

MEMORANDUM

DATE: April 20, 2009

TO: Transportation Commission

FROM: Drew Redman, Associate Planner
Transportation Department
425-452-2851, dredman@bellevuewa.gov

SUBJECT: 2010-2015 Transportation Improvement Program

Purpose

At the April 23 Commission meeting, staff will present an overview of the current project status of the 2009-2014 Transportation Improvement Program (TIP), proposed updates to the 2010-2015 TIP, and the correlation of the TIP to the transportation planning and financial programming process.

Background

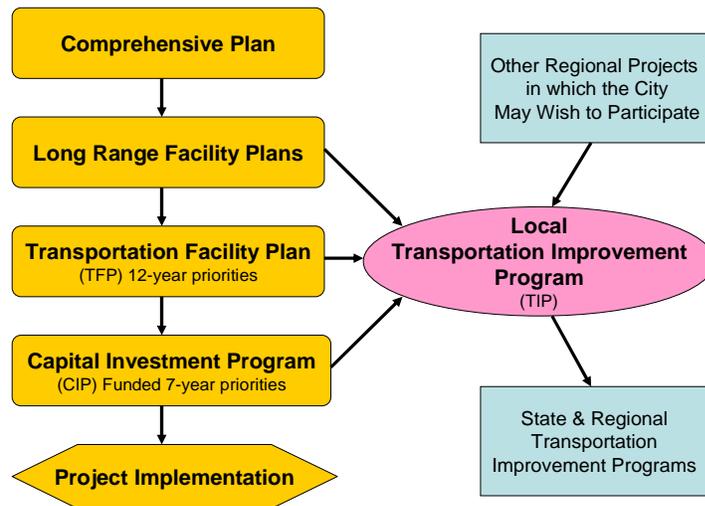

State law (RCW 35.77.010) requires all local jurisdictions to annually adopt a six-year program of transportation improvements, known as the Local TIP, by the end of June each year. On May 8, 2008, the Transportation Commission hosted a public hearing and recommended adoption of the current 2009-2014 Local TIP. On June 2, 2008, City Council adopted the current TIP (Resolution No. 7748).

The six-year Local TIP serves as a rough work plan for the development of local transportation systems and, as such, represents an important planning component under the State's Growth Management Act. The Washington State Department of Transportation (WSDOT) and Puget Sound Regional Council (PSRC) use Local TIPs as a tool for coordinating the transportation programs of local jurisdictions with those of regional agencies. PSRC also monitors Local TIPs for projects of regional significance (to be modeled for Air Quality conformity) and projects supported by federal funds. These projects are incorporated into the Regional TIP, which is then forwarded for inclusion in the State TIP.

For the City of Bellevue, the primary importance of the Local TIP is that, in most instances, projects must be included on a Local TIP to be eligible for state and federal grant programs. Because Local TIPs are not revenue constrained, like Bellevue's CIP and TFP, the City can include projects we would choose to implement within the 6-year timeframe, if the funding were available. Local TIPs then, by definition, represent a more comprehensive listing of projects deemed necessary to ensure the safe and efficient operation of the City's transportation system.

Figure 1 illustrates the relationship between the TIP, the Capital Investment Program, and the Transportation Facilities Plan.

Figure 1

Proposed City of Bellevue 2010-2015 TIP

Attached to this memo is an update of the existing 2009-2014 TIP project list and proposed additions that will comprise the City of Bellevue 2010-2015 TIP. All projects listed fall within one of four color-coded categories, or sections, as described below:

- Section I** Uncompleted CIP Projects (Included in the Adopted 2009-2015 Capital Investment Program Plan – Full or partial funding secured)
- Section II** TFP Projects (Unfunded projects included in the Adopted 2009-2020 Transportation Facilities Plan)
- Section III** Other unfunded local projects identified or scoped by completed Alternative Analyses and Planning or Pre-design Studies (may be considered for inclusion in the 2011-2022 TFP Update)
- Section IV** Regional or Outside Agency-led projects in which the City may choose to participate financially

For comparison purposes, the attached draft TIP indicates both new projects proposed to be added to the 2010-2015 TIP and projects proposed to be deleted from the current 2009-2014 TIP. Projects proposed to be added to or deleted from the current 2009-2014 TIP list can be identified by the following two colors on the attachment:

- New** New projects proposed to be added to the 2010-2015 TIP or existing projects moved from a different section.

There are 16 new projects proposed to be added to the current 2009-2014 TIP:

- Sixteen new projects are proposed additions associated with the adopted 2009-2020 TFP.

- Thirteen projects are shaded green, indicating they are new to Section II, transferred from Section III after being adopted in the 2009-2020 TFP

Green italicized text indicates substantive changes to existing TIP information.

Delete Projects included in the current 2009-2014 TIP that are proposed to be removed due to their completion or recommended deletion, or transferred to a different section.

There are 24 projects proposed either to be removed altogether from the current 2009-2014 TIP, or transferred to a different section:

- Two are CIP projects (Section I) that have been completed, are projected to be completed by the end of 2009 or require no further action at this time
- Nine projects in Section II were deleted, as they were not carried forward from the 2006-2017 TFP to the 2009-2020 TFP
- Thirteen projects were transferred from Section III to Section II, after being adopted in the 2009-2020 TFP. Red underlined text indicates to which TIP section the project was moved.

The project costs listed in the “Project Funding Categories” columns of the attachment represent, in most cases, the actual level of funding budgeted or estimated to be needed by the City during the six-year timeframe of the Local TIP. Because the Local TIP is not revenue constrained, project costs are given one of two designations:

1. Secured Funding. Projects with secured funding have local or other sources of funding allocated to support full or partial project implementation.
2. Unsecured Funding. This designation reflects the portion of project costs that have no dedicated source of funding. Projects with unsecured funding at any level are included on the list for planning purposes should funding become available within the six-year timeframe.

Next Steps

Proposed TIP Update Timeline

- April 23, 2009 – Commission introduction/discussion of preliminary draft of Proposed 2010-2015 TIP and status of 2009-2014 TIP.
- May 14, 2009
 - Commission hosts a Public Hearing on the content of the Proposed 2010-2015 TIP.
 - Commission considers public testimony, potentially amends the Proposed 2010-2015 TIP, and recommends a TIP for City Council consideration.
- June, 2009 – City Council reviews and adopts of the Proposed 2010-2015 TIP.
- June/July, 2009 – Formatting and submittal of the adopted 2010-2015 TIP to PSRC and WSDOT.

Attachments

1. Status and Proposed updates to the current City of Bellevue 2009-2014 Transportation Improvement Program
2. 2009-2014 Transportation Improvement Program Map
3. 2009-2020 Transportation Facilities Plan Map

Attachment 1 – Proposed changes to 2009-2014 Transportation Improvement Program

Projects listed in the 2009-2014 TIP are divided into four categories represented by the following colors.

- Section I Projects Included in the Adopted 2007-2013 Capital Investment Program (CIP) Plan - Full or Partial Funding Secured
- Section II Unfunded Projects included in the Adopted 2006-2017 Transportation Facilities Plan (TFP)
- Section III Other unfunded local projects identified or scoped by completed Alternative Analyses and Planning or Pre-design Studies
- Section IV Other regional or outside agency-led projects in which the City may choose to participate financially

Projects proposed to be added to and deleted from the current 2009-2014 TIP can be identified by the following two colors.

- New New projects proposed to be added to the 2010-2015 TIP.
- Delete Projects included in the current 2009-2014 TIP that are proposed to be removed in the TIP update due to their completion or proposed deletion.

TIP Ref. No.	CIP #	TFP #	Project Name	Project Description	2010-2015 Project Funding Categories (\$000)					Status
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding	Total Cost	
Section I: Uncompleted Projects Included in the Adopted 2009-2015 Capital Investment Program (CIP) Plan - Full or Partial Funding Secured										
1	I-76	TFP-094	148th Avenue NE/Bel-Red Road Intersection Improvements	Add an eastbound right-turn lane and a second westbound left-turn lane from Bel-Red Road to 148th Avenue NE. The Bel-Red Corridor Project recommends adding a westbound right-turn lane and a second northbound left-turn lane (funding for these improvements are unsecured).	0	6,977		6,977	6,977	
2	I-78	TFP-101	148th Avenue NE/NE 20th Street Intersection Improvements	Add a second westbound left turn lane from NE 20th Street to southbound 148th Avenue NE and a second left turn lane from eastbound NE 20th Street to northbound 148th Avenue NE. The Bel-Red Corridor Project recommends adding a second northbound left turn lane, a second southbound left turn lane, a separate westbound right turn lane and a separate eastbound right turn lane (funding for these improvements are unsecured).	0	3,778		3,778	3,778	
3	I-84		Signal Warrant/Safety Program	Install or upgrade vehicular traffic signals, pedestrian crosswalk signals, street lights, and other improvements as warranted based on safety and/or capacity concerns.		1,104		1,104	1,104	
4	I-91	TFP-089	124th Avenue NE/Bel-Red Road Intersection Improvements	Widen intersection for second left turn lane westbound, second southbound lane from Bel-Red Road to Old Bel-Red Road and a southbound right turn lane; upgrade signal, curb/gutter/sidewalks on east side of intersection. Scope may be modified in Pre-Design phase. (Secured funding for design report only; unsecured funding for later phases.)	3,000	146		146	3,146	Project deleted from 2009-2015 CIP
5	M-1		Overlay Program	Provide major street maintenance, pavement overlays, and bridge inventory and maintenance and appropriate Americans with Disabilities (ADA) retrofit work.		39,292		39,292	39,292	
6	M-2		Minor Capital - Traffic Operations Program	Provide minor capital improvements including signal and lighting upgrades, channelization and signage upgrades, pedestrian/bicycle signage and channelization, and spot improvements for emergent needs.		2,185		2,185	2,185	
7	M-3		Curb, Gutter, and Sidewalk Rehabilitation Program	Reconstruct curb, gutter, and/or sidewalk sections where failing.		2,236		2,236	2,236	
8	M-7		Neighborhood Traffic Calming Program	Install physical measures designed to reduce vehicle speeds and non-local traffic and to improve nonmotorized safety in neighborhoods.		5,962		5,962	5,962	
9	M-8		Minor Capital Programs - Streets	Funds individual street repair projects in excess of \$5,000 such as handrail/guardrail replacement, pavement repair, and storm damage mitigation.		429		429	429	
10	M-12		Citywide Rockeries Reconstruction Program	Maintain, repair, or replace rockeries as needed.		1,408		1,408	1,408	
11	M-19		Major Maintenance Program	Provide necessary capital resources to address a wide range of maintenance related needs that exceed the financial capacity of the Streets Maintenance and Traffic Operations operating budgets and smaller minor capital programs but are too small for stand alone projects		2,981		2,981	2,981	
12	R-44		Transportation Planning Studies Program	Provide consultant and in-house capabilities to carry out activities associated with the planning and pre-design of possible CIP projects. Project funding may be used to leverage additional, non-local funding.		757		757	757	
13	R-46		Major Safety Improvements Program	Construct roadway safety-related capital improvements citywide as identified through deficiency analysis and community input. Project funding may be used to leverage additional, non-local funding.		732		732	732	
14	R-87		Transportation Demand Management Program	This project provides continuing resources for Transportation Demand Management (TDM) implementation. TDM activities and techniques include: Development and implementation of education/marketing programs for employers and employees, improving access to and the appeal of alternative transportation modes for users and potential users, and participation in trip reduction activities associated with the Bel-Red Overlay Transportation (BROT) Plan. Performance goals for TDM are specified in the mobility targets for Mode Split in the Comprehensive Plan. This project may fund both consultant and improved in-house capabilities in support of TDM efforts.	600	735		735	1,335	Includes 2009-2015 Supplemental CIP funding
15	R-122	TFP-039	130th Avenue NE Roadway Improvements	Construct a two-way left turn lane on 130th Avenue NE from Bel-Red Road to NE 20th Street; provide wide curb lanes for bikes, curb, gutter and sidewalks on both sides. Scope may be modified in Pre-Design phase and see TIP Ref. No. 90 for alternate scope. (Secured funding for design report only; unsecured funding for implementation).	3,190	178		178	3,368	Project deleted from 2009-2015 CIP

TIP Ref. No.	CIP #	TFP #	Project Name	Project Description	2010-2015 Project Funding Categories (\$000')					Status
					Secured 2010-2015 Funding				Total Cost	
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding		
16	R-130		High Capacity Transit Study	The High Capacity Transit (HCT) Study will include an analysis of Light Rail Best Practices, alternative routing, station locations, and technologies for serving Bellevue with high capacity transit. The Light Rail Best Practices effort will support an investigation, led by a Committee of City Commissioners, of the experiences of other North American metropolitan areas who have developed light rail systems to understand methods and techniques that will inform the eventual implementation of light rail in Bellevue. The Committee will apply this investigation and analysis to develop light rail policy recommendations for subsequent community and City Council consideration. The remaining project components will focus initially on route and station locations in Downtown Bellevue with additional study to identify candidate HCT markets citywide. The work will be coordinated with both local and regional studies. The scope and budget for this and subsequent years of the study will be developed with Sound Transit along with an interlocal agreement.	2,000	0		0	2,000	
17	R-133	TFP-091 <i>TFP-106</i>	Northup Way Roadway Improvements	This project will add an additional lane along eastbound Northup Way between 120th Avenue NE and 124th Avenue NE, a northbound right-turn lane from 124th Avenue NE to Northup Way, and widen to provide a second eastbound left-turn lane from Northup Way to the SR-520 ramp. This project will also include completing portions of curb/gutter/sidewalk where missing, illumination, traffic signal modification, storm drainage and detention, landscaping and irrigation. This project will be closely coordinated with the Washington State Department of Transportation's I-405/SR-520 north braid project.	6,772	700		700	7,472	Project under construction; projected completion early 2010
18	R-136		Traffic Safety Technologies Program	Provide innovative technologies for addressing traffic safety in Bellevue.		486		486	486	
19	R-139	TFP-110	110th Avenue NE Roadway Improvements	This project will provide for design and construction of widening 110th Avenue NE from four lanes at NE 4th Street to five lanes at NE 6th Street, and design only for a five-lane section from NE 6th Street to NE 8th Street. Also included (design only between NE 6th and NE 8th Streets) will be curb/gutter/sidewalk, illumination, storm drainage, detention if necessary, signal modifications at NE 4th, 6th and 8th Streets. This project will be closely coordinated with planned, potential or permitted private development along the corridor.		315		315	315	Remaining implementation deferred
20	R-141	TFP-078	West Lake Sammamish Parkway/north City limit to I-90	The project will provide a consistent 4' shoulder on the east side, a 10.5' northbound vehicle travel lane, a 10' southbound vehicle travel lane, a 10' wide multi-purpose trail (8' wide in approximately 2% of the corridor due to constricted space) on the west side separated by a 1.5' shy distance space and a 2' or 5' wide landscaped buffer where space is available, a signal at SE 34th Street, pedestrian crossings at SE 26th Street, Northup Way, NE 24th Street and at 5 other locations along the parkway. The project will also make storm drainage, water quality and fish passage improvements throughout the corridor. Options for undergrounding existing overhead utilities and various project implementation phasing scenarios will be evaluated during the initial design process.	30,000	4,252		4,252	34,252	Includes 2009-2015 Supplemental CIP funding
21	R-146	TFP-079	Northup Way Corridor Improvements	This investment entails only secured funding for complete and/or phased implementation of the improvements identified by a 1996 corridor study, including sidewalks and bike lanes on both sides and a two-way center turn lane east of NE 33rd Place. The secured funding may also be used to fund interim safety improvements identified by the design report to improve conditions for vehicles, pedestrians, bicyclists, and transit riders until the ultimate improvements can be implemented. A 2007 Design Report process will refine the project scope and implementation phasing options for the unsecured funding portion of this project.	14,000	1,000		1,000	15,000	
22	R-147		Early Implementation of Downtown Plan	The Downtown Implementation Plan (<i>DIP</i>) was completed in 2003 and contains transportation, parks, urban design, and fire & life safety implementation measures spread over the next 20 years to be implemented by 2020 to further downtown Bellevue's evolution as an urban center. Early work will ensure that new public and private development is consistent with plan direction. The funding in this project will be used to conduct early design studies for potential projects such as one-way couplet on 106th & 108th (TIP No. 172), mid-block pedestrian crossings, a "great streets" study and a downtown wayfinding system. Early design studies will lead to direct implementation or refinement of concepts that can be implemented incrementally over time through separate actions. <i>Enhanced funding will also fund work to extend the DIP analysis to 2030 to be consistent with other recent planning efforts.</i>		350		350	350	
23	R-150	TFP-190	NE 2nd Street Roadway Enhancement Project	A pre-design process initiated in 2005 will refine the project scope and implementation phasing options. Secured funding entails only placeholder funding for complete and/or phased implementation of the NE 2nd Street roadway and park improvements identified by the Downtown Implementation Plan (2003). This includes widening to five lanes from Bellevue Way to 112th Avenue NE and connection to the planned half diamond interchange between NE 2nd Street and I-405. Private developer contributions or frontage improvement implementation, or additional local funding commitments, will be necessary to implement the remainder of the corridor improvements. This project will be closely coordinated with potential private development along the corridor.	34,546	4,300		4,300	38,846	Includes 2009-2015 Supplemental CIP funding

TIP Ref. No.	CIP #	TFP #	Project Name	Project Description	2010-2015 Project Funding Categories (\$000)					Status
					Unsecured Funding	Local* Funding	Other** Funding	Secured 2010-2015 Funding		
								Total Funding	Total Cost	
24	R-151	TFP-160	145th Place SE/SE 16th Street to SE 24th Street AND SE 22nd Street/145th Place to 156th Avenue SE	This project will add five foot bike lanes, curb, gutter and six foot sidewalk along both sides, a two-way center left-turn lane where needed, planted median islands and other landscaping where feasible on 145th Place SE from SE 16th Street (Kamber Road) to SE 24th Street. The project will modify the 145th Place SE/SE 24th Street intersection. This project will also provide curb, gutter and six foot sidewalks where missing along the north side of SE 22nd Street from 145th Place SE to 156th Avenue SE. Other improvements include storm water drainage, detention and water quality treatment improvements, signing, striping, illumination enhancements, and irrigation. Undergrounding of overhead utilities and noise barriers are not included in this scope of work.	0	3,259		3,259	3,259	
25	R-152	TFP-184	NE 8th Street Roadway Widening	This project will add a third westbound lane on NE 8th Street becoming right turn lane at 106th Avenue NE; no widening west of 106th Avenue NE. Sidewalks will be reconstructed adjacent to the new lane. This project will function in support of the planned 106th/108th Avenue one-way couplet.	0	989		989	989	
26	R-153		Early Implementation of the Bel-Red Corridor Plan	The new Bel-Red Corridor Plan will provide a long-term land use vision for the area that will likely be of higher density than under the current plan, and therefore will require significant investment in transportation infrastructure and other city facilities. Secured funding is dedicated to early implementation activities and will fully or partially fund follow-up planning work, conceptual design studies, property acquisition and other activities to advance the plan's key recommendations. Significant additional funding (Unsecured) will be necessary to fully fund the implementation of transportation infrastructure improvements including new roadway connections, existing roadway operational and capacity enhancements, numerous intersection improvements, and new or enhanced facilities for pedestrians and cyclists.	5,000	521		521	5,521	
27	R-155		Traffic Computer System Upgrade	Replace the existing traffic computer system software and hardware, and upgrade the field communications systems connecting the computer with remote traffic control equipment citywide.		1,782		1,782	1,782	Includes 2009-2015 Supplemental CIP funding
28	R-156		ITS Master Plan Implementation Program	Systematically implement the recommendations of the City's Intelligent Transportation System (ITS) Master Plan completed in 2005. ITS projects will be selected to provide cost effective measures to reduce traffic congestion and increase the availability of real time traffic information to users of the transportation system.		1,600		1,600	1,600	
29	R-157		Transit Now/Downtown Circulator	A downtown circulator to serve downtown residents, employees, and visitors. Phase one, service planning (funded in 2007) included evaluating spans of service and service frequency, evaluating demand and forecasting ridership, and estimating operating costs. Phase two covers an estimated five years of implementation, a joint effort with King County Metro, utilizing partnership funding created by the 2006 Transit Now initiative. The City may choose to participate financially in the acquisition of circulator vehicles, specifically low emission.	4,000	952		952	4,952	
30	R-158		Downtown Great Streets	This project will design and construct urban design elements to soften and "green" streets (NE 4th Street, NE 8th Street, 106th Avenue NE, 108th Avenue NE and Bellevue Way corridors) throughout downtown to enhance the pedestrian environment. A Great Streets manual provides a toolkit of treatments that can also be applied to other streets within the downtown. Areas will be identified that will most benefit from enhancements to make them more pedestrian friendly and aesthetically pleasing. Selected locations will remove/replace hardscaping and replace with landscaping (planted areas, raised planters, additional street trees) or other features (surfacing treatments, pedestrian scale lighting, street furniture). Private developer frontage improvement installation or funding contributions, or additional public funding commitments, will be necessary to implement the remainder of the Great Streets improvements. This project will be closely coordinated with planned and potential future private development within the downtown area.		3,800		3,800	3,800	
31	WB-49		Wheelchair Ramps Program	Inventory, identify needs, prioritize, and construct wheelchair ramps citywide.		372		372	372	
32	WB-53		Transportation Trail Maintenance Program	Funds routine cleaning and occasionally major repairs to surfaces, fences, directional signage and control of adjacent vegetation on City transportation trails.		635		635	635	
33	WB-56		Pedestrian Access Improvements Program	Funds minor construction of small pedestrian and bicycle improvements that enhance mobility and access between neighborhoods, employment, schools, parks, transit and shopping. Individual projects are typically short segments of sidewalk, bike racks, off-street trails, and signage, and are implemented in coordination with schools, neighborhoods and businesses. The program may leverage grant funds, and in partnership with other City programs, may be used to construct larger-scale projects.		2,978		2,978	2,978	
34	WB-71	TFP-159	108th Avenue SE/Bellevue Way to I-90	Construct bike lanes on both sides and sidewalk on one side where missing, the side to be determined in the initial design process which will include community outreach/involvement facilitation. Implementation of the project will be coordinated with PW-M-1: Overlay Program to rehabilitate or replace the concrete surface.	0	6,530		6,530	6,530	
35	WB-72	TFP-156	SE 60th Street Non-motorized Improvements	Construct bike lanes and sidewalks on both sides where missing; sidewalk on one side between Coal Creek Parkway and 129th Avenue SE.(Phase 1 is currently funded)	0	252		252	252	

TIP Ref. No.	CIP #	TFP #	Project Name	Project Description	2010-2015 Project Funding Categories (\$000)					Status
					Secured 2010-2015 Funding				Total Cost	
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding		
36	WB-73	TFP-191	NE 8th Street/Lake Washington Blvd to 96th Avenue NE	Design and construct curb, gutter, five foot sidewalk and three foot planter strip where missing on the north side. Include bus pads and an updated signal system at the NE 8th Street/92nd Avenue NE intersection.	0	158	200	358	358	
37	WB-74	TFP-163	152nd Ave SE/SE 45th Street/150th Ave SE Roadway Improvements	Design and construct curb, gutter and six foot sidewalk on west side with necessary roadway stabilization maintenance. Evaluate feasibility of wide curb lane for bikes on uphill segment. The facilities implemented by this project will provide direct access to the Eastgate Elementary School from neighborhoods to the south.	0	3,958		3,958	3,958	
38	WB-75	TFP-175	SE 34th Street Non-motorized Improvements	Design and construct a five foot bike lane, curb, gutter and six foot sidewalk on north side and curb, gutter and a wide curb lane on the south side of SE 34th Street.	0	4,250		4,250	4,250	
39	WB-76	TFP-170 TFP-178 TFP-236 TFP-239	Neighborhood Sidewalks Program	This program funds the pre-design, design and construction of sidewalk projects in neighborhoods throughout the city. Neighborhood sidewalks are pedestrian facilities connecting neighborhood residents to neighborhood destinations including housing, parks, schools, shopping and services, employment, and the transit and school bus systems. Individual projects are selected in part based on strong and sustained community support demonstrated through other programs such as the Neighborhood Enhancement Program (CIP Plan No. NEP-1). Project costs, typically in the range between \$500,000 and \$1,500,000, exceed the financial capacity of ongoing minor capital programs like NEP or Pedestrian Access Improvements (CIP Plan No. PW-W/B-56), but the projects often do not compete well for stand-alone CIP project funding.	15,000	0		0	15,000	Includes 2009-2015 Supplemental CIP funding
40	WB-77		Downtown Mid-Block Crossings	This project will identify, design, and install signalized mid-block pedestrian crossings at select locations Downtown. Project locations will be determined in coordination with Traffic Operations staff and the downtown community. The installation of signalized mid-block pedestrian crossings at key locations will help to create a network of pedestrian routes which will break-down the scale of downtown superblocks and reinforce the importance of the pedestrian in the urban environment. This project will consider location, geometric design elements, weather protection, lighting, aesthetic treatments, and traffic progression and delay.		1,175		1,175	1,175	

TIP Ref. No.	CIP #	TFP #	Project Name	Project Description	2010-2015 Project Funding Categories (\$000)					Status
					Unsecured Funding	Secured 2010-2015 Funding			Total Cost	
						Local* Funding	Other** Funding	Total Funding		
Section II: Unfunded Projects included in the Adopted 2009-2020 Transportation Facilities Plan (TFP)										
41		TFP-102	Bel-Red Road/NE 24th Street Intersection Improvements	Add southbound right turn and northbound left turn lanes. <i>Scope and cost may be modified based on ongoing analysis and coordination with City of Redmond associated with development of a BROTS successor agreement.</i>	2,290			0	2,290	
42		TFP-154	148th/150th Avenue SE Roadway Improvements	Widen by extending the third southbound lane on 148th Avenue SE from the on-ramp to westbound I-90 to south of Eastgate Way at the I-90 westbound off ramp. <i>Scope and cost may be modified based on ongoing analysis and coordination with the WSDOT I-90 Corridor Study.</i>	1,900			0	1,900	
43		TFP-076	Eastgate Way Corridor Improvements	Construct missing sections of sidewalk on north side of Eastgate Way between Richards Road and 148th Avenue SE; bicycle lanes both sides and bus rider waiting areas on south side; add turn pockets where necessary.	1,558			0	1,558	Project deleted from 2009-2020 TFP
44		TFP-157	NE 24th Street/148th Avenue NE Intersection Improvements	Lengthen the westbound right turn lane on NE 24th Street and provide second westbound left turn lane; widen NE 24th Street to allow wide curb lanes for cyclists. <i>Scope and cost may be modified based on ongoing analysis and coordination with City of Redmond associated with development of a BROTS successor agreement.</i>	4,170			0	4,170	
45		TFP-158	SE 16th Street/148th Avenue SE to 154th Avenue SE	Construct bike lanes; sidewalk both sides where missing. Add 5 foot bike lanes outside of 11 foot vehicles lanes on both sides of SE 16th Street. Construct new curb, gutter and 6' sidewalk and 4' planter, on north side between 148th and 154th Avenues NE.	3,740			0	3,740	
46		TFP-162	156th Avenue SE/SE Eastgate Way (I-90 westbound off-ramp) Intersection Improvements	Widen the I-90 westbound off-ramp to provide two dedicated left turn lanes and a shared through/right lane with a channelized right turn. <i>Scope and cost may be modified based on ongoing analysis and coordination with the WSDOT I-90 Corridor Study.</i>	780			0	780	
47		TFP-090	116th Avenue NE/NE 12th Street Intersection Improvements	Construct northbound right turn lane, extend eastbound left turn lane. Widen to five lanes north of the existing intersection. Add a second eastbound left turn and northbound right turn at 116th Avenue NE and NE 12th Street. Project implementation will be coordinated with potential future private development in the immediate vicinity. The \$5,000K funding allocation is a magnitude of cost estimate to be used until an engineer's estimate can be developed.	5,000			0	5,000	
48		TFP-165	124th Avenue Bicycle Trail/SE 38th Street to the I-90 Bicycle Trail	Construct 10' wide paved multi-purpose trail to connect 124th Avenue SE at SE 38th Street with the existing Mountains to Sound trailhead at SE 36th Street and Factoria Blvd.	1,213			0	1,213	
49		TFP-168	NE 8th Street/148th Avenue NE Intersection Improvements	Construct 2nd eastbound and westbound left turn lanes on NE 8th Street. All widening would be done to the north side of the roadway.	5,060			0	5,060	
50		TFP-171	NE 40th Street Non-motorized Improvements	Install separated pathway Construct curb, gutter and 6' sidewalk on north side of NE 40th Street from 140th Avenue NE to east of the 14500 block. Wide curb lanes. Planter strip where feasible.	1,800			0	1,800	
51		TFP-172	106th and 108th Avenues One-Way Couplet Conversion	Convert roadways to function as a one-way couplet between Main Street and NE 12th Street. 106th Avenue will function as a northbound one-way street and 108th Avenue will function as a southbound one-way street. 108th will include a single northbound contraflow lane between NE 4th and NE 8th Streets for transit buses only. Sidewalks along 106th Avenue will be widened.	5,870			0	5,870	
52		TFP-173	112th Avenue NE Non-motorized Improvements 108th/112th Avenue NE south of SR 520 to NE 12th Street	Construct bike lanes; sidewalk on west side where missing on 112th Avenue from Northup Way to NE 12th Street. Add 5 foot bike lanes on both sides of 108th/112th Avenue NE from Northup Way to NE 12th Street. Construct a 6 foot-wide sidewalk along the west side of 112th Avenue NE from end of transportation trail south to existing sidewalk 400 ft south of NE 24th Street. Widen for turn pockets at NE 24th Street intersection.	3,730			0	3,730	
53		TFP-095	156th Avenue NE/Bel-Red Road Intersection Improvements	Add southbound right turn lane.	321***			0	321	Project deleted from 2009-2020 TFP
54		TFP-176	148th Avenue NE/SR 520 Channelization Improvements	Streamline/Rechannelize the southbound lanes of 148th Avenue to reduce friction and improve southbound flow.	339			0	339	Project deleted from 2009-2020 TFP
55		TFP-092	156th Avenue NE/Northup Way Intersection Improvements	Construct second northbound and southbound left turn lanes and add a second eastbound through lane to the Unigard access. Includes utility undergrounding.	5,347			0	5,347	Project deleted from 2009-2020 TFP
56		TFP-192	Lakemont Blvd./Cougar Mountain Way to Lewis Creek Park and 164th Avenue SE to 171st Avenue SE (phase 1)	Install signal and turn lanes at Cougar Mtn. Way/Lakemont Blvd. intersection; construct northbound left turn lane on Lakemont Blvd. at SE 62nd Street; construct sidewalk and bike lanes on east side between Cougar Mtn. Way and park; install planted medians where feasible.	2,920			0	2,920	
57		TFP-205	Lakemont Blvd./Lewis Creek Park to 164th Ave SE (phase 2)	Install signal at 164th Ave SE/Lakemont Blvd; construct sidewalk and bike lane on east side; add planted medians where feasible.	1,860			0	1,860	
58		TFP-193	NE 10th at I-405	Add half interchange (ramps) to/from the north. Cost estimate reflects only a potential local contribution to a project that will require substantial funding from outside sources. Project to be coordinated with City/WSDOT project to extend NE 10th Street between 112th and 116th Avenues NE.	500			0	500	

TIP Ref. No.	CIP #	TFP #	Project Name	Project Description	2010-2015 Project Funding Categories (\$000)				Total Cost	Status
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding		
59		TFP-194	164th Ave SE/SE Cougar Mountain Way to SE 63rd Street	Improve gravel road with pavement, curb, gutter and sidewalk on one side. Consider cost sharing with benefiting property owners through the use of a Local Improvement District (LID). Cost estimate represents only a placeholder for implementation.	1,000			0	1,000	
60		TFP-195	150th Avenue SE/SE 37th Street/I-90 off-ramp widening	Widen I-90 off-ramp 300' west of 150th Avenue SE and add right turn lane through lane. Widen SE 37th Street 500' to the east of 150th Avenue SE to allow for a bypass lane on the right side of the street. Scope and cost may be modified based on ongoing analysis and coordination with the WSDOT I-90 Corridor Study.	1,430			0	1,430	
61		TFP-196	NE 20th Street at 156th Avenue NE	Construct an east to west U-turn on NE 20th Street at 156th Avenue NE with access management along NE 20th Street.	820			0	820	
62		TFP-197	NE 2nd Extension and I-405 interchange	Extend NE 2nd Street across I-405 from 112th Avenue NE to 116th Avenue NE. Add half interchange with I-405, to/from the south. Cost estimate reflects only a potential local contribution to a project that will require substantial funding from outside sources.	500			0	500	
63		TFP-198	Bel-Red Road and NE 20th Place	Install signal, eastbound left turn pocket and pedestrian crossing.	1,960			0	1,960	
64		TFP-199	Lake Hills Boulevard - 148th Avenue SE west to 143rd Avenue SE	Construct new curb, gutter and six-foot sidewalk behind four-foot planter strip on both sides of the street while preserving the existing on-street bicycle facilities. Remove remaining European White Birch trees in poor health and reconstruct the wood fence as necessary.	1,980			0	1,980	
65		TFP-200	124th Avenue SE north of SE 41st Place to connect with the I-90 Trail.	Complete bike lanes on 124th Avenue SE north of SE 41st Place to the proposed multi-purpose path that will connect to the I-90 Trail.	2,000			0	2,000	Project deleted from 2009-2020 TFP
66		TFP-201	SE 36th Street/Factoria Blvd/I-90 Trail intersection	Improve SE 36th Street/Factoria Boulevard/I-90 Trail intersection for pedestrian and bicyclist safety, convenience and connectivity. Analyze key problem areas and consider a combination of design features to address those problems, including: changing curb radii, installing special paving/stripping, improving signage or adjusting signal timing.	100			0	100	Project deleted from 2009-2020 TFP
67		TFP-202	SE 36th Street east of Factoria Blvd to 142nd Avenue SE	Widen SE 36th Street for bicycles. This road is part of the I-90 Trail and the Mountains to Sound Greenway route. Improve bus stops on north side.	1,355			0	1,355	Project deleted from 2009-2020 TFP
68		TFP-203	156th Avenue SE/NE 8th to Lake Hills Blvd	Conduct a corridor study/pre-design analysis to evaluate potential improvements to pedestrian facilities, transit facilities, landscaping, street lighting and other amenities along 156th Avenue.	300			0	300	Project deleted from 2009-2020 TFP
69		TFP-204	Sunset Elementary School to 132nd Avenue SE	Construct a hard surface trail/stairway to connect Sunset Elementary School to 132nd Avenue SE at the Bentall/Newport Office Complex and SE 36th Street.	100			0	100	Project deleted from 2009-2020 TFP
70		TFP-120	Factoria Boulevard at Newport Way	Construct back-to-back double left turn pockets northbound at the Newport High School entrance and southbound a second southbound left turn lane at Newport Way and modify the channelization on the eastern leg of the Factoria Blvd/Newport Way intersection to receive the two lanes of turning traffic. Relocate the access to St. Margaret's church on Factoria Boulevard to align with the signal at the Newport High School access. Reconfigure the intersection between Factoria Blvd and the access to Newport High School, including relocation of the Factoria Blvd access to St. Margaret's church to become an eastern leg of the intersection.	4,600			0	4,600	
71		TFP-103	129th Avenue SE/SE 38th Street to Newport Way	Complete the design and construct the extension of 129th Avenue SE between to SE 38th Street and Newport Way. Investigate traffic operations at the intersection of 129th Avenue SE and SE Newport Way. Consider signalization and channelization improvements if warranted. The 2006-2017 TFP estimates the design completion at \$275K. Project implementation will be coordinated with potential future private development in the immediate vicinity.	4,590			0	4,590	
		TFP-164	173rd Avenue NE - Northup Way to City limits	Construct curb, gutter and 6' sidewalk on east side where missing; accommodate future bike lane.	1,360			0	1,360	
		TFP-207	NE 4th Street Extension / 116th Avenue NE to 120th Avenue NE and widening of 120th Avenue / NE 4th Street to NE 8th Street	The 4th Street Extension will consist of 5 vehicle lanes, bike lanes, sidewalks and will require construction of a sunken roadway and bridge(s) for BNSF RR tracks and Pedestrian over crossings. Neighborhood traffic mitigation will be evaluated to discourage cut through traffic on NE 5th Street east of 120th. 120th Avenue NE will be widened to 5 lanes with bikelanes between the 4th St. Ext. and NE 8th Street. This project does not include improvements to the intersection with NE 8th St. This project will be coordinated with potential private development in the immediate vicinity.	31,000			0	31,000	
		TFP-208	120th Avenue NE/NE 8th Street to Northup Way	Widen to five lanes with sidewalks and bikelanes. Extend/realign roadway between NE 8th Street and Old Bel-Red Rd. Key intersection improvements at NE 8th St, NE 12th St, the proposed 15th/16th St, and Northup Wy.	37,200			0	37,200	
		TFP-209	NE 15th/16th Street (Phase I)/116th Avenue at NE 12th Street to 124th Avenue NE	Construct a five lane roadway from 116th Avenue NE to 124th Avenue NE. Key intersections at 116th, 120th and 124th Avenues NE. The overall roadway cross-section will also include a frontage road, parking strips, ped/bike facilities, landscaping elements and an HOV transit corridor.	85,000			0	85,000	

TIP Ref. No.	CIP #	TFP #	Project Name	Project Description	2010-2015 Project Funding Categories (\$000)					Status
					Unsecured Funding	Secured 2010-2015 Funding			Total Cost	
						Local* Funding	Other** Funding	Total Funding		
		TFP-210	124th Avenue NE/Proposed NE 15th/16th Street Extension to Northup Way	Widen to five lanes with sidewalks. Key intersections at NE 15th/16th Street and Northup Way.	19,000			0	19,000	
		TFP-211	NE 6th Street Extension	Extend NE 6th Street, as an HOV only facility, from the I-405 HOV interchange to the east over 116th Avenue NE, crossing BNSF right-of-way, and terminating at 120th Ave NE. Improvements include two lanes in each direction with left turn lanes at signalized intersections of I-405 and 120th Avenue NE, a 14' wide non-motorized pathway adjacent to and along the south side of the extension between 112th Ave NE and 120th Ave NE, I-405 corridor design standards, illumination system, retaining walls, landscaping for at-grade locations, underground utilities, detention/water quality treatment, and provisions that do not preclude future regional trail or other improvements within the BNSF corridor.	68,000			0	68,000	
		TFP-213	124th Avenue NE/Bel-Red Road to Planned NE 15th/16th Street Extension	Widen to 5 lanes with sidewalks.	9,200			0	9,200	
		TFP-214	124th Avenue NE/Bel-Red/Old Bel-Red Road	Project scope is currently being analyzed/refined through continued Bel-Red Corridor Plan work. Until completion of the continued analysis, the project scope may be defined as follows: Provide a second westbound left turn lane, a southbound right turn lane and widen 124th Avenue NE to provide a second southbound lane between Bel-Red Rd. and Old Bel-Red Rd; upgrade signal equipment; and provide new curb, gutter, and sidewalk adjacent to widening. The \$3,000K funding allocation is a magnitude of cost estimate to be used until an engineer's estimate can be developed.	3,000			0	3,000	
		TFP-215	NE 15th/16th Street (Phase II)/124th Avenue NE to 136th Place NE and 136th Place NE/NE 16th to 20th Streets	Extend five lane roadway from 124th Avenue NE to 136th Place NE with a key intersection at 130th Avenue NE. Widen 136th Place NE five to three-lanes between NE 16th Street and NE 20th Street (reduction occurs at the intersection); add a double westbound left turn on NE 20th Street.	181,000			0	181,000	
		TFP-216	112th Avenue NE/NE 2nd Street	Straighten and realign NE 2nd Street between 112th and 114th Avenues NE, add dual southbound left turn lanes and a northbound right turn lane. Project implementation will be coordinated with potential future private development in the immediate vicinity.	1,880			0	1,880	
		TFP-217	124th Avenue NE at SR-520	Construct ramps to and from the east. This project would likely be a regional or outside agency-led effort in which the City may choose to participate financially. The \$500K funding allocation is a placeholder that may be used to initiate project pre-design or early implementation.	500			0	500	
		TFP-218	130th Avenue NE/NE 20th to NE Bel-Red Road	Construct turn lanes, shared bike lanes, on-street parking and sidewalks between NE 16th and NE 20th Streets and widen to three lanes with shared bikelanes and sidewalks between NE 16th Street and Bel-Red Road. Key intersections at NE 20th, NE 16th and Bel-Red Road. Project implementation will be coordinated with potential future private development in the immediate vicinity.	6,780			0	6,780	
		TFP-219	NE 8th Street/106th Avenue NE	Realignment of the roadway to the south will better utilize the new westbound travel lane (between 108th and 106th Avenues NE; funded in CIP) and preserve the existing large sequoia tree. This realignment will allow NE 8th Street three through lanes westbound from I-405 to Bellevue Way. Project implementation will be coordinated with potential future private development in the immediate vicinity.	1,740			0	1,740	
		TFP-220	SE 40th Lane/Factoria Boulevard	Lengthen the southbound to eastbound left turn lane and lengthen the westbound left turn lane.	280			0	280	
		TFP-221	148th Avenue intersection safety and reliability	This project would improve the safety and reliability at four signalized intersections along the 148th Avenue corridor, including SE 24th Street, SE 8th Street, Main Street, and NE 8th Street. The project would remove and replace aging wiring and poles to increase reliability and reduce signal malfunctions at these intersections that have not had any major upgrades since their construction in 1975.	1,000			0	1,000	
		TFP-222	Bellevue Way/NE 4th Street	Add a southbound right turn lane and a westbound right turn lane. Dual westbound left turn lanes. Project implementation will be coordinated with potential future private development in the immediate vicinity.	1,690			0	1,690	
		TFP-223	Bellevue Way/NE 8th Street	Add southbound right turn lane. Project implementation will be coordinated with potential future private development in the immediate vicinity.	1,260			0	1,260	
		TFP-224	Bel-Red Road/NE 20th Street	Add southbound right turn lane; convert westbound lanes on NE 20th Street to provide left turn, left turn/through and through/right turn lanes. Scope and cost may be modified based on ongoing analysis and coordination with City of Redmond associated with development of a BROTS successor agreement.	1,450			0	1,450	
		TFP-225	Bellevue Way/NE 2nd Street	Add a northbound right turn lane and a second southbound left turn lanes. Project implementation will be coordinated with potential future private development in the immediate vicinity.	890			0	890	
		TFP-226	NE 11th/12th Street to 116th Avenue NE Connection (across from Overlake Hospital)	Construct new 4/5 lane connection.	44,480			0	44,480	

TIP Ref. No.	CIP #	TFP #	Project Name	Project Description	2010-2015 Project Funding Categories (\$000)					Status
					Unsecured Funding	Secured 2010-2015 Funding			Total Cost	
						Local* Funding	Other** Funding	Total Funding		
		TFP-227	123rd Avenue SE - SE 60th Street to SE 64th Place	Construct curb, gutter and 6' sidewalk on west side where missing between SE 60th Street and SE 64th Place; sign bike route.	1,050			0	1,050	
		TFP-228	148th Avenue SE - SE 44th Street to SE 46th Street	Construct curb, gutter and 6' sidewalk, 14' (15' uphill) travel lane on the west side of street. Connect to existing sidewalk north of SE 44th St (within King county) to existing sidewalk south of SE 46th St.	1,060			0	1,060	
		TFP-229	116th Avenue SE - SE 60th Street to Newcastle Way	Construct curb, gutter and 6' sidewalk on the east side of the street. Curb 14' from center of roadway.	1,340			0	1,340	
		TFP-230	108th Avenue NE - NE 12th Street to Main Street	108th Avenue NE Downtown corridor enhancement consisting of Great Streets, Midblock Crossing, Ped Corridor interface and bike lanes. This funding would cover the estimated shortfall and allow for the inclusion of bike lanes between NE 12th and NE 8th Streets and between NE 4th and Main Streets.	1,750			0	1,750	
		TFP-231	SE 7th Place - Lake Hills Connector to cul-de-sacs	Construct curb, gutter and 6' sidewalk on one side, the side to be determined in the initial design process which will include community outreach/involvement facilitation.	1,030			0	1,030	
		TFP-232	164th Avenue NE/SE - NE 18th Street to SE 14th Street	Designate bike shoulder on both sides between NE 18th Street and Northup Way and between NE 8th Street and SE 14th Street. Stripe and sign 5 foot bike lanes between Northup Way and NE 6th Street. Accomodate on-street parking on the east side of the street from NE 6th Street to SE 14th Street.	7,400			0	7,400	
		TFP-233	130th Place/Avenue SE/Newport Way to SE 47th Place	Construct curb, gutter and 6' sidewalk, where missing, on the east side of the street.	1,510			0	1,510	
		TFP-234	Main Street - 100th Avenue to 116th Avenue	Funding to support pedestrian and bicycle facility components of Main Street project - currently in a pre-design process.	500			0	500	
		TFP-235	108th Avenue NE - NE 24th Street to NE 12th Street	Add wide bike shoulder on both sides where not complete. Construct a 6 foot sidewalk on east side from NE 24th Street to north of NE 19th Street.	2,350			0	2,350	
		TFP-236	NE 24th Street - 108th Avenue NE to 112th Avenue NE	Add a wide bike shoulder on both sides of NE 24th from 108th to 112th Avenues NE.	1,510			0	1,510	
		TFP-237	123rd Avenue SE - SE 20th to SE 26th Streets	Construct curb, gutter and 5' sidewalk, place curb 14' from center of the roadway on the east side of the street. Parking bays where feasible.	950			0	950

Section III: Other Unfunded Local Projects Identified By Completed Alternative Analyses and Planning or Pre-Design Studies										
72			148th Avenue SE HOV Lane Implementation	Evaluate/implement a new transit/HOV lane on southbound 148th Avenue SE from Lake Hills Boulevard to the third southbound lane south of SE 24th.	3,800			0	3,800	
73			SE 36th Street/142nd Place to 14700 Block Non-motorized Improvements	Widen SE 36th Street to accommodate 5' bicycle lanes.	1,790			0	1,790	
74			Lakemont Boulevard Implementation - Cougar Mountain Way to south city limit (phase 3)	Between Cougar Mtn. Way and Forest Drive, construct sidewalk and bike lanes on both sides, planters and center median or refuge lane where feasible; between Forest Drive and south city limit, add bike lane on the east side of roadway and meandering sidewalk through recently annexed City property on east side of roadway.	1,400			0	1,400	
75			NE 24th Street - 171st Avenue NE to 172nd Avenue NE	Maintenance project to address settlement of shoulder, curbing and sidewalk at road edge. Broken stream culvert will be addressed, in coordination with Utilities, as part of this project.	340			0	340	
76		TFP-093	NE 24th Street Non-motorized Improvements	West segment, Northup Way to the SR-520 Trail, includes constructing a 10 foot multi-purpose path and a planting strip buffer along the south edge of the road. (East segment completed in 2007).	1,600			0	1,600	
77			Reconfigure SE 35th Place Tunnel at I-90	Widen sidewalk through the tunnel to become an 8-9' wide multi-purpose trail with a crash barrier separating the trail from the roadway. Install improved lighting along the length of the tunnel.	720			0	720	
78		TFP-209 TFP-215	NE 15th/16th Streets/136th Place NE to 116th Avenue at NE 12th Street - Stage 1	Along NE 16th Street, widen three to five lanes from 136th Place NE to 132nd Avenue NE; extend 5 lane roadway from 132nd Avenue NE to NE 12th Street at 116th Avenue NE. Key intersections at 116th, 120th, 124th and 130th Avenues NE.	88,000			0	88,000	Adopted in 2009-2020 TFP. See Section II.
79		TFP-208	120th Avenue NE/Northup Way to NE 8th Street	Widen to five lanes. Extend/realign roadway between Old Bel-Red Rd and NE 8th St. Bike lanes from NE 8th to NE 15th Sts. Key intersections at NE 8th, 12th, 16th Streets and Northup Way.	36,162			0	36,162	Adopted in 2009-2020 TFP. See Section II.
80		TFP-210 TFP-213	124th Avenue NE/Northup Way to Bel-Red Road	Widen to five lanes; between Northup Way and Bel-Red Road. Key intersections at Bel-Red Rd, NE 16th St, and Northup Way.	24,006			0	24,006	Adopted in 2009-2020 TFP. See Section II.
81		TFP-218	130th Avenue NE/NE 20th to NE Bel-Red Road	Widen to two to three lanes with turn pockets and on-street parking; shared bike lanes. Key intersections at NE 20th, NE 16th and Bel-Red Road	6,773			0	6,773	Adopted in 2009-2020 TFP. See Section II.
82		TFP-219	NE 8th Street/106th Avenue NE	Realignment of the roadway to the south will better utilize the new westbound travel lane (between 108th and 106th Avenues NE; funded in CIP) and preserve the existing large sequoia tree. This realignment will allow NE 8th Street three through lanes westbound from I-405 to Bellevue Way.	1,733			0	1,733	Adopted in 2009-2020 TFP. See Section II.
83		TFP-216	112th Avenue NE/NE 2nd Street	Straighten and realign NE 2nd Street between 112th and 114th Avenues NE, add dual southbound left turn lanes and a northbound right turn lane.	1,871			0	1,871	Adopted in 2009-2020 TFP. See Section II.
84		TFP-225	Bellevue Way/NE 2nd Street	Add a northbound right turn lane and a second southbound left turn lanes.	884			0	884	Adopted in 2009-2020 TFP. See Section II.
85		TFP-222	Bellevue Way/NE 4th Street	Add a southbound right turn lane and a westbound right turn lane. Dual westbound left turn lanes.	1,681			0	1,681	Adopted in 2009-2020 TFP. See Section II.
86		TFP-223	Bellevue Way/NE 8th Street	Add southbound right turn lane.	1,254			0	1,254	Adopted in 2009-2020 TFP. See Section II.
87		TFP-207	NE 4th Street Extension / 116th Avenue NE to 120th Avenue NE	Design and construct a preliminary recommendation from the Wilburton/NE 8th Street Study. The roadway will consist of five vehicle lanes, bike lanes, sidewalks and will require construction of a sunken roadway and bridges for BNSF and Pedestrians. Neighborhood traffic mitigation will be evaluated to discourage cut through traffic on NE 5th Street east if 120th Avenue NE. This project will be coordinated with potential private development in the immediate vicinity.	30,810			0	30,810	Adopted in 2009-2020 TFP. See Section II.
88		TFP-211	NE 6th Street Extension	Extend the NE 6th Street HOV bridge over northbound I-405 to 116th Avenue NE and/or 120th Avenue NE	40,460			0	40,460	Adopted in 2009-2020 TFP. See Section II.
89			112th Avenue SE/SE 4th Street	Add a northbound left turn lane.	2,597			0	2,597	
90		TFP-224	Bel-Red Road/NE 20th Street	Add southbound right turn lane; convert westbound lanes on NE 20th Street to provide left turn, left turn/through and through/right turn lanes.	1,446			0	1,446	Adopted in 2009-2020 TFP. See Section II.
91			131st Avenue SE/132nd Avenue SE between SE 36th Street and SE 38th Street	Realign 131st Ave SE/132nd Ave SE to form a vehicular and pedestrian connection between SE 36th St and SE 38th St.	372			0	372	

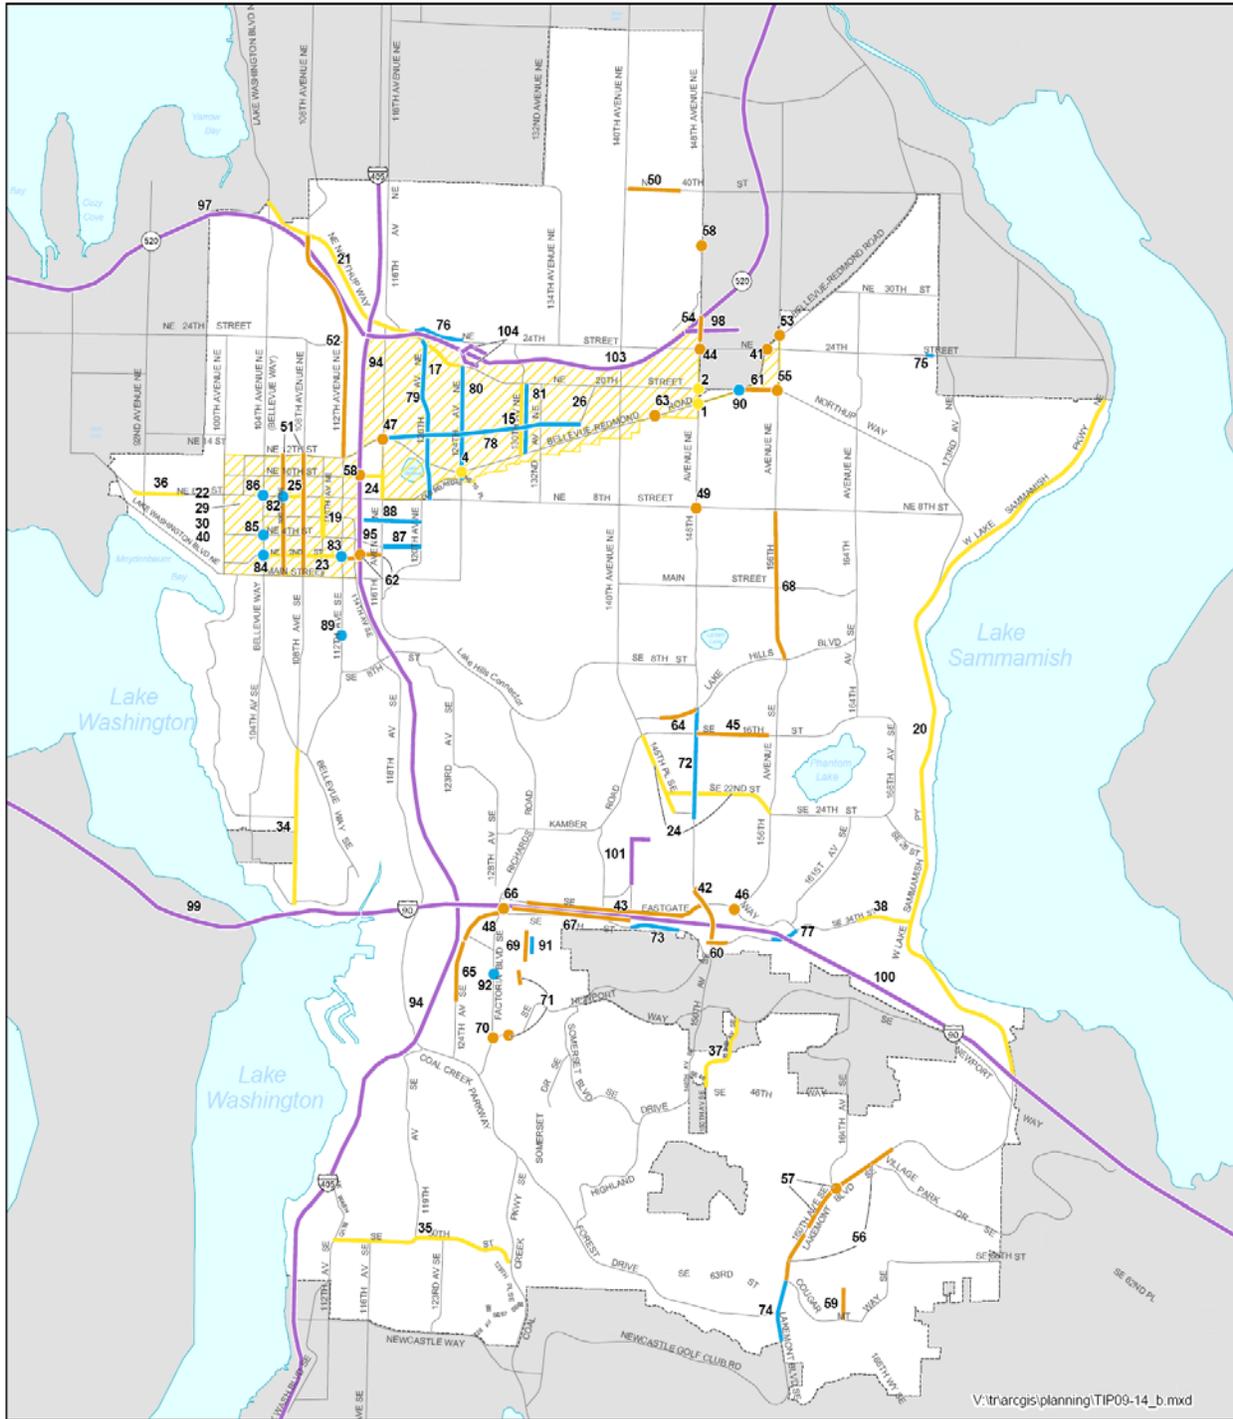

TIP Ref. No.	CIP #	TFP #	Project Name	Project Description	2010-2015 Project Funding Categories (\$000)					Status
					Unsecured Funding	Secured 2010-2015 Funding			Total Cost	
						Local* Funding	Other** Funding	Total Funding		
92		TFP-220	SE 40th Lane/Factoria Boulevard	Lengthen the southbound to eastbound left turn lane and lengthen the westbound left turn lane.	277			0	277	Adopted in 2009-2020 TFP. See Section II.
93			Pedestrian and Bicycle Transportation Plan Implementation	The 2008 Pedestrian and Bicycle Transportation Plan update provides a long term vision for completion of pedestrian and bicycle systems throughout the city. As funding is secured, this project would fund the pre-design, design, property acquisition, construction, and other activities to advance the Plan's identified high priority needs. Improvements may include sidewalks, pathways, trails, bicycle lanes or other bicycle facilities, and wayfinding systems.	10,000			0	10,000

Section IV: Regional or Outside Agency-Led Projects in which the City May Choose to Participate Financially										
94			I-405 Corridor Program Implementation	Consider if and how the City will participate with state and regional partners in the development and implementation of the I-405 Corridor Program and its components or connections to the local transportation system north and south of downtown Bellevue (generally, South of NE 2nd Street and North of NE 10th Street, including interchange modifications at I-90 and SR 520). Project funds, as secured, may be used to conduct focused planning, design, and ROW needs studies, prepare final designs, acquire ROW, and for construction.	10,000			0	10,000	
95			I-405: Downtown Bellevue Improvements	Consider if and how the City will participate with state and regional partners in the development and implementation of I-405 Corridor Program components or connections to downtown Bellevue to meet future travel demand and related economic development demands. Improvements may include and are not limited to completion of the NE 10th St. overcrossing and ramps to and from SR 520; improvements related to the general purpose capacity of the I-405 mainline through downtown Bellevue; improvements related to the proposed NE 2nd St. half interchange; improvements related to the extension of the NE 6th St. HOV direct access ramp eastward to 120th Ave NE; and improvements related to the implementation of HOT (high occupant and toll) lanes.	15,000			0	15,000	
96			I-405 Bus Rapid Transit Implementation	Consider if and how the City will participate with regional partners in the development and implementation of a Bus Rapid Transit system along the I-405 corridor. Project funds, as secured, may be used to conduct planning, design or ROW needs studies, to prepare final designs, to acquire ROW and to complete construction. The project will evaluate/implement system components including mainline improvements, direct access ramps and park and ride development or expansion.	5,000			0	5,000	
97			SR 520 Bridge Replacement and HOV Project	Consider if and how the City will participate with state and regional partners in the development and implementation of the SR 520 Project and its components or connections to the local transportation system. Project funds, as secured, may be used to conduct focused planning, design and ROW needs studies, to prepare final designs, to acquire ROW and to complete construction. The project will evaluate/implement SR 520/Translake Project components including mainline widening; added/improved interchanges at Bellevue Way, 108th Avenue NE, I-405, 124th Avenue NE; an added HOV lane on 112th Ave NE between NE 12th Street and the 108th Ave NE interchange at SR 520; arterial/intersection improvements to 108th/112th Avenue NE, and the entrance to the South Kirkland Park & Ride.	15,000			0	15,000	
98			SR 520 Eastbound Off Ramp to 152nd Avenue NE	Consider if and how the City will participate with state and regional partners in the development and construction of a new slip ramp from eastbound SR 520 under 148th Avenue NE to 152nd Avenue NE.	1,000			0	1,000	
99			I-90 HOV System Implementation	Consider if and how the City will participate with state and regional partners in the development and implementation of improvements to the I-90 HOV System and its components or connections to the local transportation system. Project funds, as secured, may be used to conduct focused planning, design and ROW needs studies, to prepare final designs, or to acquire ROW and for construction. The project will evaluate/implement improvements such as the two-way transit and HOV operations project; and added/improved access to/from I-405 and Bellevue Way SE (South Bellevue Park and Ride).	5,000			0	5,000	
100			I-90 Corridor Study	Consider if and how the City will participate with state and regional partners to implement I-90 corridor study recommendations between I-405 and points east as far as North Bend environs. The Study, being developed in 2007, will recommend improvements to the corridor for general purpose traffic, high occupancy vehicle facilities, freight demands, and non-motorized uses.	2,000			0	2,000	

TIP Ref. No.	CIP #	TFP #	Project Name	Project Description	2010-2015 Project Funding Categories (\$000)					Status
					Unsecured Funding	Local* Funding	Other** Funding	Total Funding	Total Cost	
101			BCC Campus Transit Improvement / Snoqualmie River Road Reconstruction	Consider if and how the City will participate with Bellevue Community College and King County Metro Transit to widen and reconstruct this north-south street along the western edge of the BCC campus from 142nd Place SE to Kelsey Creek Road (adjacent to the ballfields). The improvements would allow bus routes to be moved to this roadway, which would conveniently serve pedestrian access to the core of the campus but without the severe conflicts with heavy vehicular and pedestrian volumes on the existing route (Kelsey Creek and Tyee River Roads). Transit routes would enable a direct connection from the Eastgate Park and Ride lot on the south, through the BCC campus and connecting with 145 Place SE and 148th Avenue. Improvements would include creation of new bus stops, passenger shelters and associated rider amenities, and continuous sidewalks connecting to the campus circulation system.	1,500			0	1,500	
102			Transit Service and Facilities Enhancements	Consider if and how the City will participate with transit providers in the development and implementation of transit service and facilities improvements throughout the City. Project funds, as secured, may be used to conduct focused planning, design and ROW needs studies, to prepare final designs, or to acquire ROW and for construction. The project will evaluate/implement transit service, opportunities for future transit-oriented development projects and facilities enhancements including bus stop amenities, bus pull-outs, neighborhood transit centers, bus layover locations and transit signal priority systems on key transit corridors.	10,000			0	10,000	
103			SR 520, I-405 to West Lake Sammamish Parkway	Consider if and how the City will participate with state and regional partners in the development and implementation of a SR 520 corridor study between I-405 and West Lake Sammamish Parkway. The study will evaluate near and long term solutions to general purpose and high occupant vehicle mobility issues. The study will evaluate auxiliary lanes between I-405 and 148th Ave NE, and other improvements necessary to support Bel-Red Corridor, Overlake, and general corridor growth.	10,000			0	10,000	
104			124th Ave NE/SR 520 interchange completion	Consider if and how the City will participate with regional and state partners in the development and implementation of SR 520 on and off ramps to and from the east at 124th Avenue NE to meet future travel demands generated by the redevelopment in the Bel-Red corridor vicinity. The interchange completion is conceptualized to be compatible with planned and potential improvements to the SR 520 corridor east of I-405, including the State-funded I-405 Northbound NE 8th Street to SR 520 Braided Ramp project that modifies eastbound SR 520 to the vicinity of 130th Ave NE.	10,000			0	10,000	
105			Interim Bus Rapid Transit Investments - Downtown Bellevue to Bel-Red Corridor to Overlake	Consider if and how the City will participate with regional partners in the development, implementation, and operation of an interim bus rapid transit system linking downtown Bellevue, the Bel-Red Corridor, and Overlake neighborhood. Project funds, as secured, may be used to conduct focused planning and alternatives analysis, design, property acquisition, and construction of improvements or other community enhancements. The focus of the effort would be to develop a bus rapid transit system as an interim investment until subsequent investment is made in light rail transit between downtown Bellevue, Bel-Red, and Overlake. The investment would be coordinated with the development of the Bel-Red transportation system, expansion of SR 520 east of I-405, and City of Redmond Overlake Neighborhood Plan implementation.	10,000			0	10,000	
106			East Link Light Rail Transit	Consider if and how the City will participate with regional partners in the development and implementation of the East Link light rail transit project. Project funds, as secured, may be used to conduct focused planning and alternatives analyses, design, property acquisition, and construction of improvements or other community enhancements. City efforts may include additional analysis of project needs and alternatives related to stations and alignment options. City efforts may also seek to enhance the investments of regional partners.	50,000			0	50,000	
TOTALS:					1,116,527	113,514	200	113,714	1,230,241	

* Local Funding includes secured revenue from other local agencies and private entities (City of Redmond, King County, Puget Sound Energy, etc.)
** Other Funding includes secured revenue from Federal and State grants.
*** Cost estimate reflects only City of Bellevue cost sharing contribution to total project cost, per BROTS Interlocal Agreement. Microsoft Corp. is committed to project implementation per Developer Agreement with City of Redmond.
