corridors) throughout downtown to enhance the pedestrian environment. A Great Streets manual provides a toolkit of treatments that can also be applied to other streets within the downtown. Areas will be identified that will most benefit from enhancements to make them more pedestrian friendly and aesthetically pleasing. Selected locations will remove/replace hardscaping and replace with landscaping (planted areas, raised planters, additional street trees) or other features (surfacing treatments, pedestrian scale lighting, street furniture). Private developer frontage improvement installation or funding contributions, or additional public funding commitments, will be necessary to implement the remainder of the Great Streets improvements. This project will be closely coordinated with planned and potential future private development within the downtown area.		1,000		1,000	1,000	Project no longer funded in CIP; Transfer to "Blue" Section of TIP
25	R-159		East Link Analysis and Development	Participate with Sound Transit and other potential project partners to advance the planning, analysis, and design of the East Link light rail project. Work tasks will include, but are not limited to activities that relate directly or indirectly to the East Link project, including City-sponsored projects and programs. Key tasks include transportation demand modeling; traffic analysis including operational simulation; identification and evaluation of potential funding sources and associated financial analyses; specialized environmental analyses; engineering support relating to alignments, track profiles, stations, and city roadway-light rail interface; design issues; community and stakeholder outreach; intergovernmental relations and agreements; and other tasks necessary for the City to fully engage in and influence the East Link project.	5,000	300		300	5,300	Update description & funding to match new 2011-17 CIP

**Attachment 1: City of Bellevue 2011-2016 Transportation Improvement Program with proposed revisions for 2012-2017 Update**

TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	2011-2016 Project Funding Categories (\$000)					Status Update
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding	Total Cost	
26	R-160	TFP-207	NE 4th Street Extension	This project will implement a new five lane arterial, with two travel lanes in each direction and a center turn lane where necessary, between 116th Avenue NE and 120th Avenue NE. The project will include bike lanes, curb, gutter and sidewalk on both sides, illumination, landscaping and irrigation, storm drainage and detention. The project will accommodate other utility infrastructure as needed. The final roadway alignment will be determined in coordination with existing and potential future development and with the ownership interests of the Burlington Northern Santa Fe (BNSF) railway corridor. The project will be designed not to preclude potential future uses of the BNSF corridor. The project will include a new signalized intersection at NE 4th Street/120th Avenue NE and will modify the existing signalized intersection at NE 4th Street/116th Avenue NE. Implementation of the project will be closely coordinated with the complementary 120th Avenue NE Improvements project (Segment 1; CIP Plan No. PW-R-161). A neighborhood protection plan, to address potential traffic impacts along NE 5th Street to the east of 120th Avenue NE, may be developed in coordination with the neighborhood. The initial project budget is intended to fund work associated with the project	20,000	1,500	12,500	14,000	34,000	Update description & funding to match new 2011-17 CIP
27	R-161	TFP -207	120th Avenue NE Improvements	This project will widen 120th Avenue NE to five lanes, including two travel lanes in each direction with a center turn lane, turn pockets or planted medians, beginning south of NE 4th Street to south of NE 8th Street. The project will improve, or install where missing, bike lanes, curb, gutter and sidewalk on both sides, a traffic signal at the NE 6th Street intersection, illumination, landscaping, irrigation, storm drainage and detention. The project will be designed and constructed to accommodate intersections with the NE 4th Street Extension, the planned extension of NE 6th Street, and other utility infrastructure. The project will also be coordinated with the planned future extension and realignment of 120th Avenue NE between NE 8th Street and NE 12th Street (120th Avenue NE Improvements, Segment 2) and continued widening of 120th Avenue NE between NE 12th Street and Northup Way (120th Avenue NE Improvements, Segment 3). The initial project budget is intended to fund work associated with the project design phase, the right of way acquisition and partially fund the construction phase.	1,300	1,000	2,600	3,600	4,900	Update description & funding to match new 2011-17 CIP
28	R-162	TFP-211	NE 6th Street Extension	Extend NE 6th Street, as an HOV only facility, from the I-405 HOV interchange to the east over 116th Avenue NE, crossing BNSF right-of-way, and terminating at 120th Ave NE. Improvements include two lanes in each direction with left turn lanes at signalized intersections of I-405 and 120th Avenue NE, a 14' wide non-motorized pathway adjacent to and along the south side of the extension between 112th Ave NE and 120th Ave NE, I-405 corridor design standards, illumination system, retaining walls, landscaping for at-grade locations, underground utilities, detention/water quality treatment, and provisions that do not preclude future regional trail or other improvements within the BNSF corridor.	67,000	500		500	67,500	Update description & funding to match new 2011-17 CIP
29	R-163	TFP-209	NE 15th/16th Street (Phase I) /116th Avenue at NE 12th Street to 124th Avenue NE	This project will implement a new multi-modal corridor consisting of two general purpose travel lanes in each direction; turn lanes at designated intersections; curbs, gutters and sidewalks on both sides; bicycle facilities incorporated within or adjacent to the corridor with regional trail connections; illumination; and storm drainage and detention. Other features may include provisions for local street connections and interim on-street parking. Accommodation for light rail guide ways, a light rail station at approximately 122nd Avenue NE, and other utility infrastructure needs will be included within the design of the project corridor. The project may also incorporate "green" elements, including urban open spaces, tree canopy with enhanced landscaping features, and natural drainage elements where practical. The project will modify existing or construct new signalized intersections at 116th Avenue NE, the reconnection of NE 12th Street, 120th Avenue NE, and 124th Avenue NE. Project implementation will be coordinated with existing and potential development, the Sound Transit East Link project, planned improvements to 120th and 124th Avenues NE, and future NE 15th/16th Street improvements east of 124th Avenue NE. The initial project budget is intended to fund pre-design and	83,000	500		500	83,500	Update description & funding to match new 2011-17 CIP

**Attachment 1: City of Bellevue 2011-2016 Transportation Improvement Program with proposed revisions for 2012-2017 Update**

TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	2011-2016 Project Funding Categories (\$000)				Total Cost	Status Update
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding		
30	R-164	TFP-208	120th Avenue NE / NE8th Street to NE 12th Street	This project will extend, realign and widen 120th Avenue NE from NE 8th Street to south of NE 12th Street. This segment of the project includes all intersection improvements at NE 8th Street. The roadway cross-section will consist of five lanes, including two travel lanes in each direction with turn pockets or a center turn lane. The project will improve, or install where missing, bike lanes, curb, gutter and sidewalk on both sides, illumination, landscaping, irrigation, storm drainage, and water quality treatment. The project will be designed and constructed to reflect Bel-Red urban design criteria, accommodate an intersection with Old Bel-Red Road and the relocation of utility infrastructure. The project will be coordinated with the 120th Avenue NE improvements south of NE 8th Street (Segment 1; CIP Plan No. PW-R-161) and continued widening of 120th Avenue NE between NE 12th Street and Northup Way (120th Avenue NE Improvements, Segment 3).	25,810	190		190	26,000	Project Name & Description will be expanded to include improvements between NE 12th St. and Northup Way consistent with CIP-R-164 amendments
	R-165		Downtown Transportation Plan Update	This work will expand upon current Downtown transportation planning to identify roadway, non-motorized, and transit facility improvements needed to ensure downtown mobility through 2030. The project will build on current work to identify specific improvements to roadway operations and transit service to accommodate all motorized and non-motorized trips to, from, and within Downtown by 2030. The scope includes assessing the benefit of projects already identified in earlier planning efforts, analyzing all trips to/from Downtown, identifying how to serve key transit markets and travel corridors, identifying specific transit system improvements, and analyzing and identifying other essential improvements to the local and regional transportation system. The final product of this project will be an updated Downtown transportation plan and phased implementation strategy.		175		175	175	New CIP Project in 2011-17 Plan
	R-166	TFP-210	124th Avenue NE/Proposed NE 15th/16th Street Extension to Northup Way	This project will widen 124 <sup>th</sup> Avenue NE between the planned NE 15 <sup>th</sup> Street and Northup Way providing a five lane roadway, including illumination, traffic signals, curb/gutter, landscaping and sidewalks consistent with Bel-Red corridor street and urban design standards. This project will address the connection of open-space trails along the West Tributary defining provisions for an at-grade or grade separated trail crossing of 124 <sup>th</sup> Avenue NE, and provisions for utility improvements and relocations that will further be coordinated with Sound Transit's proposed retained cut and required changes in profile to 124 <sup>th</sup> Ave NE, and the NE 15 <sup>th</sup> Street Multi-Modal corridor (Stage 1; CIP Plan No. PW-R-163).	17,100	1,600		1,600	18,700	New CIP Project in 2011-17 Plan
	R-167		148th Ave NE Master Plan (Phase 1) - Bel-Red Road to SR 520	In partnership with the City of Redmond, this project will conduct the preliminary design of phase 1 of the 148 <sup>th</sup> Avenue NE Master Plan improvements, between NE 20 <sup>th</sup> Street and SR 520. The project includes the development of a cost sharing and project management agreement between the cities for the determination and implementation of the full 148 <sup>th</sup> Avenue NE Master Plan.	10,000	250		250	10,250	New CIP Project in 2011-17 Plan
31	WB-49		Pedestrian Facilities Compliance Program	This program provides a resource to identify, inventory, prioritize, design, and construct spot improvements to pedestrian facilities citywide to meet compliance standards stemming from the Americans with Disabilities Act (ADA).		316		316	316	Update description & funding to match new 2011-17 CIP
32	WB-53		Transportation Trail Maintenance Program	Funds routine cleaning and occasionally major repairs to surfaces, fences, directional signage and control of adjacent vegetation on City transportation trails.		545		545	545	Project combined with CIP-M-19
33	WB-56		Pedestrian Access Improvements Program	Funds minor construction of small pedestrian and bicycle improvements that enhance mobility and access between neighborhoods, employment, schools, parks, transit and shopping. Individual projects are typically short segments of sidewalk, bike racks, off-street trails, and signage, and are implemented in coordination with schools, neighborhoods and businesses. The program may leverage grant funds, and in partnership with other City programs, may be used to construct larger-scale projects.		2,535		2,535	2,535	Update description & funding to match new 2011-17 CIP
34	WB-71	TFP-159	108th Avenue SE/Bellevue Way to I-90	Construct bike lanes on both sides and sidewalk on one side where missing, the side to be determined in the initial design process which will include community outreach/involvement facilitation. Implementation of the project will be coordinated with PW-M-1: Overlay Program to rehabilitate or replace the concrete surface.		6,530		6,530	6,530	Project to be substantially complete in 2011.

**Attachment 1: City of Bellevue 2011-2016 Transportation Improvement Program with proposed revisions for 2012-2017 Update**

TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	2011-2016 Project Funding Categories (\$000)					Status Update
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding	Total Cost	
35	WB-75	TFP-175	SE 34th Street Non-motorized Improvements	Design and construct a five foot bike lane, curb, gutter and six foot sidewalk on north side and curb, gutter and a wide curb lane on the south side of SE 34th Street.		3,861		3,861	3,861	Project no longer funded in CIP; Transfer to TFP
36	WB-76		Neighborhood Sidewalks Program	This program funds the pre-design, design and construction of sidewalk projects in neighborhoods throughout the city. Neighborhood sidewalks are pedestrian facilities connecting neighborhood residents to neighborhood destinations including housing, parks, schools, shopping and services, employment, and the transit and school bus systems. Individual projects are selected in part based on strong and sustained community support demonstrated through other programs such as the Neighborhood Enhancement Program (CIP Plan No. NEP-1). Project costs, typically in the range between \$500,000 and \$1,500,000, exceed the financial capacity of ongoing minor capital programs like NEP or Pedestrian Access Improvements (CIP Plan No. PW-W/B-56), but the projects often do not compete well for stand-alone CIP project funding.	15,000			0	15,000	Update description & funding to match new 2011-17 CIP
37	WB-77		Downtown Mid-Block Crossings	This project will identify, design, and install signalized mid-block pedestrian crossings at select locations Downtown. Project locations will be determined in coordination with Traffic Operations staff and the downtown community. The installation of signalized mid-block pedestrian crossings at key locations will help to create a network of pedestrian routes which will break-down the scale of downtown superblocks and reinforce the importance of the pedestrian in the urban environment. This project will consider location, geometric design elements, weather protection, lighting, aesthetic treatments, and traffic progression and delay.	1,000	500		500	1,500	Project no longer funded in CIP; Transfer to "Blue" Section of TIP
<b>Section II: Unfunded Projects included in the Adopted 2009-2020 Transportation Facilities Plan (TFP)</b>										
38		TFP-102	Bel-Red Road/NE 24th Street Intersection Improvements	Add southbound right turn and northbound left turn lanes. Scope and cost may be modified based on ongoing analysis and coordination with City of Redmond associated with development of a BROTS successor agreement.	2,290			0	2,290	
39		TFP-154	148th/150th Avenue SE Roadway Improvements	Widen by extending the third southbound lane on 148th Avenue SE from the on-ramp to westbound I-90 to south of Eastgate Way at the I-90 westbound off ramp. Scope and cost may be modified based on ongoing analysis and coordination with the WSDOT I-90 Corridor Study.	1,900			0	1,900	
40		TFP-156	SE 60th Street Non-motorized Improvements	Construct bike lanes and sidewalks on both sides where missing; sidewalk on one side between Coal Creek Parkway and 129th Avenue SE. (Remaining elements of phased project, Initial phase completed in 2009 with CIP WB-72.)	5,000			0	5,000	
41		TFP-157	NE 24th Street/148th Avenue NE Intersection Improvements	Lengthen the westbound right turn lane on NE 24th Street and provide second westbound left turn lane; widen NE 24th Street to allow wide curb lanes for cyclists. Scope and cost may be modified based on ongoing analysis and coordination with City of Redmond associated with development of a BROTS successor agreement.	4,170			0	4,170	
42		TFP-158	SE 16th Street/148th Avenue SE to 154th Avenue SE	Add 5 foot bike lanes outside of 11 foot vehicles lanes on both sides of SE 16th Street. Construct new curb, gutter and 6' sidewalk and 4' planter, on north side between 148th and 154th Avenues NE.	3,740			0	3,740	
43		TFP-162	156th Avenue SE/SE Eastgate Way (I-90 westbound off-ramp) Intersection Improvements	Widen the I-90 westbound off-ramp to provide two dedicated left turn lanes and a shared through/right lane with a channelized right turn. Scope and cost may be modified based on ongoing analysis and coordination with the WSDOT I-90 Corridor Study.	780			0	780	
44		TFP-090	116th Avenue NE/NE 12th Street Intersection Improvements	Widen to five lanes north of the existing intersection. Add a second eastbound left turn and northbound right turn at 116th Avenue NE and NE 12th Street. Project implementation will be coordinated with potential future private development in the immediate vicinity. The \$5,000K funding allocation is a magnitude of cost estimate to be used until an engineer's estimate can be developed.	5,000			0	5,000	
45		TFP-168	NE 8th Street/148th Avenue NE Intersection Improvements	Construct 2nd eastbound and westbound left turn lanes on NE 8th Street. All widening would be done to the north side of the roadway.	5,060			0	5,060	
46		TFP-171	NE 40th Street Non-motorized Improvements	Construct curb, gutter and 6' sidewalk on north side of NE 40th Street from 140th Avenue NE to east of the 14500 block. Wide curb lanes. Planter strip where feasible.	1,800			0	1,800	

**Attachment 1: City of Bellevue 2011-2016 Transportation Improvement Program with proposed revisions for 2012-2017 Update**

TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	2011-2016 Project Funding Categories (\$000)				Total Cost	Status Update
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding		
47		TFP-172	106th and 108th Avenues One-Way Couplet Conversion	Convert roadways to function as a one-way couplet between Main Street and NE 12th Street. 106th Avenue will function as a northbound one-way street and 108th Avenue will function as a southbound one-way street. 108th will include a single northbound contraflow lane between NE 4th and NE 8th Streets for transit buses only. Sidewalks along 106th Avenue will be widened.	5,870			0	5,870	
48		TFP-173	108th/112th Avenue NE - south of SR 520 to NE 12th Street	Add 5 foot bike lanes on both sides of 108th/112th Avenue NE from Northup Way to NE 12th Street. Construct a 6 foot-wide sidewalk along the west side of 112th Avenue NE from end of transportation trail south to existing sidewalk 400 ft south of NE 24th Street. Widen for turn pockets at NE 24th Street intersection.	3,730			0	3,730	
49		TFP-192	Lakemont Blvd./Cougar Mountain Way to Lewis Creek Park and 164th Avenue SE to 171st Avenue SE (phase 1)	Install signal and turn lanes at Cougar Mtn. Way/Lakemont Blvd. intersection; construct northbound left turn lane on Lakemont Blvd. at SE 62nd Street; construct sidewalk and bike lanes on east side between Cougar Mtn. Way and park; install planted medians where feasible.	2,920			0	2,920	
50		TFP-205	Lakemont Blvd./Lewis Creek Park to 164th Ave SE (phase 2)	Install signal at 164th Ave SE/Lakemont Blvd; construct sidewalk and bike lane on east side; add planted medians where feasible.	1,860			0	1,860	
51	R-149	TFP-193	NE 10th at I-405	Add half interchange (ramps) to/from the north. Cost estimate reflects only a potential local contribution to a project that will require substantial funding from outside sources. Project to be coordinated with City/WSDOT project to extend NE 10th Street between 112th and 116th Avenues NE.	500			0	500	
52		TFP-194	164th Ave SE/SE Cougar Mountain Way to SE 63rd Street	Improve gravel road with pavement, curb, gutter and sidewalk on one side. Consider cost sharing with benefiting property owners through the use of a Local Improvement District (LID). Cost estimate represents only a placeholder for implementation.	1,000			0	1,000	
53		TFP-195	150th Avenue SE/SE 37th Street/I-90 off-ramp widening	Widen I-90 off-ramp 300' west of 150th Avenue SE and add a through lane. Widen SE 37th Street 500' to the east of 150th Avenue SE to allow for a bypass lane on the right side of the street. Scope and cost may be modified based on ongoing analysis and coordination with the WSDOT I-90 Corridor Study.	1,430			0	1,430	
54		TFP-196	NE 20th Street at 156th Avenue NE	Construct an east to west U-turn on NE 20th Street at 156th Avenue NE with access management along NE 20th Street.	820			0	820	
55		TFP-197	NE 2nd Extension and I-405 interchange	Extend NE 2nd Street across I-405 from 112th Avenue NE to 116th Avenue NE. Add half interchange with I-405, to/from the south. Cost estimate reflects only a potential local contribution to a project that will require substantial funding from outside sources.	500			0	500	
56		TFP-198	Bel-Red Road and NE 20th Place	Install signal, eastbound left turn pocket and pedestrian crossing.	1,960			0	1,960	
57		TFP-199	Lake Hills Boulevard - 148th Avenue SE west to 143rd Avenue SE	Construct new curb, gutter and six-foot sidewalk behind four-foot planter strip on both sides of the street while preserving the existing on-street bicycle facilities. Remove remaining European White Birch trees in poor health and reconstruct the wood fence as necessary.	1,980			0	1,980	
58		TFP-120	Factoria Boulevard at Newport Way	Construct a second southbound left-turn lane at Newport Way and modify the channelization on the eastern leg of the Factoria Blvd/Newport Way intersection to receive the two lanes of turning traffic. Reconfigure the intersection between Factoria Blvd and the access to Newport High School, including relocation of the Factoria Blvd access to St. Margaret's church to become an eastern leg of the intersection.	4,600			0	4,600	
59		TFP-103	129 <sup>th</sup> Avenue SE/SE 38 <sup>th</sup> Street to Newport Way	Extend 129 <sup>th</sup> Avenue SE to SE 38 <sup>th</sup> Street. Investigate traffic operations at the intersection of 129th Avenue SE and SE Newport Way. Consider signalization and channelization improvements if warranted. Project implementation will be coordinated with potential future private development in the immediate vicinity.	4,590			0	4,590	
60		TFP-164	173rd Avenue NE - Northup Way to City limits	Construct curb, gutter and 6' sidewalk on east side where missing; accommodate future bike lane.	1,360			0	1,360	
61		TFP-208	120th Avenue NE/NE 8th Street to Northup Way	Widen to five lanes with sidewalks and bikelanes. Extend/realign roadway between NE 8th Street and Old Bel-Red Rd. Key intersection improvements at NE 8th St, NE 12th St, the proposed 15th/16th St, and Northup Wy. (A segment of this project is included in CIP R-164.)	16,100			0	16,100	Project partially funded/combined with CIP-R-164

**Attachment 1: City of Bellevue 2011-2016 Transportation Improvement Program with proposed revisions for 2012-2017 Update**

TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	2011-2016 Project Funding Categories (\$000)					Status Update
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding	Total Cost	
62		TFP-210	124th Avenue NE/Proposed NE 15th/16th Street Extension to Northup Way	Widen to five lanes with sidewalks. Key intersections at NE 15th/16th Street and Northup Way.	19,000			0	19,000	Project partially funded in 2011-17 CIP Plan (R-166)
63		TFP-213	124th Avenue NE/Bel-Red Road to Planned NE 15th/16th Street Extension	Widen to 5 lanes with sidewalks.	9,200			0	9,200	
64		TFP-214	124th Avenue NE/Bel-Red/Old Bel-Red Road	Project scope is currently being analyzed/refined through continued Bel-Red Corridor Plan work. Until completion of the continued analysis, the project scope may be defined as follows: Provide a second westbound left turn lane, a southbound right turn lane and widen 124th Avenue NE to provide a second southbound lane between Bel-Red Rd. and Old Bel-Red Rd; upgrade signal equipment; and provide new curb, gutter, and sidewalk adjacent to widening. The \$3,000K funding allocation is a magnitude of cost estimate to be used until an engineer's estimate can be developed.	3,000			0	3,000	
65		TFP-215	NE 15th/16th Street (Phase II)/124th Avenue NE to 136th Place NE and 136th Place NE/NE 16th to 20th Streets	Extend five lane roadway from 124th Avenue NE to 136th Place NE with a key intersection at 130th Avenue NE. Widen 136th Place NE five to three-lanes between NE 16th Street and NE 20th Street (reduction occurs at the intersection); add a double westbound left turn on NE 20th Street.	181,000			0	181,000	
66		TFP-216	112th Avenue NE/NE 2nd Street	Straighten and realign NE 2nd Street between 112th and 114th Avenues NE, add dual southbound left turn lanes and a northbound right turn lane. Project implementation will be coordinated with potential future private development in the immediate vicinity.	1,880			0	1,880	
67		TFP-217	124th Avenue NE at SR-520	Construct ramps to and from the east. This project would likely be a regional or outside agency-led effort in which the City may choose to participate financially. The \$500K funding allocation is a placeholder that may be used to initiate project pre-design or early implementation.	500			0	500	
68		TFP-218	130th Avenue NE/NE 20th to NE Bel-Red Road	Construct turn lanes, shared bike lanes, on-street parking and sidewalks between NE 16th and NE 20th Streets and widen to three lanes with shared bikelanes and sidewalks between NE 16th Street and Bel-Red Road. Key intersections at NE 20th, NE 16th and Bel-Red Road. Project implementation will be coordinated with potential future private development in the immediate vicinity.	6,780			0	6,780	
69		TFP-219	NE 8th Street/106th Avenue NE	Realignment of the roadway to the south will better utilize the new westbound travel lane (between 108th and 106th Avenues NE) and preserve the existing large sequoia tree. This realignment will allow NE 8th Street three through lanes westbound from I-405 to Bellevue Way. Project implementation will be coordinated with potential future private development in the immediate vicinity.	1,740			0	1,740	
70		TFP-220	SE 40th Lane/Factoria Boulevard	Lengthen the southbound to eastbound left turn lane and lengthen the westbound left turn lane.	280			0	280	
71		TFP-221	148th Avenue intersection safety and reliability	This project would improve the safety and reliability at four signalized intersections along the 148th Avenue corridor, including SE 24th Street, SE 8th Street, Main Street, and NE 8th Street. The project would remove and replace aging wiring and poles to increase reliability and reduce signal malfunctions at these intersections that have not had any major upgrades since their construction in 1975.	1,000			0	1,000	
72		TFP-222	Bellevue Way/NE 4th Street	Add a southbound right turn lane and a westbound right turn lane. Dual westbound left turn lanes. Project implementation will be coordinated with potential future private development in the immediate vicinity.	1,690			0	1,690	
73		TFP-223	Bellevue Way/NE 8th Street	Add southbound right turn lane. Project implementation will be coordinated with potential future private development in the immediate vicinity.	1,260			0	1,260	
74		TFP-224	Bel-Red Road/NE 20th Street	Add southbound right turn lane; convert westbound lanes on NE 20th Street to provide left turn, left turn/through and through/right turn lanes. Scope and cost may be modified based on ongoing analysis and coordination with City of Redmond associated with development of a BROTS successor agreement.	1,450			0	1,450	

**Attachment 1: City of Bellevue 2011-2016 Transportation Improvement Program with proposed revisions for 2012-2017 Update**

TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	2011-2016 Project Funding Categories (\$000)				Total Cost	Status Update
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding		
75		TFP-225	Bellevue Way/NE 2nd Street	Add a northbound right turn lane and a second southbound left turn lanes. Project implementation will be coordinated with potential future private development in the immediate vicinity.	890			0	890	
76		TFP-226	NE 11th/12th Street to 116th Avenue NE Connection (across from Overlake Hospital)	Construct new 4/5 lane connection.	44,480			0	44,480	
77		TFP-227	123rd Avenue SE - SE 60th Street to SE 64th Place	Construct curb, gutter and 6' sidewalk on west side where missing between SE 60th Street and SE 64th Place; sign bike route.	1,050			0	1,050	
78		TFP-228	148th Avenue SE - SE 44th Street to SE 46th Street	Construct curb, gutter and 6' sidewalk, 14' (15' uphill) travel lane on the west side of street. Connect to existing sidewalk north of SE 44th St (within King county) to existing sidewalk south of SE 46th St.	1,060			0	1,060	
79		TFP-229	116th Avenue SE - SE 60th Street to Newcastle Way	Construct curb, gutter and 6' sidewalk on the east side of the street. Curb 14' from center of roadway.	1,340			0	1,340	
80		TFP-230	108th Avenue NE - NE 12th Street to Main Street	108th Avenue NE Downtown corridor enhancement consisting of Great Streets, Midblock Crossing, Ped Corridor interface and bike lanes. This funding would cover the estimated shortfall and allow for the inclusion of bike lanes between NE 12th and NE 8th Streets and between NE 4th and Main Streets.	1,750			0	1,750	
81		TFP-231	SE 7th Place - Lake Hills Connector to cul-de-sacs	Construct curb, gutter and 6' sidewalk on one side, the side to be determined in the initial design process which will include community outreach/involvement facilitation.	1,030			0	1,030	
82		TFP-232	164th Avenue NE/SE - NE 18th Street to SE 14th Street	Designate bike shoulder on both sides between NE 18th Street and Northup Way and between NE 8th Street and SE 14th Street. Stripe and sign 5 foot bike lanes between Northup Way and NE 6th Street. Accomodate on-street parking on the east side of the street from NE 6th Street to SE 14th Street.	7,400			0	7,400	
83		TFP-233	130th Place/Avenue SE/Newport Way to SE 47th Place	Construct curb, gutter and 6' sidewalk, where missing, on the east side of the street.	1,510			0	1,510	
84		TFP-234	Main Street - 100th Avenue to 116th Avenue	Funding to support pedestrian and bicycle facility components of Main Street project - currently in a pre-design process.	500			0	500	
85		TFP-235	108th Avenue NE - NE 24th Street to NE 12th Street	Add wide bike shoulder on both sides where not complete. Construct a 6 foot sidewalk on east side from NE 24th Street to north of NE 19th Street.	2,350			0	2,350	
86		TFP-236	NE 24th Street - 108th Avenue NE to 112th Avenue NE	Add a wide bike shoulder on both sides of NE 24th from 108th to 112th Avenues NE.	1,510			0	1,510	
87		TFP-237	123rd Avenue SE - SE 20th to SE 26th Streets	Construct curb, gutter and 5' sidewalk, place curb 14' from center of the roadway on the east side of the street. Parking bays where feasible.	950			0	950	
<b>Section III: Other Unfunded Local Projects Identified By Completed Alternative Analyses and Planning or Pre-Design Studies</b>										
88			148th Avenue SE HOV Lane Implementation	Evaluate/implement a new transit/HOV lane on southbound 148th Avenue SE from Lake Hills Boulevard to the third southbound lane south of SE 24th.	3,800			0	3,800	
89			SE 36th Street/142nd Place to 14700 Block Non-motorized Improvements	Widen SE 36th Street to accommodate 5' bicycle lanes.	1,790			0	1,790	Significantly implemented by Overlay Program
90			Lakemont Boulevard Implementation - Cougar Mountain Way to south city limit (phase 3)	Between Cougar Mtn. Way and Forest Drive, construct sidewalk and bike lanes on both sides, planters and center median or refuge lane where feasible; between Forest Drive and south city limit, add bike lane on the east side of roadway and meandering sidewalk through recently annexed City property on east side of roadway.	1,400			0	1,400	
91			NE 24th Street - 171st Avenue NE to 172nd Avenue NE	Maintenance project to address settlement of shoulder, curbing and sidewalk at road edge. Broken stream culvert will be addressed, in coordination with Utilities, as part of this project.	340			0	340	Maintenance work queued up in CIP-M-19
92			NE 24th Street Non-motorized Improvements	West segment, Northup Way to the SR-520 Trail, includes constructing a 10 foot multi-purpose path and a planting strip buffer along the south edge of the road. (East segment completed in 2007).	1,600			0	1,600	

**Attachment 1: City of Bellevue 2011-2016 Transportation Improvement Program with proposed revisions for 2012-2017 Update**

					2011-2016 Project Funding Categories (\$000)					
					Secured 2011-2016 Funding					
TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	Unsecured Funding	Local* Funding	Other** Funding	Total Funding	Total Cost	Status Update
93			Reconfigure SE 35th Place Tunnel at I-90	Widen sidewalk through the tunnel to become an 8-9' wide multi-purpose trail with a crash barrier separating the trail from the roadway. Install improved lighting along the length of the tunnel.	720			0	720	
94			112th Avenue SE/SE 4th Street	Add a northbound left turn lane.	2,600			0	2,600	
95			131st Avenue SE/132nd Avenue SE between SE 36th Street and SE 38th Street	Realign 131st Ave SE/132nd Ave SE to form a vehicular and pedestrian connection between SE 36th St and SE 38th St.	380			0	380	
96			Pedestrian and Bicycle Transportation Plan Implementation	The 2009 Pedestrian and Bicycle Transportation Plan update provides a long term vision for completion of pedestrian and bicycle systems throughout the city. As funding is secured, this project would fund the pre-design, design, property acquisition, construction, and other activities to advance the Plan's identified high priority needs. Improvements may include sidewalks, pathways, trails, bicycle lanes or other bicycle facilities, and wayfinding systems.	10,000			0	10,000	
97			148th Avenue NE Master Plan (phase I)	The 148th Avenue NE Master Plan would be implemented in collaboration with the City of Redmond. Phase I components of the Master Plan include the following: -Implement a portion of the northbound through lane on 148th Avenue NE between the NE 22nd Street signal and the SR 520 eastbound on-ramp using the existing right turn lanes; -Widen 148th Avenue NE between NE 22nd Street and NE 24th Street to maintain the designated northbound right turn lane; -Modify the SR 520 eastbound on-ramp to allow for an HOV by-pass from the northbound through lane; -Add second eastbound and westbound left-turn lanes at NE 24th Street and NE 20th Street; and -Extend the NE 24th Street westbound right turn lane at 148th Avenue NE.	10,000			0	10,000	Project partially funded in 2011-17 CIP Plan (R-167)
			Early Implementation of the Eastgate Subarea Plan/I-90 Land Use & Transportation Project	The new Eastgate Subarea Plan will provide a long-term land use vision for the area that may require significant investment in transportation infrastructure and other city facilities. Additional funding (Unsecured) may be dedicated to early implementation activities and will fully or partially fund follow-up planning work, conceptual design studies, property acquisition and other activities to advance the plan's key recommendations. Significant additional funding (Unsecured) may also be necessary to fully fund the implementation of transportation infrastructure improvements including new roadway connections, existing roadway operational and capacity enhancements, numerous intersection improvements, and new or enhanced facilities for pedestrians and cyclists.	1,000			0	1,000	
<b>Section IV:</b>					<b>Regional or Outside Agency-Led Projects in which the City May Choose to Participate Financially</b>					
98			I-405 Corridor Program Implementation	Consider if and how the City will participate with state and regional partners in the development and implementation of the I-405 Corridor Program and its components or connections to the local transportation system north and south of downtown Bellevue (generally, South of NE 2nd Street and North of NE 10th Street, including interchange modifications at I-90 and SR 520). Project funds, as secured, may be used to conduct focused planning, design, and ROW needs studies, prepare final designs, acquire ROW, and for construction.	10,000			0	10,000	
99			I-405: Downtown Bellevue Improvements	Consider if and how the City will participate with state and regional partners in the development and implementation of I-405 Corridor Program components or connections to downtown Bellevue to meet future travel demand and related economic development demands. Improvements may include and are not limited to completion of NE 10th St. ramps to and from SR 520; improvements related to the general purpose capacity of the I-405 mainline through downtown Bellevue; improvements related to the proposed NE 2nd St. half interchange; improvements related to the extension of the NE 6th St. HOV direct access ramp eastward to 120th Ave NE; and improvements related to the implementation of HOT (high occupant and toll) lanes.	15,000			0	15,000	

**Attachment 1: City of Bellevue 2011-2016 Transportation Improvement Program with proposed revisions for 2012-2017 Update**

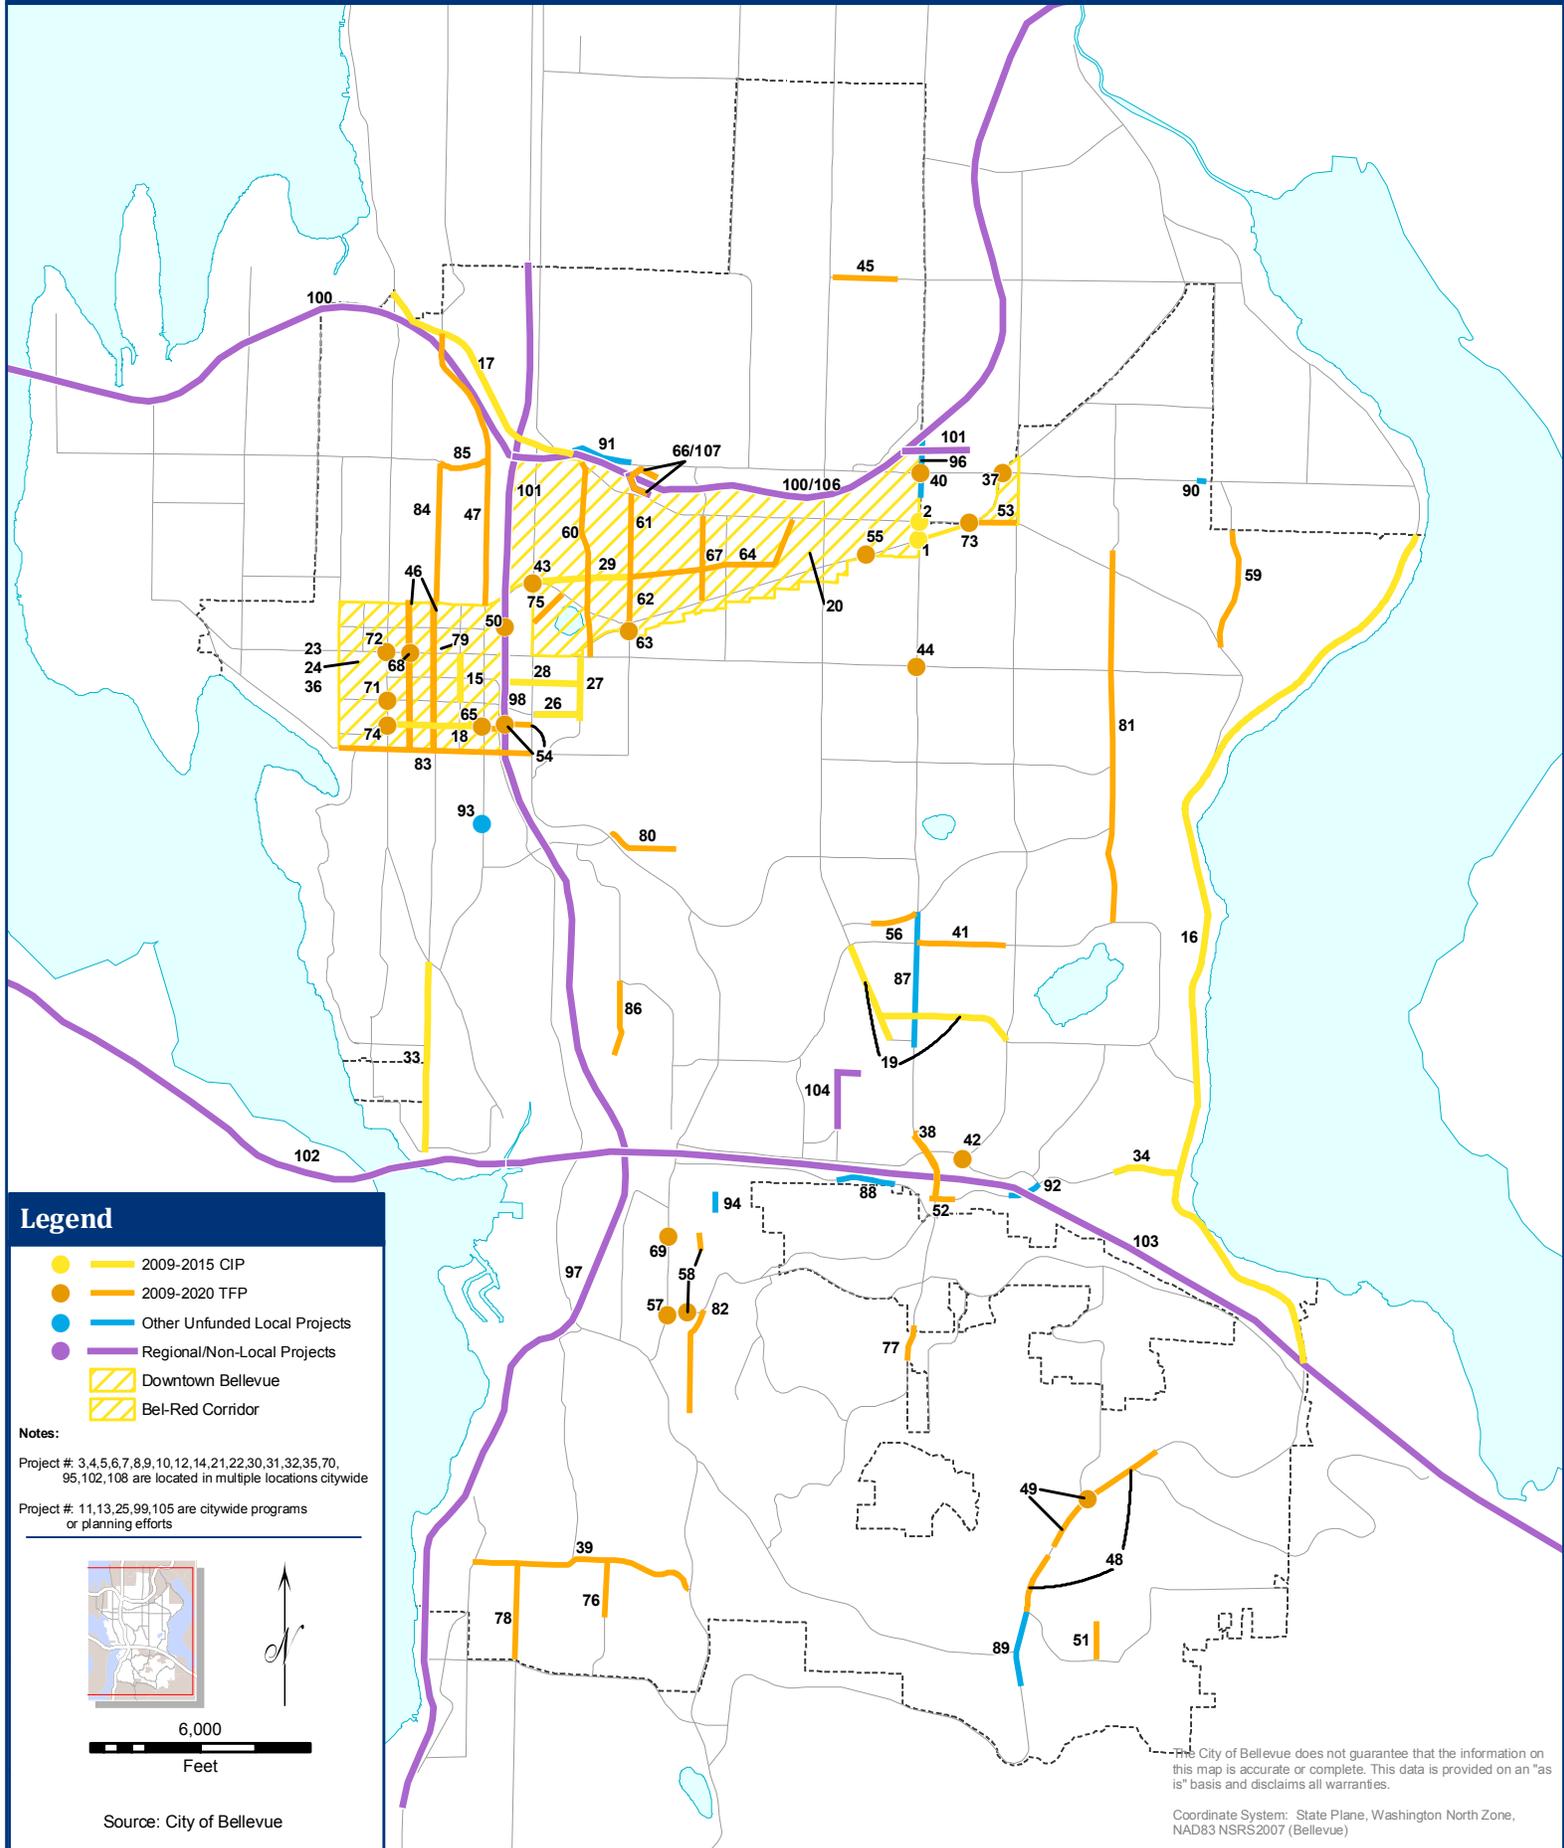

TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	2011-2016 Project Funding Categories (\$000)					Status Update
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding	Total Cost	
100			I-405 Bus Rapid Transit Implementation	Consider if and how the City will participate with regional partners in the development and implementation of a Bus Rapid Transit system along the I-405 corridor. Project funds, as secured, may be used to conduct planning, design or ROW needs studies, to prepare final designs, to acquire ROW and to complete construction. The project will evaluate/implement system components including mainline improvements, direct access ramps and park and ride development or expansion.	5,000			0	5,000	
101			SR 520 Medina to SR 202 Transit and HOV Project	Consider if and how the City will participate with state and regional partners in the development and implementation of the SR 520 Project and its components or connections to the local transportation system. Project funds, as secured, may be used to conduct focused planning, design and ROW needs studies, to prepare final designs, to acquire ROW and to complete construction. The project will evaluate/implement SR 520/Translake Project components including mainline widening; added/improved interchanges at Bellevue Way, 108th Avenue NE, I-405, 124th Avenue NE; an added HOV lane on 112th Ave NE between NE 12th Street and the 108th Ave NE interchange at SR 520; arterial/intersection improvements to 108th/112th Avenue NE, and the entrance to the South Kirkland Park & Ride.	15,000			0	15,000	
102			SR 520 Eastbound Off Ramp to 152nd Avenue NE	Consider if and how the City will participate with state and regional partners in the development and construction of a new slip ramp from eastbound SR 520 under 148th Avenue NE to 152nd Avenue NE.	1,000			0	1,000	
103			I-90 HOV System Implementation	Consider if and how the City will participate with state and regional partners in the development and implementation of improvements to the I-90 HOV System and its components or connections to the local transportation system. Project funds, as secured, may be used to conduct focused planning, design and ROW needs studies, to prepare final designs, or to acquire ROW and for construction. The project will evaluate/implement improvements such as the two-way transit and HOV operations project; and added/improved access to/from I-405 and/or Bellevue Way SE.	5,000			0	5,000	
104			I-90 Corridor Study	Consider if and how the City will participate with state and regional partners to implement I-90 corridor study recommendations between I-405 and points east as far as North Bend environs.	2,000			0	2,000	
105			BCC Campus Transit Improvement / Snoqualmie River Road Reconstruction	Consider if and how the City will participate with Bellevue Community College and King County Metro Transit to widen and reconstruct this north-south street along the western edge of the BCC campus from 142nd Place SE to Kelsey Creek Road (adjacent to the ballfields). The improvements would allow bus routes to be moved to this roadway, which would conveniently serve pedestrian access to the core of the campus but without the severe conflicts with heavy vehicular and pedestrian volumes on the existing route (Kelsey Creek and Tyee River Roads). Transit routes would enable a direct connection from the Eastgate Park and Ride lot on the south, through the BCC campus and connecting with 145 Place SE and 148th Avenue. Improvements would include creation of new bus stops, passenger shelters and associated rider amenities, and continuous sidewalks connecting to the campus circulation system.	1,500			0	1,500	
106			Transit Service and Facilities Enhancements	Consider if and how the City will participate with transit providers in the development and implementation of transit service and facilities improvements throughout the City. Project funds, as secured, may be used to conduct focused planning, design and ROW needs studies, to prepare final designs, or to acquire ROW and for construction. The project will evaluate/implement transit service, opportunities for future transit-oriented development projects and facilities enhancements including bus stop amenities, bus pull-outs, neighborhood transit centers, bus layover locations and transit signal priority systems on key transit corridors.	10,000			0	10,000	
107			SR 520, I-405 to West Lake Sammamish Parkway	Consider if and how the City will participate with state and regional partners in the development and implementation of a SR 520 corridor study between I-405 and West Lake Sammamish Parkway. The study will evaluate near and long term solutions to general purpose and high occupant vehicle mobility issues. The study will evaluate auxiliary lanes between I-405 and 148th Ave NE, and other improvements necessary to support Bel-Red Corridor, Overlake, and general corridor growth.	10,000			0	10,000

					2011-2016 Project Funding Categories (\$000)					
					Secured 2011-2016 Funding					
TIP Ref.No.	CIP #	TFP #	Project Name	Project Description	Unsecured Funding	Local* Funding	Other** Funding	Total Funding	Total Cost	Status Update
108			124th Ave NE/SR 520 interchange completion	Consider if and how the City will participate with regional and state partners in the development and implementation of SR 520 on and off ramps to and from the east at 124th Avenue NE to meet future travel demands generated by the redevelopment in the Bel-Red corridor vicinity. The interchange completion is conceptualized to be compatible with planned and potential improvements to the SR 520 corridor east of I-405, including the State-funded I-405 Northbound NE 8th Street to SR 520 Braided Ramp project that modifies eastbound SR 520 to the vicinity of 130th Ave NE.	10,000			0	10,000	
109			East Link Light Rail Transit	Consider if and how the City will participate with regional partners in the development and implementation of the East Link light rail transit project. Project funds, as secured, may be used to conduct focused planning and alternatives analyses, design, property acquisition, and construction of improvements or other community enhancements. City efforts may include additional analysis of project needs and alternatives related to stations and alignment options. City efforts may also seek to enhance the investments of regional partners.	50,000			0	50,000	
TOTALS:					879,216	101,921	15,321	117,170	996,386	

\* Local Funding includes secured revenue from other local agencies and private entities (City of Redmond, King County, Puget Sound Energy, etc.)

# 2011-2016 Transportation Improvement Program Projects

## Legend

- 2009-2015 CIP
- 2009-2020 TFP
- Other Unfunded Local Projects
- Regional/Non-Local Projects
- Downtown Bellevue
- Bel-Red Corridor

### Notes:

Project #: 3,4,5,6,7,8,9,10,12,14,21,22,30,31,32,35,70,95,102,108 are located in multiple locations citywide

Project #: 11,13,25,99,105 are citywide programs or planning efforts
