**Description and Scope**

This project will complete 60% design plans for the addition of five foot bike lanes, curb, gutter, four foot planter strips, and six foot sidewalks where missing on both sides of SE 16th Street between 148th Avenue SE and 156th Avenue SE. Plans at this design level will provide adequate information for Puget Sound Energy to install planned new electricity transmission system poles along the SE 16th Street corridor without conflict to the future roadway improvements.

**Rationale**

The desire to improve multi-modal facilities in order to provide safe transportation alternatives for commuters and recreational users is recognized in the vision outlined in the 2009 Pedestrian & Bicycle Transportation Plan and the City's Comprehensive Plan policies. Bellevue has historically committed to improving mobility by promoting alternative transportation methods. This project completes a missing segment of the Lake to Lake Trail, a priority bike corridor in the adopted Pedestrian-Bicycle Plan. Completion of sidewalks along this segment are also identified as a high priority by the Pedestrian & Bicycle Plan. This project supports the City's commitment to build a safe and continuous bike system and enhance the quality of life and the environment by promoting pedestrian and bicycle travel.

**Environmental Impacts**

An environmental determination will be made for this project in conjunction with preliminary engineering.

**Operating Budget Impacts**

Ongoing maintenance and operations costs of the new facilities will be determined during the project's design phase.
