

General Fire Hydrant Permit Information **City of Bellevue Utilities Department**

All permits and hydrant meters/adapters are issued from the Bellevue Service Center, located at 2901 – 115th Avenue N.E., Bellevue, from 7:00 a.m. until 3:00 p.m. Monday through Friday. Accepted forms of payment include: Visa, Master card, check or cash. Permits are valid from January 1 through December 31 (renewal must take place every year).

General hydrant permit questions can be answered by calling 425-452-7840 during regular business hours. For billing questions related to hydrant permits, please call 425-452-6989.

Tank Lot Permits

These permits are typically used by mobile water tank companies to fill water at designated hydrants within the City. The City of Bellevue Drinking Water Quality section is required to confirm and inspect an approved air gap between the fill piping and the receiving vessel. *Therefore, a tanker inspection is required prior to a permit being issued.*

Please call Tyler Himmelman in advance for an inspection appointment at 425-452-5208, Monday – Friday from 7 a.m. until 3:00 p.m.

Map of designated fill hydrants

Water usage log sheet

Note: Water Usage Logs for Tank Lot Permits are a requirement and must be received by the 15th of each month even if no water is used.

Site Specific Permits

These permits are issued to those who want to use a specific hydrant for everything from filling a swimming pool to construction use.

Please note that an approved double check valve assembly – DCVA – is the minimum requirement for connecting to a hydrant in this application. Meter sizes available are either ¾” or 3” depending upon the type of use required.

During busy summer months, certain sizes of hydrant meters may not be as available to our customers due to high demand. Please call in advance to inquire about availability. Customers are charged a monthly rental fee for the equipment and are billed for their water usage when the meter is returned.
