The mission of Bellevue Utilities is to actively support public health and safety, quality neighborhoods, and a healthy and sustainable environment and economy by effectively managing drinking water, wastewater, storm and surface water and solid waste.

- Utilities is a financially self-supporting enterprise operating as a department within the City of Bellevue.
- Utilities is comprised of four lines of business: drinking water, wastewater, storm and surface water and solid waste.
- Utilities services are critical to human health and safety needs, yet largely invisible to the general public.
- Utilities services are both immediate and exceptionally long-range.
- Utilities systems are getting old, and increases in maintenance and capital investment are inevitable.
- The City Council's investments, financial policies, and consistent commitment have placed Bellevue Utilities in a solid financial position.
- As a result, utility rates are competitive with our neighboring communities and should be even more competitive in the future.

All Rates Effective January 1, 2016, as authorized by the following Ordinances: #6201 (Water); #6203 (Sewer); #6204 (Storm and surface water); #4951 (Capital recovery charge). All charges bi-monthly unless otherwise stated.
