

THE GREAT COMMUNITY WORKSHOP SERIES
A Roadmap for Creating & Maintaining Vibrant Neighborhoods

Got Conflict? Make it Work For You

The word "conflict" can conjure up negative thoughts. This workshop will create a more positive understanding of the sources of conflict and provide tools to address conflicts including active listening skills, conflict styles, and negotiation skills. Mediation assists neighbors in arriving at their own creative solutions to common neighborhood problems (e.g., noisy neighbors, landlord-tenant disputes, parking issues, barking dogs, property lines, trees and fences, property maintenance, roommate problems and more). Join us for a fun, interactive, educational experience to learn how conflict can be manageable and effective. Presented by the Bellevue Neighborhood Mediation Program.
