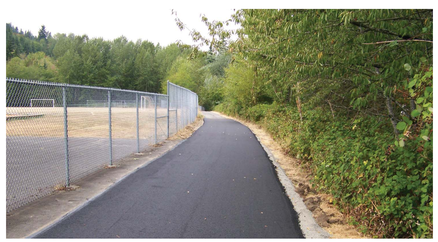
TRANSPORTATION

NEW SIDEWALKS AND TRAILS

The Neighborhood Sidewalk Program started in 2007 to help address the sidewalk needs and priorities of the city's many neighborhoods. The program budget is currently $1million per year. Candidate projects go through a prioritization process with the Transportation Commission and are evaluated based on criteria such as number of vehicles that use the street, safety, connections to activity centers, and collisions. Projects typically cost between $500,000 and $2million.

There is a backlog of over 30 high-priority neighborhood sidewalk projects, as identified by community members. At current funding levels, it could take over 30 years to complete our candidate list, with no added projects.



Completed Sidewalk Projects - Location	Cost ($)
128th Avenue SE - SE 25th to 32nd Streets	1,018,000
SE 26th Street - SE 24th Street to West Lake Sammamish Parkway	1,082,000
Somerset Avenue SE - SE Somerset Boulevard to 136th Place SE	799,000
SE 16th Street - 104th Avenue SE to Bellevue Way	389,000
Newport Way - 150th to 152nd Avenues SE (partnered with annexation funds)	1,008,000
123rd Avenue SE - SE 20th Place to SE 26th Street (in construction)	1,906,000
